[REDACTED] , 15 years old, male

33. Didn't report to anyone except you.

34. Completed questionnaire: April 16, 1968

35. When I first saw it I got my camera and took 3 pictures; one at my door steps, one about 10 ft from the door and the other at the side of the house where it was darkest. I looked for running lights, thinking it was a plane but there was none. I could tell it was a single body. Sometimes during the day I can see jets going over at high altitudes and the speed was guessed by the jets. At certain times it dimmed to half or $\frac{1}{3}$ its brightness. At one point it dimmed moved a little dimmed again, but did

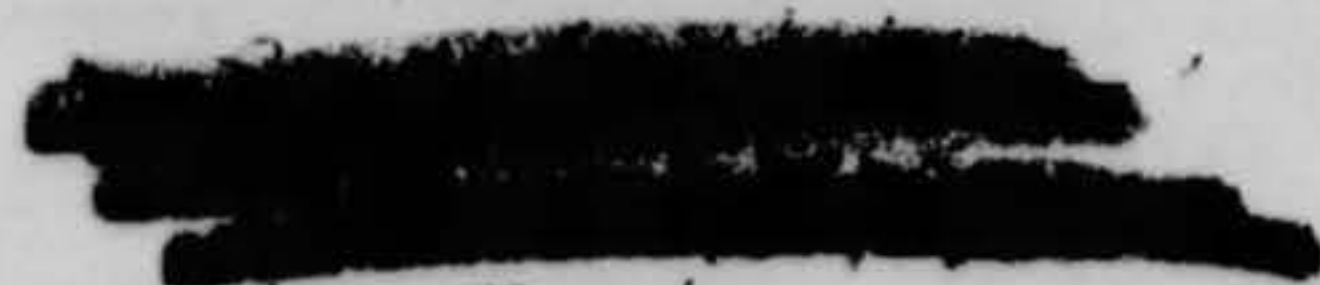

this about 5 times when it got passed

dimmed and ziggedged
at the same time

When it started to disappear it ziggedged
several times.

The pictures I mentioned earlier
will be sent as soon as I get them back.
