After first sighting it stayed in the position for a few minutes then went straight up to several thousand feet moved east and then stopped and hovered we followed in our car and kept it under observation at all times it then moved again to a different location we moved again. Stopped along the road again several times when it stopped and watched then we went home which was close by and were able to see it from the back windows of our house and watched it for quite a long time, approx two to three hours.
