The Observer states that she sees UFOs every night that is clear. She has a previous case of 8 Feb 67. A Mo. State Trooper investigated the sighting and stated that the observer had pointed out airplane as a UFO at that time.

14. WHAT DREW YOUR ATTENTION TO THE PHENOMENON?

After seeing them for a year I never go near a window unless I look out. I was just checking the temperature to the north bedroom window. So to see what looked like a large star in light. I watched it. It took 10 minutes before the others joined them. When they are near we always let us know.

A. HOW DID IT FINALLY DISAPPEAR?

After all the other lights joined it. It slowly went north, then a little to the east.

B. DID THE PHENOMENON MOVE BEHIND OR IN FRONT OF SOMETHING, LIKE A CLOUD, TREE, OR BUILDING AT ANY TIME?

☐ YES ☒ NO. IF "YES," DESCRIBE.

15. DRAW A PICTURE THAT WILL SHOW THE SHAPE OF THE PHENOMENON. INCLUDE AND LABEL ANY DETAILS THAT MIGHT HAVE APPEARED AS WINGS OR PROTRUSIONS, AND INDICATE EXHAUST OR VAPOR TRAILS. INDICATE BY AN ARROW THE DIRECTION THE PHENOMENON WAS MOVING.

At this particular morning I only saw the white light like a large star, that turns red or red-orange. The lights that came up to it were red-orange.

Over bed room window is to the north of the house I looked north and a little west. It finally went north east.

16. WHAT WAS THE ANGULAR SIZE? HOLD A MATCH AT ARM'S LENGTH IN FRONT OF A KNOWN OBJECT, SUCH AS A STREET LAMP OR THE MOON. NOTE HOW MUCH OF THE OBJECT IS COVERED BY THE HEAD OF THE MATCH. NOW IF YOU HAD BEEN ABLE TO PERFORM THIS EXPERIMENT AT THE TIME OF THE SIGHTING, ESTIMATE WHAT FRACTION OF THE PHENOMENON WOULD HAVE BEEN COVERED BY THE MATCH HEAD.

This is hard to say as they saw less than lights until it looks like a small star then gradually increase it, well to give you me ~~more~~ description It looked like and old fashion round spaceship. This one however was like the biggest star you see.

17. DID YOU OBSERVE THE PHENOMENON THROUGH ANY OF THE FOLLOWING? INCLUDE INFORMATION ON MODEL, TYPE, FILTER, LENS PRESCRIPTION OR OTHER APPLICABLE DATA.

18. WHAT WAS YOUR IMPRESSION OF THE SPEED OF THE PHENOMENON? GIVE ESTIMATE OF SPEED <i>Very close. About 20 miles per hour. It seemed to be a mile or so from the ground level. Height not sure.</i>		19. WHAT WAS YOUR IMPRESSION OF THE DISTANCE OF THE PHENOMENON? GIVE ESTIMATE OF DISTANCE <i>Not sure.</i>	
20. IN ORDER THAT WE MAY OBTAIN AS CLEAR A PICTURE AS POSSIBLE OF WHAT YOU SAW, DESCRIBE IN YOUR OWN WORDS A COMMON OBJECT OR OBJECTS WHICH, WHEN PLACED IN THE SKY, SIMILAR TO WHERE YOU NOTED THE PHENOMENON, WOULD BEAR SOME RESEMBLANCE TO WHAT YOU SAW. DESCRIBE SIMILARITIES AND DIFFERENCES BETWEEN THE COMMON OBJECT AND WHAT YOU SAW.			
These lights can't be compared to anything we have. When they are white. It's clear and twinkles a lot. Most times like the largest star you see.			
21. DID YOU NOTICE ANY ODOR, NOISE, OR HEAT EMANATING FROM THE PHENOMENON OR ANY EFFECT ON YOURSELF, ANIMALS OR MACHINERY IN THE VICINITY? ☐ YES ☒ NO. IF "YES," DESCRIBE.			
Not this time but other time yes. Last spring when they went across our front lawn ground level they stayed here from 4 until 5 in morning. It smelt like orange peel. Our dog just goes wild.			
A. DID THE PHENOMENON DISTURB THE GROUND OR LEAVE ANY PHYSICAL EVIDENCE. ☐ YES ☒ NO. IF "YES," DESCRIBE.			
It was too far this time as it was on Hunter's ground where the little ones come up and they have seen them on several occasions. The one was over the tree tops. the ground is joining to the north of us.

