UFO SIGHTING

THE FOLLOWING IS AN EXTRACT FROM THE AFSWC COMMAND POST
CONTROLLER'S LOG, DTD 13 AUG 68 (0300Z ENTRY):

A Mr. [REDACTED] 21 Marlow NE, Albuquerque, called the Command
Post at 0300Z, 13 Aug 68. He said that he had sighted a UFO at approxi-
mately 0230Z as he went to feed horses at a barn. He saw a bright light
in the North moving from North to South at approximately 30,000 feet. It
stopped and Mr. [REDACTED] his field glasses and observed the object. He
said it started moving again and moved over Albuquerque. Said it had a
definite shape when observed through the field glasses. The object was
larger than a basket ball but had no sound. Command Post past the infor-
mation to Base Operations.

in Grafton Sentinel
**Second UFO
Sighted Here
In Two Weeks**
Aug. 21/1966

At least two persons saw what they reported to be a mysterious object hovering over Grafton for more than an hour night before last.

Cecil Devers, 215 West Washington Street, sighted the unidentified object (UFO) at 10:15 p.m. moving toward the old city park.

According to Devers, the object was disc-shaped and was bright silver in color.

When asked what he thought of the sighting, he said, "Well, if you ask me, there's something going on up there that we don't know about. It's all a mystery but I know I saw something."

Mrs. Everett Knotts, 210 West Washington Street, reported that she too, had spotted the object. Mrs. Knotts gave the following account of what she heard and saw.

"My husband is ill, and I had gone downstairs to check and see if he needed anything, when I heard an unfamiliar beeping noise. After seeing that he was all right, I returned upstairs and went out on the porch."

"I still heard the noise, so I went to check if I had any electrical appliances turned on. I hadn't, so I went back out on the porch, and then is when I saw the object."

"It was headed toward Maple Avenue, and was making a Beep, Beep noise. It was bright silver, and was disc-shaped. Red and silver lights were flashing."

"It seemed to go toward the old pottery, and then disappeared. I must have watched it for over an hour and a half, before it disappeared."

Mrs. Knotts was asked whether or not the object had windows and she replied, "It would be hard to tell without binoculars, but there was something dark around the sides, It could have been windows."

She was asked whether or not the object frightened her, and she said, "Well, I'm normally a brave person, but let me tell you, when you see this thing it just sends cold chills up your spine."

Many sightings have been reported in the Grafton area during the past months, but no one seems to have any answers to the aerial phenomenas, or how they came to being.

Area authorities were contacted today about the object, but reported that they had not been called to investigate any such incidents, except for the sighting at the Ozite Corporation plant two weeks ago.

At this time, several persons saw a bright, disc-shaped object. No one seemed able to photograph the object as it was 'too high'.

The UFO seemed to travel toward Blueville, finally disappearing in the Haymond Section.

Gentlemen:

We have had some recent U.F.O. sightings by residents of this area. Conforming to your request, we are enclosing clippings from our newspaper, The Daily Sentinel, relating these sightings.

Very truly yours,

Verna Mary Bourjaily

P.S. If we can be of any further service, please let us know.

MEMO FOR THE RECORD

8 Aug 68

Subj: UFO Sighting, 7 Aug 68, Canada, by Dr Hynek

Dr J Allen Hynek called the Aerial Phenomena Office on 7 Aug 68 at 1300 hours, EDT, to inform ^{US}him that he saw a funny thing. Saw a jet chasing something at 11pm ^{EDT}due North, a very bright ball of light, brighter than Venus. 10 deg behind the unknown object was a jet.

"We don't think we could hear any sound from the bright object but we did hear noise from the jet." Could see the wing tip lights from the jet but only one big light from the object. Plane probably from Kincheloe, so Dr Hynek thought. Dr Hynek said he saw the object for presumably two minutes, but it may have been three. Dr Hynek said he was going to call Kincheloe and ask for information and would appreciate our office doing so. Dr Hynek will call ^{us}/tomorrow morning.

At 1400 hours got through to Lt Col Quintanilla who was TDY in Wash, D C. We will not contact Kincheloe to obtain the data. Additional information to obtain from Dr Hynek is: Arc of sky covered. Did it pass directly overhead? Did Dr Hynek get any photographs? He always carries a camera. What was Dr Hynek's estimation of the weather? Was it clear? cloud, etc?

20 Aug 1968

UFO sighting of 10 Aug 68

Dear Sir,

At approximately 2025Q on 10 Aug I saw a phenomenon in the sky I feel I should report to you. When I went out of my house I saw

a narrow, bluish-green band of light to the WNW that I at first thought was the aurora borealis — I realize it is a northern latitude specialty. It ran from the horizon over Pico del Este Mt. to a point 60' above and over my quarters at the U.S. Naval Station Roosevelt Rds P.R. I then noticed a bright, yellow-white light, with an elliptical halo around it, slightly above the mountain and in the band of bluish-green light.

