From within this light as much brighter and smaller light rose. The second light appeared much like a 4th of July rocket except it did not explode. The larger light gradually grew fainter until it disappeared.

8. PHOTOS ☐ Yes ☒ No	COMMENTS: A Minuteman rocket was launched from Vandenberg AFB, California at 1939 PST of 21 Oct 69 (2139 MDT), and appears to be the stimulus of the visual sighting. There is no evidence that the visual sighting and the electrical failures are related. The sightings of 11 and 13 Nov are possibly stars and/or planets.

DAY 19 MONTH Nov YEAR 1969

The night of Nov 11, 1969 I looked out a window that faces south some time between midnight and 1 a.m. This is an estimate of the time, I had looked at the clock around 11 P.M.

I saw this circle, or wheel, turning in a rolling motion. It was silver colored. moved very slowly. The center was either black, or it had no center. It rolled from top to bottom

• moved up, down and to both sides ways. The color was not sharp. It went below the

horizon then appeared again. I watched it for approximately 10 minutes, grew tired of it

& left. Later during the night I looked for it again. but it was gone. The next

night My daughter. I saw two of them in about the same place. One was just like the one the previous evening. The other & largest rolled but would spell light similar to rockets from fire crackers. These rocket lights didn't occur with each roll as always on the side where the smaller circle was

INVESTIGATION OF UNIDENTIFIED FLYING OBJECT (UFO)

21 November 1969

The following report contains information accumulated during the investigation of the reported sighting of an Unidentified Flying Object (UFO) near Twin Falls, Idaho. The sighting occurred during the early evening of 21 October 1969 and was reported to Wing Command Post 23 October 1969 by Mr. Richard Parrott, Route # 1, Twin Falls, Idaho on 23 October 1969.

The investigation was conducted by TSgt Theodore C. Ackley, FR 004-36-3584, 67th Security Police Squadron, Mountain Home AFB, Idaho on 19 and 20 November 1969.

Mr. [REDACTED] was not the individual who observed the phenomenon. He had been told of the sighting by the person who actually observed the phenomenon, Mr. T. [REDACTED] Idaho.

A character check of the reporters of the incident [REDACTED] was deemed appropriate. The below listed personnel of local law enforcement agencies were contacted for this information:

Mr. Eddis Lammers - Deputy Sheriff, Twin Falls County, Idaho: Negative report.

Mr. Harold Jensen - Sergeant, Twin Falls City Police: Negative Report.

These personnel were asked to furnish information as to the reported sightings of additional UFO's. Mr. Eddis Lammers stated their department had received a report of a UFO 0625 hours, 4 November 1969 and that he had conducted an investigation into this reporting. He stated [REDACTED] Twin Falls, Idaho reported seeing strange lights in the foothills south of Twin Falls. Mr.

[REDACTED] examined these lights to have been made by night hunters, poaching deer in the foothills.

Throughout this investigation the persons interviewed were questioned regarding sightings of additional UFO's. The investigator received numerous vague accounts of unexplainable lights seen in the Twin Falls, Idaho area. Times, dates and names of sighters could not be furnished therefore no further investigation could be conducted into these sightings.

While talking to Mr. [REDACTED] he stated his mother, [REDACTED],

had observed strange lights in the sky the week prior to this investigation. As these sightings appeared to have been in the same general direction as that sighting by Mr. [REDACTED] and, as they were the most recent reported, a complete investigation was conducted. Mrs. [REDACTED] completed two (2) AF Form 117s covering the phenomenon which she observed.

COMMENTS BY THE INVESTIGATOR CONCERNING THE WITNESSES IN THE TWIN FALLS, IDAHO SIGHTING;

Mrs. [REDACTED] is a housewife, living on a small farm in a rural farming community located approximately twelve (12) to fifteen (15) miles southwest of Twin Falls, Idaho. She lives with her husband and one (1) daughter. Mrs. [REDACTED] appears to be a normal, well-adjusted reliable person. She was intelligent and rational in her conversation with the investigator. At no time was it indicated that the family indulged in intoxicants of any kind. She did not appear to be dramatic about what she had seen nor did she appear to be completely disinterested. She stated she thought it "was something the Air Force was doing which she had no need to know about". She further explained that she realized the Air Force conducted a lot of tests that were not made public and that she accepted this as being necessary. Mr. [REDACTED] and the daughter living with them were not interviewed.

