SYNOPSIS:

Three (3) persons in Holyoke, Mass., observed a round, orange-yellow object flash downward in the sky after 2100 hours on 21-22 July 1952. One (1) person observed practically a recurrence at approximately 2300 hours, 22 July 1952. Fireworks display set off at Mountain Park, Holyoke, Mass., 22 July 1952 at 2230 hours could account for sighting.

a. Mrs. [REDACTED] advised that she observed an object in the sky during the night of 21-22 July 1952 shortly after 2400 hours EDT and again during the evening of 22 July 1952 at approximately 2300 hours, EDT. The object seen during the night of 21-22 July 1952 was described as round, about the size of a tea cup held at arms length, orange-yellow, no sound was heard and no aerodynamic features observed. The object flashed downward at an angle from west to northwest and disappeared from sight behind buildings. The object sighted at approximately 2300 hours on 22 July 1952 by Mrs. [REDACTED] was given the same description as the one seen the night before except for the downward flash which was at a more perpendicular angle and the color more orange.

b. Mrs. [REDACTED] and Mrs. [REDACTED] advised that they observed an object in the sky to the northwest after 2400 hours on the night of 21-22 July 1952. Both described the object substantially the same. It was described as seeming like a burst of light with no fire trail, orange-yellow, no sound, flashed downward to the northwest for an instant and disappeared from view behind buildings.

c. Mrs. [REDACTED], Mrs. [REDACTED], and Mrs. [REDACTED] were all three (3) sitting together in the yard at the north end of the apartment building when the object was first noticed to the northwest by Mrs. [REDACTED] who called the other ladies' attention to it. The object was in view only long enough for the other persons' attention to be brought to the object before it disappeared from view.

3. Mrs. [REDACTED] age 31, Mrs. [REDACTED], age 29, and Mrs. [REDACTED] age 29, are housewives and have observed the usual aircraft flying about. All three (3) advised that the object they saw was no aircraft as they knew them.

4. Weather conditions as reported by Westover Weather Station, for 0020 hours, EDT, 22 July 1952, were as follows: eight tenths cloud coverage with base at 1500 feet, five mile visibility with haze, wind at surface to 1000 feet, south by southeast at ten miles per hour, temperature 75°F. For 2323 hours, EDT, 22 July 1952: sky clear, eight miles visibility, wind from north at three miles per hour, temperature 75°.

5. On 24 July 1952, Mr. [REDACTED], Manager of Mountain Park Amusement Center, Holyoke, Mass., advised that fireworks set off every Tuesday during July at 2230 hours. The fireworks usually lasted about twenty (20) minutes and are over not later than 2300 hours. Mr. [REDACTED] advised that among the fireworks there are aerial bombs and displays which sometimes reach as high as Little Mt. Tom (altitude 540 feet). The aerial displays, according to Mr. [REDACTED] are composed of rocket fireworks in the shape of a wheel, and when set off in the air, go through unpredictable motions. Mr. [REDACTED] further

advised that from the top of Little Mt. Tom, one could see Holyoke (approximately 2 miles distance) and that Mountain Park is in a northwesterly direction from that city.

6. No physical evidence exists and no interception or identification action taken.

A few bright stars were visible. The sky here is always partly obscured by ground lights. While walking my dog along the south west side of Wallington Ave, near Main Ave, Wallington, N.J., the dog's attention was held by something above us, toward the north east. I followed her gaze and saw what I thought was a low flying plane, disappear behind the houses & trees across the street on Main Ave. We are only a few miles from Teterboro Airfield, so low flying planes are no novelty to us. However, this plane seemed unusually low — approximately 40' above the ground.

I realized that the plane was silent. As it began to emerge from behind the trees, I began to count seconds. I observed closely its shape in silhouette: slightly thicker toward the nose, almost flat on the underside, tapering toward the tail: 

The light was placed in the center of the body. It was extremely white and brilliant, but not blinding. I had the impression that the light, itself, was rather small, although its aura was wide.

The object rose slowly to a height of about 100', with a forward speed of from 10 - 15 miles per hour. I had counted 12 seconds when the object, then over the houses on the south-west side of Wallington Ave, disappeared. Just before it vanished, the light blinked out, then on, then out again. Although I looked closely, the

object was nowhere visible.

I realized, later, that the only place a plane could have taken off from, in that area, is the Passaic River. There was nothing in our local paper (The Herald News, Passaic, N.J.) about a plane or other object in our immediate area, so apparently, no one else had seen it or seen, reported it. I did not report it either, because of all the "flying saucer" stories that appeared at that time.

The thing that impressed me most, about this object, was the absolute silence in which it arose. It was one of the "dead" times of night, when nothing at all is heard.