27. INFORMATION WHICH YOU FEEL IS PERTINENT BUT WHICH IS NOT ADEQUATELY COVERED IN THIS QUESTIONNAIRE, ALTERNATIVELY PROVIDE A NARRATIVE EXPLANATION OF THE SIGHTING.

On Feb 8 - 1967 the time 8:15 (I'm sure as my neighbor was home from church)
I saw a large red light dimmed behind our house to the north at the edge
of the clearing, about a city block from our house at ground level. I thought
at first it was a hunter but the light looked as large as the old car
headlights and couldn't imagine why he was carrying such a big
one. I watched looking through the bed room window the sky looked
funny - It drew my attention then it got brighter and brighter
until our whole yard looked like day. The red light backed into
the woods and the one above our home gradually went out. This
night our dog nearly tore the house apart and we didn't hear
anything. It went on night after night I would see it come in
from the east either white or orange red. One night my sister
and her husband were here from St. Louis it came in red ^{7:30 pm} looked
like the sun it goes back of the trees below tree tops and three
little balls fly off I told Mr. [redacted] they look like they are
breathing. So many try to say house lights or car lights where they
are no roads and houses, as I knew Mr. [redacted] was anxious to see
them. There were [redacted] his wife and son, my husband & I, this
was spring, date I don't remember. I thought I gave them to Mr.
[redacted]. When they came in there was one to the south west
in sky. They said is that one I said Mr. [redacted] said that's the
looming star. (His wife runs our paper) and hour later they said are
you sure I said no. That's what I was told we watched it and it
went down behind a house of an old person to the south west
of us and spun like a top. This was the only one I saw spin.

They were in [redacted] garden to the west where we
did all signs of burnt rubber tops. They ran across our front
lawn came from west to east crossed highway C and into
[redacted] woods that has a pond. They mentioned you know many
I counted 12 ground level & low in the sky that night.
This night in the garden they worked back and forth side to side
then up and down. They kept shooting white light out in front
in a shape. This I was told by some men they could
draw something from [redacted] in such in Feb.

On May 1st about 8:15 PM my dog again had a fit & lay on the back & seemed
strange of her not light about as long as a carp. They were about 3 ft apart
and then sometimes but went about 15 ft and went out, then were on
dog the whole my neighbor to the last got her glass and could see faint
he went in and said "Ouch" for the light again. They were young but

They came this late about 5:30 but were a little later in the morning
at 7 PM. My husband saw one called me. This was the 14th he went out
the 15th at 6 PM. At 7 PM ~~the dog~~ saw what they thought was a glass
falling and said just as with the dog's burning the back looked like a lightning
then the better clear up. the called through a telephone. The other
said he was at our house in spring and they must have seen the same.
Apr 16th there was one at ~~the house~~ first again noticed to answer from
the back to the west of us across highway. Another there at 6:30
Apr 17th at 6 PM one at ~~the house~~ in that direction again. This was the
north of garden and in front of house.

