February 15, 1969

Dear Sir,

I have been interested in Ufos for nearly three years now. I have many materials on this phenomena which I find fascinating. They are the works of Vallee, Michel, the Lorenzens, Barker, Edwards, Binder, Adamski, Gibbons, Menger, Ruppelt, Stanton, Steiger, Whritenhour, Trench, Fuller, Harkins & Saunders, and the Condon Committee.

To get to the point just this evening (Feb. 15, 1969) at about 6:30 I spotted a bright, yellow, egg-shaped UFO traveling northwest to southeast at about the speed of a jet. This UFO was spotted in the dark sky. It was a non-blinking light. Therefore it could not have been a plane or jet. I wish I could give you more information on it but I only had it within sight between thirty and forty seconds. Can you explain it?

Also please send me information regarding UFOs. Even if you can't please answer my letter. You see I am just 13 and to receive a letter from you would be a thrill.

Should I write to Bluebook's SAFOI about my sighting?

Thank you for reading this.

Yours truly,
