SUMMARY OF INFORMATION

The following information has been received in a report from the Office of the AG of S, G-2, Headquarters 2d Armored Division, Camp Hood, Texas:

On 181947 March 1949, four unidentified lights appeared in the vicinity of 915.26 - 855.19, the lights noticed at this time were three yellow and one red. A patrol of Killeen Base, in the "Q" Area noticed two of these lights. A patrol located on Crossville Mountain, which consisted of four enlisted men of the Alert Force saw four. Immediate investigation in the general area failed to reveal any cause or anything which would indicate that some person or thing had been in the area. (B-3) (see Exhibit I, Point #1)

At 181930 March 1949, another yellow light was seen in the approximate vicinity of 910.41 - 855.10. This light was reportedly seen by only one man. There was no indication from reports that these lights were moving, there was no noise, and the persons reporting were unable to make an estimate of the height. (B-3) (see Exhibit I, Point #2)

At 181947 March 1949, what appeared to be blinking lights appeared in the vicinity of the Rock Quarry, located at 905.82 - 855.61. Investigation by the Alert Force and patrols of Killeen Base failed to reveal any cause or person in that general area. Again at 181955 March 1949, lights were seen in this general area. (B-3) (see Exhibit I, Point #3)

At 190048 March 1949, blinking lights were seen in the same general area 905.82 - 855.61. Investigation failed to reveal the cause of these lights. All of the lights which appeared in the proximity of 905.82 - 855.61 were seen by patrols located in the "Q" Area and were seen from points between 910.20 - 855.36 and 905.44 - 855.41. (B-3) (see Exhibit I, Point #4)

Captain Horace McCulloch, Headquarters 2d Armored Division, and Mr. Raymond Schmiedke, Special Agent, Killeen Base, spent several hours from an observation point located in the "Q" Area in an attempt to see these blinking lights.

At approximately 1955 I looked out of the window of the Officers Quarters at Detachment Crystal One to see what the weather conditions were. Flying Officer E.J. Brodribb of the Royal Canadian Air Force, came to the window and called my attention to a light that was moving across the sky from west to east. It appeared to be a light of an aircraft.

The aircraft was flying at an altitude of approximately 10,000 feet and at a fairly high rate of speed. It traveled on a constant heading from West to East for about 5 minutes and then made a turn to the South. I then lost sight of it.

At approximately 1950 hours I went to the window of the Hotel Lounge Room to ascertain if the sky was clear. I saw a number of stars in the sky and noted a moving light which appeared to me to be the light of an aircraft. The light was moving very fast and appeared to be red in color. The light appeared to move at the normal speed of an aircraft in flight and was moving in direction from west to east. While looking at this moving light Lieutenant Sugrue came to the window, I called his attention to the light and he said "It's an aircraft" and he then went to Captain Sherwoods room to advise him. I continued to watch the light until it disappeared towards the east. Other personnel in the room went outside to get a better view of the light, I remained in the lounge room. Although the light appeared to be a light of an aircraft I heard no sound to indicate that it was an aircraft.

This is to certify that at approximately 1950 hours EST a light was observed moving in an easterly direction. The light appeared to be on an aircraft and was on a redish color, and traveling at an estimated speed of 200 miles per hour, Maximum. This light had a flickering effect and did not travel at a constant speed, but seemed to halt and proceed at normal speed at intervals. The light was observed for approximately two minutes before disapperaring from sight. This light was watched by the undersigned from outside of the building, from a position about 10 feet from the northeast corner of building. A noise that could be associated with the light could not be heard.

1. Reference is made to classified message, date-time group 192130Z March 1949, Headquarters, 1225th Air Base Group, APO 877, Goose Bay, Labrador. The following additional information was submitted by the Commanding Officer, Goose Bay and is forwarded in accordance with instructions contained in USAF Air Intelligence Requirements Memorandum No. 4, dated 15 February 1949, and letter, Headquarters, MATS, dated 20 October 1948, Subject: Reporting of Information on "Flying Discs."

a. On 19 March 1949 the Commanding Officer, Detachment Crystal I, Fort Chimo, Quebec, Canada advised that on 18 March 1949 at 1950Z, an unidentified object displaying a red light was sighted over that station. This object was estimated to be at approximately ten thousand (10,000) feet altitude and traveling from west to east at approximately two hundred (200) miles per hour.

b. The Operations Officer, 1227th Air Base Group, Goose Bay, Labrador was interviewed and stated that to the best of his knowledge, and according to the information on hand at that station, there were no known aircraft in the vicinity of Crystal I at the time of the reported sighting.

c. The Operations Officer, RCAF, Goose Bay advised that no RCAF aircraft from Goose Bay, Churchill or Ottawa were flying in the vicinity of Crystal I at the time of the sighting.

d. Local weather conditions at Crystal I at the time of sighting were as follows:

Ceiling - unlimited

Sky conditions - scattered stratus estimated at 1400 ft

Visibility - 15 miles

The weather conditions prevailing at approximately 1955 hours at Crystal One, were, ceiling unlimited, visibility 15 miles, temperature 5 degrees F., and the wind 16 miles per hour, from the direction of South.

NARRATIVE SUMMARY: At approximately 1955 I looked out of the window of the Officers Quarters at Detachment Crystal One to see what the weather conditions were. Flying Officer E. J. Brodribb of the Royal Canadian Air Force, came to the window and called my attention to a light that was moving across the sky from west to east. It appeared to be a light of an aircraft.

The aircraft was flying at an altitude of approximately 10,000 feet and at a fairly high rate of speed. It traveled on a constant heading from West to East for about 5 minutes and then made a turn to the South. I then lost sight of it.

At approximately 1950 hours I went to the window of the Hotel Lounge Room to ascertain if the sky was clear. I saw a number of stars in the sky and noted a moving light which appeared to me to be the light of an aircraft. The light was moving very fast and appeared to be red in color. The light appeared to move at the normal speed of an aircraft in flight and was moving in direction from west to east. While looking at this moving light, Lieutenant Sugrue came to the window, I called his attention to the light and he said "It's an aircraft" and he then went to Captain Sherwood's room to advise him. I continued to watch the light until it disappeared toward the east. Other personnel in the room went outside to get a better view of the light, I remained in the lounge room. Although the light appeared to be a light of an aircraft I heard no sound to indicate that it was an aircraft.

At approximately 1950 hours I, was called to the window in the Hotel day room, facing South, by Flying Officer Brodribb, RCAF, and Quote. Do you see that light moving, which I did. The light was moving in the direction of west to east. The rate of speed appeared to be that of a C-47 airplane. I viewed this moment for approximately three (3) minutes. I then went outside and watched the light disappear to the east. The altitude appeared to be very high.

UNCLASSIFIED

NARRATIVE SUMMARY:

This is to certify that at approximately 1950 hours EST a light was observed moving in an easterly direction. The light appeared to be on an aircraft and was on a redish color, and traveling at an estimated speed of 200 miles per hour, Maximum. This light had a flickering effect and did not travel at a constant speed, but seemed to halt and proceed at normal speed at intervals. The light was observed for approximately two minutes before disappearing from sight. This light was watched by the undersigned from outside of the building, from a position about 10 feet from the northeast corner of building. A noise that could be associated with the light could not be heard
