Dear Sir

Your explanation of UFO I
now I don't agree with

1st you don't state where it was
located so that I can check it.

2nd there was no top or bottom
but two objects side by side so it
couldn't be a balloon. object seemed
mostly stationary and

3rd when it disappeared there
were no sparks or falling debris

You couldn't give an explanation
of the meteor that flanked around the
caterpillar. your reveal says it started
it burst out in New England states
I don't know showed a photo of it
Passing over Canada and why did
it take 15 minutes to travel from N.S.

I be righted in Walker Bay area
a meteor in like a flash of lightning
falling it. I know the Air Force is responsible
information to the Public because they
are about to explain it.