I called to my wife, as I thought maybe I was seeing my first flying saucer, and when I did so I took my eyes off the object, and lost it. She noticed a white light which appeared

Q. To be the size of a first magnitude star moving in the band of light.

It was then I realized that it was probably a satellite and that the band of light was more than likely reflected ^{from} the sun which had set an hour or so earlier.

When the white light reached directly overhead it disappeared. There were no clouds. The band of light ran from 20° - 30° of arc in front to the same distance behind and moved through the sky with the white light, the "tail" disappearing also at the overhead point. The white light transited the sky at about the same rate that I observed an Echo satellite pass years ago in the Pacific.

I have had ten years flying experience, both in jets and props.

Enclosed clipping could be related.

③ Could you tell me if a satellite transited
WNW to ESE over this area on the night in
question. Also, what caused the band of
light? Is this unusual?

Sincerely,

V.I. Gets \$350,000 For Teacher's Housing

S T . T H O M A S (AP)—Governor Ralph Paiewonsky has received a check for more than \$350,000 as a loan from the Chase Manhattan Bank for the construction of "urgently needed housing for teachers in the Virgin Islands."

The housing units are to be

used by teachers recruited on the mainland to work in the Virgin Islands public school system.

The shortage of moderate priced apartments has often been cited by teachers as the reason why they hesitate to come to the Virgin Islands in the first place and tend to leave

after one year of teaching.

Present at Government House for the ceremony were assistant commissioner of education Charles Trumbul, budget director Magdalene Bryan, commissioner of finance Ruben Wheatley, and Chase Manhattan Bank Manager John W. Gate.

NEW PARTY

(Continued From Page 13)
the Republican Party for a future try at the party's Presidential nomination.

Other names mentioned are Senator McGovern and Governor Rockefeller, but both men are considered unlikely to accept a fourth party ticket.

If no recognized political figure agrees to lead the party, Raskin said, it would nominate a well-known, but essentially political figure active in the antiwar movement. A list of possibilities is now being drafted, he said.

Raskin, a 34-year-old author who served on the staff of McGeorge Bundy during President Kennedy's Administration, said he had been surprised at

the favorable response the New Party has received.

"So many people are upset with the major parties," he said. "They reflect far too narrow a base. So much is going on outside the party structures. There's a lot of fear that unless we open up the party structure we're going to have a revolutionary situation in this country that will be met by official repression."

"There is a real possibility, I think, of a left-right coalition based on a revulsion against bureaucratic structures. There is such a basic revulsion that I think the New Party is clearly in politics to stay for the next generation. People are prepared to think radically, and the party is a vehicle for doing that."

Dorvillier To Address San Juan Lions Club

William J. Dorvillier, former editor of the San Juan STAR, will speak to the San Juan Lions Club at their Wednesday luncheon meeting at the Condado Beach Hotel. His topic will be "An analysis of the political situation in Puerto Rico."

Mystery Object Hovers Over Yauco Mountains

YAUCO (AP)—Two policemen reported Monday that they saw a bright object hovering over a mountain near here and that, after a while, the object sped away over the ocean.

Local police officials, however, admitted that they were not quite sure how to go about investigating the report.

SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

BUDGET BUREAU APPROVAL
NUMBER 21-R258

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW AFR 80-17. (IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)

1. WHEN DID YOU SEE THE PHENOMENON?

DAY 20 MONTH AUG YEAR 68

2. WHAT TIME DID YOU FIRST SIGHT THE PHENOMENON?

HOUR 2:30 MINUTES 30 ☐ A.M. ☒ P.M.

3. WHAT TIME DID YOU LAST SIGHT THE PHENOMENON?

HOUR Still in sight (0030) MINUTES 00 ☐ A.M. ☐ P.M.

4. TIME ZONE

☐ DAYLIGHT SAVINGS☐ STANDARD☐ EASTERN☐ CENTRAL☐ MOUNTAIN☐ PACIFIC☐ OTHER

5. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? IF IN CITY, GIVE THE NEAREST STREET ADDRESS AND INDICATE ON A HAND DRAWN MAP WHERE YOU WERE STANDING WITH REFERENCE TO THE ADDRESS. IF IN THE COUNTRY, IDENTIFY THE HIGHWAY YOU WERE ON OR NEAR AND TRY TO FIX A DISTANCE AND DIRECTION FROM SOME RECOGNIZABLE LANDMARK.

AT Home

6. IMAGINE YOU ARE AT THE POINT SHOWN IN THE SKETCH, PLACE AN "A" ON THE CURVED LINE TO SHOW HOW HIGH THE PHENOMENON WAS ABOVE THE HORIZON, OR SKYLINE, WHEN FIRST SEEN. PLACE A "B" ON THE SAME CURVED LINE TO SHOW HOW HIGH ABOVE THE HORIZON THE PHENOMENON WAS WHEN LAST SEEN.

Aug. 16, 1968

Gentlemen:

On Aug. 12, 1968 at 7:25 me and my brother (Todd Allen Howard; 10) observed an object (perhaps a UFO) traveling east. The description of this object is as follows:

- A. Color - Brilliant Silver
- B. Shape - Oval
- C. Sound - None

After observing it for one minute we discovered that our UFO was really a jet plane reflecting the sun's rays. We think this may be of some help in explaining other UFO sightings. Also I ask you to send me information on UFO's. Thank for your attention to this letter.