Mr. [REDACTED] lives in the same rural farming community approximately four (4) miles from [REDACTED]. He lives with his wife and two (2) small children. They appear to be normal, well adjusted, hard working people. There was no indication that the family indulged in intoxicants of any kind.

REMARKS BY THE INVESTIGATOR:

The area where the [REDACTED] live is generally flat land, broken by low ridges and void of heavy vegetation. This land is used as grazing land for ranch stock and as farm land for corn, hay, sugar beets, etc. This country is known [REDACTED]. Recently farmers in this area have been plagued with losses of hay crops and out-buildings due to mysterious fires. The general feeling in the area is that a pyromaniac has been the cause of these fires. Many farmers and families have been maintaining night vigilance over their property. This explains why [REDACTED] was looking out the windows of her house at odd

of the night time and observed these strange lights.

REPORT FROM TWIN FALLS MUNICIPAL AIRPORT, TWIN FALLS, IDAHO:

Mr. HARRY MERRICK, Airport Manager was interviewed. He stated there has been no reports of UFOs made to his office. He stated they maintain no log of aircraft flights at his office. These records are maintained at the FAA Office, Burley Municipal Airport, Burley, Idaho. The U.S. Weather Bureau for this area is located at the Snake River Conservation Research Center, Kimberly, Idaho.

REPORT FROM FAA OFFICE, BURLEY MUNICIPAL AIRPORT, BURLEY, IDAHO:

Mr. LEO PEIRCE interviewed.

Mr. Peirce stated there had been no unusual air traffic on the dates in question that would account for the unusual sightings.

REPORT FROM U.S. WEATHER BUREAU, KIMBERLY, IDAHO:

Mr. LLOYD W. GRAYBILL interviewed.

Mr. Graybill was unable to furnish any information regarding the winds-aloft. The following information was available regarding surface weather conditions on the dates indicated:

21 October 1969

Surface winds - Southerly, Average 3.8 miles all day.

No clouds reported. Clear all day. Negative precipitation or thunderstorms in the area. Temperature - Average high, 64 degrees. Low 30 degrees.

11 November 1969

Surface winds - Southwest, Average 5.7 miles all day. (Peak gust, 1400/1500, Northwest at 12 Miles)

Visibility unlimited. Negative precipitation or thunderstorms.

13 November 1969

Surface winds - Southwest, Average 9.4 miles all day. (Maximum winds, 0001/0100, Southwest at 16 Miles)

Partly cloudy to cloudy all day. Overcast with high clouds. No restriction to visibility. Negative precipitation or thunderstorms.

No unusual activity or condition could be detected that would account for the sightings. This office releases no weather balloons.

REPORT FROM REEDER FLYING SERVICE, TWIN FALLS MUNICIPAL AIRPORT, TWIN FALLS, IDAHO:

Mr. Reeder interviewed.

The reeder flying service has not been doing any night flying. This service operates the only helicopters in the area however they have done no flying during the times of the sightings.

It was thought these sightings could have possibly been parachute type flares, used by farmers in the area as protection against frost. None of the persons interviewed were aware of any such type flare drops.

ADDITIONAL INFORMATION:

Mrs. [REDACTED] stated she had observed the strange lights through binoculars. These binoculars were: Rosco, 7 x 50. Coated lenses. Field 7.1° 373 ft at 1000 yds. No. U 771733.

Mr. [REDACTED] stated that what he had seen had also been observed by Mr. [REDACTED], Idaho. Mr. [REDACTED] interviewed. He was reluctant to talk about the incident to the investigator and declined accomplishing a questionnaire. He stated he felt he could not offer any information other than what had been already submitted [REDACTED].

COMMENTS BY THE INVESTIGATOR:

It is felt by the investigator that Mrs. [REDACTED] and Mr. [REDACTED] both were sincere in relating what they had seen. They both expressed the desire that their names not be released to the news media in relation to the incident.
