Dear Mrs. [REDACTED]

This replies to your letter postmarked October 15, in which you state that you have seen an unidentified aerial object.

Without additional information, we cannot offer an explanation of what you saw. However, if you will complete the inclosed questionnaire and mail it in the attached envelope, our technical people at Wright-Patterson Air Force Base, Ohio, will be able to investigate further and make an evaluation.

Should you ever sight another unidentified flying object (UFO), please report it as soon as possible to the nearest Air Force unit. The nearest one to Delmar is the 656th Radar Squadron at Saratoga Air Force Station; if you will call the Station and ask for the UFO investigator at either Extension 251 or 252, someone will take your report. The local UFO investigator, who is in a better position to make an on-the-spot investigation, is usually able to achieve a more accurate analysis.

In the meantime, you might be able to identify your sighting by looking at the categories of objects often reported as UFO's in the material we are sending.

Sincerely,

JAMES H. AIKMAN
Major, USAF
Chief, Civil Branch

Dear Sir,

This morning at 3 AM. I awakened to see a very strange sight. I watched for a minute, and then woke my husband. It had several colored lights (red, green, yellow, and very bright white,) which revolved. It appeared to be flat with a second level. We watched it for over an hour, in which time it moved up or down but remained nearly stationary. My husband fell asleep but I stayed awake for half an hour more then fell asleep for a few minutes when I opened my eyes again it was gone. We first saw it we were going to call the police but were entarressed and thought perhaps it would be gone by the time they arrived. If this happens again

is there any number I could call
so that someone with some authority
could see it. I realize that our
astronauts are in space at this
time but my father says that
you could see them for that
long or with the naked eye.
I wonder if it is some kind
of experiment our own govt. is
doing? Perhaps you can answer
this because I am very excited
about what I saw. I am wondering
if what I saw was a flying
saucer? It certainly looked
like it.

Please answer if it isn't
too much trouble. I would like
to know if on Oct 14th there was
a new experiment going on, or
something.

Very truly