Yours truly,
[REDACTED]

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

11 8 1968
Day Month Year

2. Time of day:

10 4
Hours Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central ☒
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard ☒

4. Where were you when you saw the object?

g. Theodolite

Yes

☒ No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

AN ELLIPSE

Estudiante Ahogado en la Alberca de CU

Una Indigestión fue la Causa del Accidente

El estudiante de la preparatoria 1 José Luis Sandoval, se ahogó el sábado en la alberca olímpica de la Ciudad Universitaria, cuando más de 300 estudiantes nadaban ahí.

Isaac Ruiz Ponce, salvavidas de la alberca declaró ante el agente del Ministerio Público de Coyoacán que eran las 12 horas cuando se dio cuenta que en la parte más honda varios jóvenes jugaban y notó que uno de ellos flotaba sin conocimiento.

De inmediato se lanzó al agua porque

parecía que le dio un calambre y con la ayuda de varios muchachos lo sacó a la orilla, en donde se le aplicaron los primeros auxilios y posteriormente fue atendido por los médicos de la máxima casa de estudios Fidel Ramírez Barbosa y Gabriel Díaz de Urdanivia.

Estos dijeron que el joven padecía una indigestión y la gravedad era demasiada por lo que se solicitó una ambulancia de la Cruz Verde.

En el trayecto de la Ciudad Universitaria al benemérito hospital falleció.

Agente de Tránsito que Estafa y "Vende Placas"

Carlos Escartin, agente de tránsito, estafó 6 mil pesos al chofer Felipe Osorio Bravo con la promesa de que a cambio de

ello recibiría un juego de placas de ruletero.

Por lo anterior Felipe firmó una solicitud para las placas del carro, y en 15 días las obtendría.

Para ello Escartin le dijo que las placas se enviarían a su casa y le diera una propina a quien se las entregara. El día 25 recibió un telegrama en donde decía que su solicitud fue aprobada.

Felipe creyó que el ofrecimiento del agente era verdad y entregó los 6 mil pesos al mensajero. Desde entonces se ha presentado a reclamar las mismas que le han negado en Tránsito y no ha vuelto a ver al estafador.

Fueron presentados como testigos del fraude Carmen Hernández de Osorio y Uriel Hernández Ramos que asentaron los hechos en la séptima delegación.

Arbitrario Arresto por una Simple Deuda

Por una deuda pendiente el jefe de Cobranzas de la Compañía Mexicana de Televisión detuvo al señor Armando Hernández Hernández, quien hasta el momento no aparece por ninguna parte.

Lourdes Hernández Hernández, acompañada de su tío Pedro Frago, se presentó a las oficinas de la compañía de Televisión, en Adolfo Guirón y Anillo de Circunvalación, donde la joven reconoció a la persona que detuvo a su padre.

De inmediato, le pre-

el pasado sábado en la mañana.

Huelga en la Universidad de Morelos

Cuernavaca Mor.- A pesar de que ya habían comenzado los exámenes de fin de año en la Universidad Autónoma de Morelos, estalló ayer la huelga estudiantil en apoyo a las luchas del estudiantado del Distrito Federal.

El rector, licenciado Teodoro Lavín González,

MAS DE OCHENTA PERSONAS fueron a los disturbios estudiantiles en Rio de Janeiro intervenido las fuerzas policíacas y del ejército del gobernador Negrão da Lima. En la presos se apretujan en un vehículo policial nicamente: "el corazón de una madre".

Vieron un "OVNI" en Cuernavaca

Cuernavaca, Mor.- Hoy fue visto un OVNI en esta ciudad por personas de reconocida seriedad, quienes aseguran haber avistado al extraño artefacto en el cielo durante varios minutos por el rumbo oriente de la ciudad.

Explicaron que el OVNI de forma redonda

se mantuvo algunos minutos se desplazó hacia donde volvieron por más tiempo.

Añadieron el aparato a calmente de vos destelle naranjo, am lados y tra micirculo fu se en el ho testigos est tos a declar autoridades sario.

se mantuvo quieto por algunos momentos y luego se despiazo a gran velocidad hacia el sureste donde volvió a posarse por más tiempo.

Añadieron que luego el aparato ascendió verticalmente despidiendo vivos destellos de colores naranja, amarillos y azules y trazando un semicírculo fue perdiéndose en el horizonte. Los testigos están dispuestos a declarar ante las autoridades si es necesario.

EL GOBERNADOR de Río de Janeiro, Francisco Negrao da Lima movilizó a la policía estatal y al ejército para sofocar los violentos disturbios estudiantiles que han conmovido a esta ciudad. Camiones cisterna, arrojando potentes chorros de agua. En el disturbio más de ochenta personas fueron arrestadas. (Foto UPI).