The great spring may now in the year. I will see them. I said one just went
behind the house to our south. That is a road to the east of the house. In
fact the car must have seen the hill and up the other to where a house lives (up)
to toward my daughter's house. It is as when he was down to the lower part of the
are another with light behind him when he got to the top of the hill the
light that followed behind must be the road to where he was. This may
be true. I saw but my son-in-law didn't as it would have been
about the car for us to see it. One night the spring from out in back
and the large white light coming not far above the house
to see. I saw through our house and the spring the hill between
our house at about 10 PM. I didn't turn when we got through at 10 PM
a good look. This was night.    I didn't know the good but after
light was ahead and behind the  well. One light above, and the
others below. The bottom is the circle that go around light. The one
then the one above and of the hill and behind and down them
down from both sides the middle light there. The good was a
line of white light ground had several of a building of that kind
to the west of them. There and road back in the morning then
out. I said one was the one on the hill between the hill and

MISSOURI STATE HIGHWAY PATROL

Cuba, MissouriMarch 7, 1967

Subject: Report of unidentified flying objects, Crawford County, Missouri

To : Commanding Officer, Troop I
Missouri State Highway Patrol
Rolla, Missouri

1. On March 5, 1967, Troop I Rolla advised reporting officer that they had received a letter from a Mrs. [redacted] who lives about two and one-half miles northwest of Bourbon, Missouri, [redacted]. She stated in the letter that she had been seeing lights in the woods behind her house and across the road and she seemed to think that they were unidentified flying objects.
2. Reporting officer contacted Mrs. [redacted] the afternoon of March 5, 1967, and she talked for sometime about the lights. She showed this officer where they had been seen and just what they did. She stated the first time she saw them they landed in the woods behind her house. She stated that there was one about the size of a dinner plate and after the one landed several smaller ones would leave it. The small ones were about the size of a baseball. The small ones would then go back to the large one and they would leave. The first time they were seen was February 8, 1967, and she stated she had seen them almost every night since. She also stated that several other people had seen them, including the children of [redacted] who live directly behind her. This officer contacted the [redacted] family and talked with the six children ranging from five to seventeen years old. They stated they were carrying out some trash one afternoon late and saw this object about the size of a car coming towards them from out of the sky. They all dropped their trash and ran into the house. They have not seen any more.
3. The night of March 6, 1967, this officer went back to the home of Mrs. [redacted] and observed the area for about two hours. During this time officer observed eight airplanes, all flying from east to west or west to east. They have flashing red, green and white lights. Mrs. [redacted] pointed to one and said, "There is one now."
4. It is the opinion of this officer that Mrs. [redacted] lives in a flight path and what she is seeing is airplanes. When the airplanes are off some distance, they appear to be coming through the woods. Mrs. [redacted] is getting up in years and since she has been watching this for so long, this officer feels that her imagination is contributing to some of the things she sees.

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW AFR 80-17. (IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)

1. WHEN DID YOU SEE THE PHENOMENON?

Last one was Sunday DAY Jan 7 MONTH Jan YEAR 1968

2. WHAT TIME DID YOU FIRST SIGHT THE PHENOMENON?

HOUR 6 MINUTES 30 ☒ A.M. ☐ P.M.

3. WHAT TIME DID YOU LAST SIGHT THE PHENOMENON?

HOUR 6 MINUTES 55 ☐ A.M. ☐ P.M.

4. TIME/ZONE

☐ DAYLIGHT SAVINGS☐ STANDARD☐ EASTERN☒ CENTRAL☐ MOUNTAIN☐ PACIFIC☐ OTHER

5. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? IF IN CITY, GIVE THE NEAREST STREET ADDRESS AND INDICATE ON A HAND DRAWN MAP WHERE YOU WERE STANDING WITH REFERENCE TO THE ADDRESS. IF IN THE COUNTRY, IDENTIFY THE HIGHWAY YOU WERE ON OR NEAR AND TRY TO FIX A DISTANCE AND DIRECTION FROM SOME RECOGNIZABLE LANDMARK.

I was checking the temperature at our back bed room window to the north and a little west. It looked like a big star but it was the only one and was light out side. It was just above the tree tops. The noise then all seemed as I knew it had to be connected with the others. About 6:40 the orange red ones came up from the ground in line and later when I counted 6 one on the right got out of line went clear over the top came down in the middle. Nothing there and I lost count but there were many more. At 6:50 or 55 I'm not sure I saw again the exact time it was before 7 they took off and went north then north east.

