Unidentified object reported by many
observers at Palm Springs between 01:54 P.M.
and 02:00 P.M. on 25 Jul. Object would remain
stationary then move in circular course or
upward. Occasional flashes of exhaust
were seen, and the sound of a jet engine
was heard by some observers.

Several unidentified flying objects consisting, according to the many witnesses, of a white to orange red light, emitted from a rounded or diamond shaped object were sighted between 0154PST and 0342PST 26 July 1952. The object in almost all witness reports was stationary when first sighted then began a swinging motion, then began moving north and south around Palm Springs, California.

1. An unidentified diamond shaped flying object was sighted at 0154PST 26 July 1952. It was flashing blue and yellow and was sighted very high over Beaumont Pass, California, heading East.

a. At 0158PST a rounded or diamond shaped object was sighted over Palm Springs, California, appearing to move very fast although stopping at times.

b. At 0225PST an object was sighted moving North from Palm Springs putting out quite a lot of light.

c. At 0233PST the object was moving North and South around Palm Springs.

d. At 0306PST the object was observed standing still and had maintained a stationary position for a full 5 minutes.

e. At 0320PST the object seemed to be swinging back and forth between Palm Springs and San Jacinto Mountains.

f. At 0330PST as the object came closer it sounded like a jet engine.

g. At 0335PST another object was sighted moving eastward over Palm Springs very fast flashing a reddish orange color.

2. The above objects were seen by three women: [redacted]
Canyon Drive, Palm Springs, California; [redacted]
Palm Springs, California, and [redacted], Palm Springs, California.

3. At 0250PST Mr. [redacted], of Palm Springs, California, reported to be moving.

4. A Mr. [redacted] pilot of [redacted], a C-47, reported to Los Angeles Control that as he passed 25 miles South of Needles, California, at 0342PST he saw a light which appeared to be a landing light but lit up the ground approximately 30° and 5 miles to the right of his course. The aircraft was westbound into Los Angeles.

5. Thermal, California, weather at 0130PST was clear, visibility 20 miles, temperature 85, dewpoint 67, winds calm, altimeter 29.89. The weather remained clear with a visibility of 20 miles throughout the sighting period. Winds aloft at 10,000 feet were from 150° at 10 knots, 19,000 feet from 130° at 20 knots, 32,000 feet from 130° at 25 knots, 41,000 feet from 140° at 20 knots, 46,000 feet from 140° at 20 knots.

6. Known air traffic in the area through the sighting period was American 900, a DC-6, at 15,000 feet, eastbound over Palm Springs at 0132PST, and TWA Flight 5, A DC-4, westbound at 10,000 feet over Palm Springs at 0341PST.

Comments of Preparing Officer:

1. No observations concerning the aerial observer qualifications of the witnesses can be made. Witnesses were not interrogated.

Kansas City, Missouri
29 July 1952

SUBJECT: Report Of Unidentified Object In Sky

TO : Intelligence Officer
Central Air Defense Force
Fairfax Field, Kansas

1. The following report concerns events on the night of 25 July 1952, observed from the above address, by the writer.

2. At approximately 15 minutes past midnight my wife called my attention to what appeared to be an unusually bright star in the western sky. I observed this object through binoculars for about 10 minutes and then notified the dispatcher at Fairfax Field, Kansas of what I was looking at and it's location. I continued to keep the object under observation with the binoculars until approximately 15 minutes past one o'clock A.M. At this time it had apparently sunk so low on the horizon I could no longer keep it in view.

3. Chronological statement of events is as follows.

First observed. 0015 26 July 52.

Location. WNW from observer at angle of about 40° from horizontal.

Shape. Indeterminate, appeared to be round more than anything else.

Color. Predominately greenish with intermittent red orange flashes shooting out from edges in all directions.

Size. Unknown, but gave the impression of being quite large.

Altitude. Unknown, but based on intensity of lights would estimate 35,000 to 40,000 feet.

Speed. Took about one hour to cover 30° of arc in the sky

Course. Appeared to travel in a Northwesterly direction, with no apparent loss of altitude or change in speed.

Last observed, 0115 26 July 52, 120W from observer at an angle of about 10° from the horizontal

4. General impressions are as follows.

Only lights were observed, no substance was determined.

Not believed to be any type of conventional aircraft.

Weather was clear, no lightning in area.

Wish to emphasize that estimates of size and altitude given above are unreliable due to lack of adequate data on which to accurately judge. They are purely guesstimates.

5. During entire period of observation no sound that could be ascribed to the object was audible.

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112-Part II.)

1. Observer saw one round object one to two feet in diameter, pinkish red in color traveling in a straight path directly overhead. There was no exhaust and no sound. It was traveling faster than any jet aircraft the observer had ever seen. The object appeared to be about 10,000 feet in the air.
2. Seen at 22:20 CDST. Was visible for only a few seconds.
3. Visual observation from ground only.
4. Observer was in [REDACTED], Fort Knox, Kentucky. 37°53' N 85°59' W.
5. Observer has been in the Army for eight years. He has had no qualifying experience.
6. Fort Knox, Kentucky weather, clear, visibility 12 miles, light wind.
7. Several falling stars were seen by the observer on the same evening.
8. No existing evidence.
9. No action taken to intercept or identify the object.
10. There was no known air traffic in the area at the time.
- 10(a) Three military wives sitting on the lawn with [REDACTED] saw the same object and agreed with his description of it.

After watching object for probably ten minutes, decided to call OBT, so if necessary or thought unusual, it could be investigated. My husband remained outside watching while I called. When I returned outdoors he said the object had disappeared toward the Southeast, just before I got back. We watched for a few minutes but it did not return.

SUBJECT: Unidentified Flying Object Reportedly Sighted over Omaha, Nebr.,
26 July 1952.

TO: Director of Special Investigations
Headquarters USAF
Washington 25, D. C.
ATTN: Chief, Counter Intelligence Div.

1. SYNOPSIS: Three (3) individuals reported the sighting of an unidentified flying object at approximately 2130-2140 hours, 26 July 1952, at Omaha, Nebraska.

2. DETAILS: Mrs. [REDACTED], Omaha, Nebr., (employee of Offutt AFB, Nebr.) reported to this office that on 26 July 1952, at approximately 2130 hours, she sighted a round, disc-like object, about one foot in diameter, with a yellow-orange glow, traveling in a circular pattern, at varied speeds, in the sky. Mrs. [REDACTED] advised that she was able to distinguish the object from a spotlight traversing the sky in a similar pattern, inasmuch as the spotlight emitted a white-silver light, while the unknown object emitted a yellow-orange light. Mrs. [REDACTED] added that the object remained in sight for about ten minutes, at which time it traveled in a southeasterly direction and disappeared. Mrs. [REDACTED] said that her husband had also witnessed the object.

Mr. [REDACTED] furnished substantially the same information as his wife, except that he added that he believed a dark object had also been in the area where the glow was observed. Mr. [REDACTED] opined that the dark object may have been used to divert attention from the light.

Mr. [REDACTED], Omaha, Nebr., also reported to this office that he had sighted a round, disc-shaped object, with a yellow glow, travel in a circular pattern in the sky and disappear in a southeasterly direction at approximately 2140 hours, 26 July 1952. However, Mr. [REDACTED] later reported that at a later observation he had seen a spotlight in the sky with rays from the ground. Mr. [REDACTED] opined that the unidentified object may have been the spotlight, but that the rays had not been visible at his first sighting.