Continuos Robos de los Estudiantes de la Prepa 3

No Solamente Saquearon los Alimentos, Exigen Dinero

En varias ocasiones estudiantes de la preparatoria 3 han robado en el restaurante "Olimpico" de las calles de Argentina 8, primer cuadro.

Antier volvieron a irrumpir en el mencionado local un grupo de 15 individuos, de la misma escuela y después de armar su escándalo se llevaron artículos alimenticios por más de 4 mil pesos.

No les bastó con los productos robados sino que exigieron dinero al dueño y éste se negó a ello, por lo que trataron de raptar a la esposa para llevarla al edificio de la preparatoria.

Enrique Arce Rojas propietario del

establecimiento manifestó ante el funcionario de la tercera delegación que ya está cansado de los escándalos que ocasionan los preparatorianos y decidió levantar un acta.

Para ello presentó como testigos a sus empleados Gerardo Cruz Ramirez, Maria Gutiérrez, Maria de la Luz Arce Gómez, Pedro Martínez, Rafael Rojas Ortiz y Roberto "N", quienes salieron lesionados al oponer resistencia.

Todos fueron auxiliados por la patrulla 422, mismos que aconsejaron al dueño poner una denuncia en contra de quien o quienes resulten responsables.

This confirms our report.

EL HERALDO

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

Page 6

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

YES. SAME PLACE. ABOUT 2 YEARS AGO.

31. Was anyone else with you at the time you saw the object? (Circle One) ☒ Yes ☐ No

31.1 If you answered YES, did they see the object too? (Circle One) ☒ Yes ☐ No

31.2 Please list their names and addresses:

MRS. [REDACTED]
M. [REDACTED] Mexico D.F.
M. [REDACTED] Mexico.

32. Please give the following information about yourself:

NAME [REDACTED] Last Name First Name Middle Name
ADDRESS [REDACTED] Mexico D.F. Mexico
Street City Zone State
TELEPHONE NO. [REDACTED] AGE 42 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day

Month

Year

No report was made
to any authority.

OFFICIAL U.S. AIR

Page 1

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object? <u>18</u> <u>AUGUST</u> <u>1969</u> Day Month Year	2. Time of day: <u>9</u> <u>55</u> Hours Minutes (Circle One): A.M. or <u>P.M.</u>
3. Time Zone: (Circle One): a. Eastern b. Central <u>c. Mountain</u> d. Pacific e. Other _____ (Circle One): a. Daylight Saving <u>b. Standard</u>	
4. Where did you see the object? <u>[Redacted Address]</u> Postal Address <u>Calgary</u> City or Town <u>Alberta</u> State or County <u>Canada</u> Country	
5. How long was object in sight? (Total Duration) <u>15</u> Hours Minutes Seconds a. Certain <u>b. Fairly certain</u> c. Not very sure d. Just a guess 5.1 How was time in sight determined? <u>a clock and guessed</u> 5.2 Was object in sight continuously? Yes _____ No <u>✓</u>	
6. What was the condition of the sky? DAY a. Bright b. Cloudy NIGHT a. Bright <u>b. Cloudy</u>	
7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object? (Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember	

FORCE UFO FORM

Page 2

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- ☒ b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight—pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- ☒ b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

just a bright red light

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - ☒ c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|---|
| a. Appear to stand still at any time? | ☒ Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | ☒ Yes | No | Don't know |
| c. Break up into parts or explode? | ☒ Yes | ☒ No | Don't know |
| d. Give off smoke? | ☒ Yes | No | ☒ Don't know |
| e. Change brightness? | ☒ Yes | No | Don't know |
| f. Change shape? | ☒ Yes | ☒ No | Don't know |
| g. Flash or flicker? | ☒ Yes | No | Don't know |
| h. Disappear and reappear? | ☒ Yes | No | Don't know |

Official U.S. Air Force

Page 3

14. Did the object disappear while you were watching it? If so, how?

it went behind a lamp post and
it later faded out

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

It moved behind:

a lamp post

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound

no sound that I know of

b. Color

white to begin with, then turned pulsating red

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

The object would have just been ~~covered~~
covered

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

SKY

UFO form continued

Page 4

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

☒ a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type) _____

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

☒ b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

☒ No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

☒ No

b. Sun glasses

Yes

☒ No

f. Telescope

☒ Yes

☒ No

c. Windshield

Yes

☒ No

g. Theodolite

Yes

☒ No

d. Window glass

☒ Yes

☒ No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a bent sausage

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass when you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

B
it could have been circling or
going back and forth

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

8. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? (Check appropriate blocks.)			
☒ OUTDOORS		☒ IN BUSINESS SECTION OF CITY	
☒ IN BUILDING		☒ IN RESIDENTIAL SECTION OF CITY

29 AUG 1969

EDPT (UFO)

UFO Observation, 19 Aug 69

[REDACTED]
Det 2, 6994 S.S.
APO San Francisco 96295

1. Reference your undated letter reporting a sighting of a satellite for 19 Aug 69. If the object you saw was first seen at an azimuth of 130° and disappeared at an azimuth of 310° , then it must have been one of the visible retro-grade satellites. However, because there are approximately a total of 33 retro-grade satellites and rocket components that are visible to the naked eye, an exact identification would be extremely difficult.
2. The governing regulation for Project Blue Book is AFR 80-17. This regulation allows for investigation of UFO reports originating within the continental limits of the United States. Therefore, we are unable to further investigate your sighting. However, we will include your report for information purposes with our permanent files.

