The object first appeared to me at 8:30 pm. Directly overhead. I was walking across my lawn to my house with Bob Wilson. I noticed it, and yelled for Bob to look also. The object was moving quite fast (I figured 15,000^{mph} on the assumption that it was entering the Earth's atmosphere at the time that I saw it), and it was hard for Bob to pick up. He noticed it just before it broke up and disappeared. We were walking South West, and the object moved opposite to us. It took

about 1.5 seconds, or less, before
it disappeared. The only conclusion
we could come to ~~would~~ were
that it was a meteor that was
just entering the Earth's atmosphere.
(That would account for its' sudden
appearance.) The object then proceeded
to break up (into two large pieces)
and then it disappeared altogether.
(The breaking up would account
for its' disappearance, and its'
glowing). Since meteors do
travel very fast, the speed
would be accounted for. If
this was a meteor, it was
one of the largest I've ever
heard of.

TO: Hq FTD (TDA/Det Opr)
WPAFB, Ohio 45433

1. On 11 December 67, a UFO was sighted in West Berlin in the vicinity of Tempelhof Airport (also used as a USAF facility), by several guards and a duty officer. Guards on duty and Air Police attempted, unsuccessfully, to follow the object in cars. An extract from one of the followup reports stated, "a mix up with the moon is out of the question".

2. With the UFO Bible (AFR 80-17) in hand and a genuine "FTD" representative (Lt Col Klinikowski, BLO) physically in West Berlin, Det 3 was called on for advice and help. Since it's politically impossible to say "sorry, we're not interested", Lt Col Klinikowski did what he could in taking down the first and second person reports (AF Form 117) of those individuals involved. Now the problem is where do we go from here?

3. AFR 80-17 specializes the Air Force's interest in only "UFO's over the United States"; yet states elsewhere of its interest "if the UFO is a possible threat to the United States". In this recent incident, the Director of Public Safety, US Mission, Berlin personally requested FTD's evaluation; they are concerned lest there be a potential security threat to their area of responsibilities. (Lt Col Klinikowski believes it was in fact the moon and reported as much to US Mission, Berlin.)

4. When several UFO incidents occurred 15 months ago, and Hq USAFE turned to Det 3 for the answer, we forwarded all data to FTD (TDE) for their review and action. Instead of an evaluation or sound advice we received a 4 sentence letter, telling Det 3 to keep out of the UFO business, not to bother Hq FTD with these matters as long as the sightings were outside "the Continental United States." Armed with this enlightening correspondence we had to brief the Chief of Staff, USAFE, on FTD's findings. It was rather discouraging and embarrassing for all concerned. For many months we've enjoyed relative quiet on this topic until 11 Dec 67, once again we are pressured into asking Hq FTD for assistance and advice.

5. Request you pass this data on to the current FTD in-house OPR on UFO Reports, not so much for its evaluation as for help in furnishing Det 3 with a sound and reasonable professional approach in handling these matters in the future. The formula may be simple, but we need that formula so as not to decrease Det 3's stature in this theater.

1. Reference TDA (DET OPR) letter of April 5, 1968, subject "UFO Reporting," in which they transmitted a letter from Detachment 3, dated 8 January 1968, subject "UFO Reporting." It is apparent that the Detachment has a problem, however, it appears to be political and this type of advice is not available from the UFO OPR. AFR 80-17 and Change 1, thereto, specifically states that "this regulation establishes the Air Force program for investigating and analyzing UFOs over the United States." The Deputy Chief of Staff for Research and Development at Hqs USAF is not in favor of investigating UFO reports which occur on foreign soil. If the Facility Commander feels that his facility is threatened by an unidentified flying object, then he should take immediate steps to inform his Air Defense Forces.
2. FTD cannot offer any guidance for the investigation of UFOs in continental Europe because AFR 80-17 is not seeking UFO reports which occur outside the continental limits of the United States.

SUBJECT: Unidentified Flying Object Over the
Area of Tempelhof

[Handwritten signature]
USBER/PS

1. a) Police Inspection Tempelhof - Wisserodt -
telephone at 0845 hrs

On Dec 11, 1967 about 0140 hrs, the Army guard at the radar system of Marienfelde watched an unidentified object flying to the airport Tempelhof. The flying object was observed for 15 minutes by several guards of the IP-Luft (industrial police - air) floating over the airport Tempelhof. Toward the end of that period the object glided about 50-70 m high over the departure hall of the airport. There the object was also observed by the duty officer of the IP-Luft at Columbiadamm.

Description of the flying object; round, orange colored.

Then the unidentified flying object disappeared. No sound coming from that object was heard. Radio operations center was informed.

- b) IP-Luft - Mergener - on telephone inquiry:

Above statements are confirmed.

The flying object had the form of an average orange, flew without lights and had a diameter of about 5-10 meters.

The airport - military side - had been alerted by an soldier of the Air Force who was on duty at the old airport (firing range). According to the statement of this soldier the flying object came directly towards him and flew then away from him towards hangar B, old control tower, where it stood for 10-15 minutes about 70 m high.

Guards on duty of IP-Luft and Air Force police tried to follow the unidentified flying object by cars, however, discontinued their plan when they reached Columbiadamm, because the object flew away in a north-western direction.

A mix-up with the moon is out of the question, since he had already disappeared. Whether the flying object was registered by the radar systems Marienfelde, Teufelsberg and airport Tempelhof, is not known, because these installations work "strictly secret" and give no information. In case details will become known, PGrS will be informed.

- c) Radio Operations Center on telephone inquiry:

The radio operations center was informed by the duty officer of IP-Luft. Inquiries made at the police bases along the demarcation line and with several radio patrol cars did not confirm the reports.