6. IMAGINE YOU ARE AT THE POINT SHOWN IN THE SKETCH, PLACE AN "A" ON THE CURVED LINE TO SHOW HOW HIGH THE PHENOMENON WAS ABOVE THE HORIZON, OR SKYLINE, WHEN FIRST SEEN. PLACE A "B" ON THE SAME CURVED LINE TO SHOW HOW HIGH ABOVE THE HORIZON THE PHENOMENON WAS WHEN LAST SEEN.

6A. NOW IMAGINE YOU ARE AT THE CENTER OF THE COMPASS ROSE. PLACE AN "A" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN FIRST SEEN. PLACE A "B" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN LAST SEEN.

7. IN THE SKETCH BELOW, PLACE AN "A" AT THE POSITION OF THE PHENOMENON WHEN FIRST SEEN, AND A "B" AT THE POSITION OF THE PHENOMENON WHEN LAST SEEN. CONNECT THE "A" AND "B" WITH A LINE TO APPROXIMATE THE MOVEMENT OF THE PHENOMENON BETWEEN "A" AND "B". THAT IS, SCHEMATICALLY SHOW WHETHER THE MOVEMENT APPEARED TO BE STRAIGHT, CURVED OR ZIG-ZAG. REFER TO SMALLER SKETCH AS AN EXAMPLE OF HOW TO COMPLETE THE LARGER SKETCH.

8. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? (Check appropriate blocks.)

WAS THE PHENOMENON IN SIGHT CONTINUOUSLY? ☒ YES ☐ NO. IF "NO," INDICATE WHETHER THIS IS DUE TO YOUR MOVEMENT OR THE BEHAVIOR OF THE PHENOMENON, AND DESCRIBE SUCH MOVEMENT OR BEHAVIOR. INDICATE DISAPPEARANCES ON PREVIOUS SKETCHES.			
<i>This was one seen for over a year but didn't realize it until Feb 8 - when they were every where. The Air Force has a few names that have seen them but have not checked all. A Mr. [redacted] was here.</i> <i>They always stay in the sky above the ones that work ground level. Its something to see when you see it come in all lit up.</i> <i>I'll draw all that I seen on back page.</i> <i>Mr. [redacted] 5 miles to the west saw it the first time at 11 Dec. 15 at 6 P M.</i>			

10. IF THERE WERE MORE THAN ONE PHENOMENON, HOW MANY WERE THERE? DRAW A PICTURE TO SHOW HOW THEY WERE ARRANGED. DID THIS ARRANGEMENT CHANGE DURING THE SIGHTING?

Spikes like a large twinkling star. There were 2 lines of red orange smaller lights came from the ground when one got out of line and went over the top. That sound but they were as much. One Sunday night we, my husband and I saw this  to the north east. I went that date & time to you there red orange balls as big as grape fruit leaves both ends at time and circles but last. I'm sure that's what that was as it was a white and red light on top.

12. GIVE A BRIEF DESCRIPTION OF THE PHENOMENON, INDICATING WHETHER IT APPEARED DARK OR LIGHT, WHETHER IT REFLECTED LIGHT OR WAS SELF-LUMINOUS AND WHAT COLORS YOU NOTICED. DESCRIBE YOUR IMPRESSION OF WHETHER IT WAS SOLID OR TRANSPARENT, WHETHER EDGES WERE SHARP OR FUZZY. DESCRIBE THE SHAPE OR INDICATE IF IT APPEARED AS A POINT OF LIGHT. INDICATE COMPARISONS WITH OTHER OBSERVED OBJECTS, LIKE STARS, A LIGHT OR OTHER OBJECT IN YOUR FIELD OF VIEW.

All I ever see is lights. It goes from red to amber then white and then looks like it goes dark before it starts over. My brother-in-law has good binoculars this past summer we checked them. It turns a green instead of going out. This you can't see with the naked eye. My vision is good at distance so I need glasses to read.