HECTOR QUINTANILLA, Jr, Lt Colonel, USAF
Chief, Aerial Phenomena Office
Aerospace Technologies Division
Production Directorate

EDPT (UFO) (Official File)

Dear Sirs:

On the evening of 17 August 1969
at 1405 GMT in the city of Pinar, Republic
of Viet Nam I saw an object traveling
apparently from the direction of 150°
to 310° . The object was a constant
light of an orange tint and traveled in
a straight line, from horizon to horizon,
in just under two minutes.

I assume that the object was a
satellite but would appreciate any
information you would be able to
furnish me to further identify it.
Thank you.

Sincerely,

DET 26994 S.O.

DAILY WEATHER MAPS

WEEKLY SERIES AUG. 12-18, 1968

The charts in this publication are a continuation of the principal charts of the Weather Bureau publication, Daily Weather Map. They include the Surface Weather Map, the 500-Millibar Chart, the Highest and Lowest Temperatures Chart, and the Daily Precipitation Chart. All of the charts for one day are arranged on a single page of this publication. They are copied from operational weather maps prepared by the National Meteorological Center, Weather Bureau. The symbols used on the Surface Weather Map and the 500-Millibar Chart are the same as those used previously in Daily Weather Map. An explanatory sheet is available, and single copies may be obtained without charge by writing to: Environmental Science Services Administration, Publications Section, AD 143, Rockville, Maryland 20852. Bulk copies may also be ordered, at a cost of \$2.30 per 50 copies. Checks should be made payable to the Superintendent of Documents.

The Surface Weather Map presents station data and the analysis for 7:00 a.m./e.s.t. The tracks of well-defined low pressure areas are indicated by chains of arrows; the locations of these centers at times 6, 12, and 18 hours preceding map time are indicated by small black squares enclosing white crosses. Areas of precipitation are indicated by shading. The weather reports that are printed here are only a fraction of those that are included in the operational weather maps, and on which the analyses are based. Occasional apparent discrepancies between the printed station data and the analyses result from those station reports that cannot be included in the published maps because of lack of space.

The 500-Millibar Chart presents the height contours and isotherms of the 500-millibar surface at 7:00 a.m./e.s.t. The height contours are shown as continuous lines, and are labeled in feet above sea level. The isotherms are

shown as dashed lines, and are labeled in degrees Celsius. The arrows show the wind direction and speed at the 500-millibar level.

The Highest and Lowest Temperatures Chart presents the maximum and minimum values for the 24-hour period ending at 1:00 a.m./e.s.t. The names of the reporting points can be obtained from the Surface Weather Map. The maximum temperature is plotted above the station location, and the minimum temperature is plotted below this point.

The Precipitation Areas and Amounts Chart indicates by means of shading the areas that had precipitation during the 24 hours ending at 1:00 a.m. Amounts in inches to the nearest hundredth of an inch are for the same period. Incomplete totals are underlined. "T" indicates a trace of precipitation. Dashed lines show the depth of snow on the ground in inches as of 7:00 a.m. of the previous day.

10. IF THERE WERE MORE THAN ONE PHENOMENON, HOW MANY WERE THERE? DRAW A PICTURE TO SHOW HOW THEY WERE ARRANGED. DID THIS ARRANGEMENT CHANGE DURING THE SIGHTING?

11. CONDITIONS (Check appropriate blocks.)

A. SKY		B. WEATHER	
☐ DAY		☐ CUMULUS CLOUDS (Low fluffy)	☐ FOG OR MIST
☐ TWILIGHT		☐ CIRRUS CLOUDS (High fleecy or Herring-bone)	☐ HEAVY RAIN
☐ NIGHT			☐ LIGHT RAIN OR DRIZZLE
☒ CLEAR		☐ NIMBUS CLOUDS (Rain)	☐ HAIL
☐ PARTLY CLOUDY		☐ CUMULONIMBUS CLOUDS (Thunderstorms)	☐ SNOW OR SLEET
☐ COMPLETELY OVERCAST			☐ UNKNOWN
		☐ HAZE OR SMOG	☐ NONE OF THE ABOVE

C. IF THE SIGHTING WAS AT TWILIGHT OR NIGHT, WHAT DID YOU NOTICE ABOUT THE STARS AND MOON?

(1) STARS	(2) MOON
☒ NONE	☐ BRIGHT MOONLIGHT
☐ A FEW	☒ NO MOONLIGHT
☐ MANY	☐ MOON WITH HALO
☐ UNKNOWN	☐ MOON HIDDEN BY CLOUDS
	☐ PARTIAL (New or quarter)

D. IF SIGHTING WAS IN DAYLIGHT, WAS THE SUN VISIBLE? ☐ YES ☐ NO. IF "YES," WHERE WAS THE SUN AS YOU FACED THE PHENOMENON?

