REFER TO SMALLER SKETCH AS AN EXAMPLE OF HOW TO COMPLETE THE LARGER SKETCH.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

5. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

As you know from the forms I have filled out I have seen V. F. O. a seven times before. I would like to give you a description of the objects. The first time I saw a V. F. O. I took a picture of it which I will enclose along with the negative. The last time that I sighted a V. F. O. was on January 27, 1968. I saw these V. F. O. before they looked whitish and I was in my house at least 40 feet away from it. It moved very fast and then slowed up and hovered and flew away. It always came back at least three times a night. The lights on the V. F. O. blinked off and on. It stayed near lights, trees, and buildings so it could not be photographed. The only reason I got one picture was because I was outside the first time. If you wish to ~~know anything~~ else do not hesitate to contact me.