☐ IN FRONT OF YOU	☐ TO YOUR RIGHT	☐ OVERHEAD (Near noon)
☐ IN BACK OF YOU	☐ TO YOUR LEFT	☐ UNKNOWN

E. SPECIFY THE MAJOR SOURCE OF ILLUMINATION PRESENT DURING THE SIGHTING, SUCH AS THE SUN, HEADLIGHTS OR STREET LAMP, ETC. FOR TERRESTRIAL ILLUMINATION, SPECIFY DISTANCE TO LIGHT SOURCE.

12. GIVE A BRIEF DESCRIPTION OF THE PHENOMENON, INDICATING WHETHER IT APPEARED DARK OR LIGHT, WHETHER IT REFLECTED LIGHT OR WAS SELF-LUMINOUS AND WHAT COLORS YOU NOTICED. DESCRIBE YOUR IMPRESSION OF WHETHER IT WAS SOLID OR TRANSPARENT, WHETHER EDGES WERE SHARP OR FUZZY. DESCRIBE THE SHAPE OR INDICATE IF IT APPEARED AS A POINT OF LIGHT. INDICATE COMPARISONS WITH OTHER OBSERVED OBJECTS, LIKE STARS, A LIGHT OR OTHER OBJECT IN YOUR FIELD OF VIEW.

U.S. SURFACE WEATHER MAP
 DATE: AUGUST 13, 1955
 TIME: 7:00 A.M. C.S.T.

LEGEND:

- FRONTS:**
 - Warm Front: Solid line with semicircles on the warm side.
 - Cold Front: Solid line with triangles on the cold side.
 - Stationary Front: Dashed line with semicircles and triangles on opposite sides.
 - Occluded Front: Dashed line with semicircles and triangles on the same side.
- STATION DATA:**
 - Temperature: Number in a circle.
 - Wind: Arrow with number indicating speed.
 - Clouds: Number in a square.
 - Pressure: Number in a triangle.
 - Relative Humidity: Number in a diamond.
 - Sea Level Pressure: Number in a circle with a dot.
 - Sea Level Temperature: Number in a circle with a dot.
 - Sea Level Wind: Arrow with number.
 - Sea Level Clouds: Number in a square.
 - Sea Level Pressure: Number in a triangle.
 - Sea Level Relative Humidity: Number in a diamond.

SATURDAY, AUGUST 17, 1968

13.	DID THE PHENOMENON	YES	NO	UNKNOWN
	MOVE IN A STRAIGHT LINE?	☒		
	STAND STILL AT ANYTIME?	☒		
	SUDDENLY SPEED UP AND RUN AWAY?	☒		
	BREAK UP IN PARTS AND EXPLODE?		☒	
	CHANGE COLOR?	☒		
	GIVE OFF SMOKE?			☒
	CHANGE BRIGHTNESS?			☒
	CHANGE SHAPE?			☒
	FLASH OR FLICKER?	☒		
	DISAPPEAR AND REAPPEAR?	☒		☒
	SPIN LIKE A TOP?			☒
	MAKE A NOISE?		☒	
	FLUTTER OR WOBBLE?		☒	

14. WHAT DREW YOUR ATTENTION TO THE PHENOMENON?

Passing glance

A. HOW DID IT FINALLY DISAPPEAR?

Went out

B. DID THE PHENOMENON MOVE BEHIND OR IN FRONT OF SOMETHING, LIKE A CLOUD, TREE, OR BUILDING AT ANY TIME?

☐ YES ☒ NO. IF "YES," DESCRIBE.

SUNDAY, AUGUST 18, 1968

SURFACE WEATHER MAP
AND STATION WEATHER
AT 7:00 A.M. EST

DAILY WEATHER MAPS

WEEKLY SERIES AUG. 19-25, 1968

The charts in this publication are a continuation of the principal charts of the Weather Bureau publication, Daily Weather Map. They include the Surface Weather Map, the 500-Millibar Chart, the Highest and Lowest Temperatures Chart, and the Daily Precipitation Chart. All of the charts for one day are arranged on a single page of this publication. They are copied from operational weather maps prepared by the National Meteorological Center, Weather Bureau. The symbols used on the Surface Weather Map and the 500-Millibar Chart are the same as those used previously in Daily Weather Map. An explanatory sheet is available, and single copies may be obtained without charge by writing to: Environmental Science Services Administration, Publications Section, AD-143, Rockville, Maryland 20852. Bulk copies may also be ordered, at a cost of \$2.30 per 50 copies. Checks should be made payable to the Superintendent of Documents.

The Surface Weather Map presents station data and the analysis for 7:00 a.m./e.s.t. The tracks of well-defined low pressure areas are indicated by chains of arrows; the locations of these centers at times 6, 12, and 18 hours preceding map time are indicated by small black squares enclosing white crosses. Areas of precipitation are indicated by shading. The weather reports that are printed here are only a fraction of those that are included in the operational weather maps, and on which the analyses are based. Occasional apparent discrepancies between the printed station data and the analyses result from those station reports that cannot be included in the published maps because of lack of space.

The 500-Millibar Chart presents the height contours and isotherms of the 500-millibar surface at 7:00 a.m./e.s.t. The height contours are shown as continuous lines, and are labeled in feet above sea level. The isotherms are

shown as dashed lines, and are labeled in degrees Celsius. The arrows show the wind direction and speed at the 500-millibar level.

The Highest and Lowest Temperatures Chart presents the maximum and minimum values for the 24-hour period ending at 1:00 a.m./e.s.t. The names of the reporting points can be obtained from the Surface Weather Map. The maximum temperature is plotted above the station location, and the minimum temperature is plotted below this point.

The Precipitation Areas and Amounts Chart indicates by means of shading the areas that had precipitation during the 24 hours ending at 1:00 a.m. Amounts in inches to the nearest hundredth of an inch are for the same period. Incomplete totals are underlined. "T" indicates a trace of precipitation. Dashed lines show the depth of snow on the ground in inches as of 7:00 a.m. of the previous day.

National Meteorological Center Weather Bureau. The symbols used on the Surface Weather Map and the 500-Millibar Chart are the same as those used previously in Daily Weather Map. An explanatory sheet is available, and single copies may be obtained without charge by writing to: Environmental

Communications Section, AD-143, Rockville, Maryland 20852. Bulk copies may also be ordered at a cost of \$2.30 per 50 copies. Checks should be made payable to the Superintendent of Documents.

A fraction of those that are included in the operational forecast reports, which the analyses are based. Occasional apparent discrepancies between the printed station data and the analyses result from those station reports that cannot be included in the published maps because of lack of space.

height contours and isotherms of the 500-millibar surface at 7:00 a.m./e.s.t. The height contours are shown as continuous lines, and are labeled in feet above sea level. The isotherms are

below this point.

The Precipitation Areas and Amounts Chart indicates by means of shading the areas that had precipitation during the 24 hours ending at 1:00 a.m. Amounts in inches to the nearest hundredth are shown for the entire period. Incomplete totals are underlined. "T" indicates a trace of precipitation. Dashed lines show the depth of snow on the ground in inches as of 7:00 a.m. of the previous day.

15. DRAW A PICTURE THAT WILL SHOW THE SHAPE OF THE PHENOMENON. INCLUDE AND LABEL ANY DETAILS THAT MIGHT HAVE APPEARED AS WINGS OR PROTRUSIONS, AND INDICATE EXHAUST OR VAPOR TRAILS. INDICATE BY AN ARROW THE DIRECTION THE PHENOMENON WAS MOVING.

16. WHAT WAS THE ANGULAR SIZE? HOLD A MATCH AT ARM'S LENGTH IN FRONT OF A KNOWN OBJECT, SUCH AS A STREET LAMP OR THE MOON. NOTE HOW MUCH OF THE OBJECT IS COVERED BY THE HEAD OF THE MATCH. NOW IF YOU HAD BEEN ABLE TO PERFORM THIS EXPERIMENT AT THE TIME OF THE SIGHTING, ESTIMATE WHAT FRACTION OF THE PHENOMENON WOULD HAVE BEEN COVERED BY THE MATCH HEAD.

SURFACE WEATHER MAP
AND STATION WEATHER
AT 7:00 A.M. EST.

17. DID YOU OBSERVE THE PHENOMENON THROUGH ANY OF THE FOLLOWING? INCLUDE INFORMATION ON MODEL, TYPE, FILTER, LENS PRESCRIPTION OR OTHER APPLICABLE DATA.

EYEGASSES	CAMERA VIEWER
SUNGLASSES	BINOCULARS
WINDSHIELD	TELESCOPE
SIDE WINDOW OF VEHICLE	THEODOLITE
WINDOWPANE	OTHER

A. DO YOU ORDINARILY WEAR GLASSES? ☐ YES ☒ NO

B. DO YOU USE READING GLASSES? ☐ YES ☒ NO

18. WHAT WAS YOUR IMPRESSION OF THE SPEED OF THE PHENOMENON? GIVE ESTIMATE OF SPEED 2

19. WHAT WAS YOUR IMPRESSION OF THE DISTANCE OF THE PHENOMENON? GIVE ESTIMATE OF DISTANCE 2000 ft.

20. IN ORDER THAT WE MAY OBTAIN AS CLEAR A PICTURE AS POSSIBLE OF WHAT YOU SAW, DESCRIBE IN YOUR OWN WORDS A COMMON OBJECT OR OBJECTS WHICH, WHEN PLACED IN THE SKY, SIMILAR TO WHERE YOU NOTED THE PHENOMENON, WOULD BEAR SOME RESEMBLANCE TO WHAT YOU SAW. DESCRIBE SIMILARITIES AND DIFFERENCES BETWEEN THE COMMON OBJECT AND WHAT YOU SAW.

Possibly A/C in
distance

21. DID YOU NOTICE ANY ODOR, NOISE, OR HEAT EMANATING FROM THE PHENOMENON OR ANY EFFECT ON YOURSELF, ANIMALS OR MACHINERY IN THE VICINITY? ☐ YES ☒ NO. IF "YES," DESCRIBE.

A. DID THE PHENOMENON DISTURB THE GROUND OR LEAVE ANY PHYSICAL EVIDENCE. ☐ YES ☒ NO. IF "YES," DESCRIBE.

SUNDAY, AUGUST 25, 1968

DAILY WEATHER MAPS

WEEKLY SERIES AUG. 5-11, 1968

The charts in this publication are a continuation of the principal charts of the Weather Bureau publication, Daily Weather Map. They include the Surface Weather Map, the 500-Millibar Chart, the Highest and Lowest Temperatures Chart, and the Daily Precipitation Chart. All of the charts for one day are arranged on a single page of this publication. They are copied from operational weather maps prepared by the National Meteorological Center, Weather Bureau. The symbols used on the Surface Weather Map and the 500-Millibar Chart are the same as those used previously in Daily Weather Map. An explanatory sheet is available, and single copies may be obtained without charge by writing to: Environmental Science Services Administration, Publications Section, AD 143, Rockville, Maryland 20852. Bulk copies may also be ordered, at a cost of \$2.30 per 50 copies. Checks should be made payable to the Superintendent of Documents.

The Surface Weather Map presents station data and the analysis for 7:00 a.m./e.s.t. The tracks of well-defined low pressure areas are indicated by chains of arrows; the locations of these centers at times 6, 12, and 18 hours preceding map time are indicated by small black squares enclosing white crosses. Areas of precipitation are indicated by shading. The weather reports that are printed here are only a fraction of those that are included in the operational weather maps, and on which the analyses are based. Occasional apparent discrepancies between the printed station data and the analyses result from those station reports that cannot be included in the published maps because of lack of space.

The 500-Millibar Chart presents the height contours and isotherms of the 500-millibar surface at 7:00 a.m./e.s.t. The height contours are shown as continuous lines, and are labeled in feet above sea level. The isotherms are

shown as dashed lines, and are labeled in degrees Celsius. The arrows show the wind direction and speed at the 500-millibar level.

The Highest and Lowest Temperatures Chart presents the maximum and minimum values for the 24-hour period ending at 1:00 a.m./e.s.t. The names of the reporting points can be obtained from the Surface Weather Map. The maximum temperature is plotted above the station location, and the minimum temperature is plotted below this point.

The Precipitation Areas and Amounts Chart indicates by means of shading the areas that had precipitation during the 24 hours ending at 1:00 a.m. Amounts in inches to the nearest hundredth of an inch are for the same period. Incomplete totals are underlined. "T" indicates a trace of precipitation. Dashed lines show the depth of snow on the ground in inches as of 7:00 a.m. of the previous day.

reports used are provided for only a fraction of those that are included in the operational weather maps, and on which the analyses are based. Occasional apparent discrepancies between the printed station data and the analyses result from those station reports that cannot be included in the published maps because of lack of space.

The 500 Millibar Chart presents the height contours and isotherms of the 500-millibar surface at 7:00 a.m./e.s.t. The height contours are shown as continuous lines, and are labeled in feet above sea level. The isotherms are

plotted above the station location, and the minimum temperature is plotted below this point.

The Precipitation Areas and Amounts Chart indicates by means of shading the areas that had precipitation during the 24 hours ending at 1:00 a.m. Amounts in inches to the nearest hundredth of an inch are for the same period. Incomplete totals are underlined. "T" indicates a trace of precipitation. Dashed lines show the depth of snow on the ground in inches as of 7:00 a.m. of the previous day.

22. HAVE YOU EVER SEEN THIS OR A SIMILAR PHENOMENON BEFORE? ☐ YES ☐ NO. IF "YES," GIVE DATE AND LOCATION.

Possibly like gate, etc.

23. WAS ANYONE WITH YOU AT THE TIME YOU SAW THE PHENOMENON? ☒ YES ☐ NO. IF "YES," DID THEY SEE IT TOO?

A. LIST THEIR NAMES AND ADDRESSES

wife

24. GIVE THE FOLLOWING INFORMATION ABOUT YOURSELF

LAST NAME FIRST NAME MIDDLE NAME

7 Middletown 45252

ADDRESS (Street, City, State and Zip)

M. L. T. 1000

TELEPHONE

AGE

30

MALE

FEMALE

INDICATE ADDITIONAL INFORMATION INCLUDING OCCUPATION AND ANY EXPERIENCE WHICH MAY BE PERTINENT.

25. WHEN AND TO WHOM DID YOU REPORT THAT YOU HAD SIGHTED THIS PHENOMENON?

NAME _____ DAY _____ MONTH _____ YEAR _____

26. DATE YOU COMPLETED THIS QUESTIONNAIRE.
