Mrs. [REDACTED] reported that on 11 August while she and her husband were sitting in their back yard, two unidentified flying objects were seen flying horizontally from West to East at 2140 hours, CST. These objects could be seen for approximately 30 seconds with a glaring white band completely encircling both objects. The objects did not fly smoothly, but had a rather erratic wobbly motion. No exhaust, trail, or sound was evident. They appeared to be about the size of a dime as compared to stars in the sky. The weather was clear and there was no unusual wind or cloud conditions at time and place of sighting.

Comments of Preparing Officer: [REDACTED] seemed very sincere in her statements concerning the unidentified flying objects, and her husband was a witness for her. The information is probably true.

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)		
(1) Description of object: round, color white, size impossible to judge due to darkness, resembled moving ball of fire, left white flowing trail. Method of propulsion unknown. Only sound heard was a whiperack at initial appearance, and a whistling sound as one object passed directly overhead later. Objects moved faster than any known jet aircraft. (2) Time was approximately 2230 hours 11 August 1952. Objects appeared at regular 3-minute intervals, headed due west, and puffed out. At one time two objects appeared at once, crossed paths, and disappeared. At another time, four appeared, all traveling in a straight line due west. The objects seemed to materialize directly overhead. (3) Manner of observation: Naked eye. Altitude could not be judged. (4) Location of observers: Standing on road at 905 Jefferson St, Lake Charles, La. Coordinates 29° 30'N, 93° 30'W. Location of object with respect to observers: straight up, then moved due west. Distance from observers could not be judged. (5) Identifying information of observers: REDACTED (brothers), 905 REDACTED. Ages 17, 15, and 14, respectively. (6) Weather and winds aloft conditions at time of sighting: slightly cloudy, no wind. (7) To the knowledge of the observers, there was no activity or condition, meteorological or otherwise, which might account for the sighting. (8) There is no existence of any physical evidence such as fragments, photographs and the like, of the sighting. (9) No interception or identification action taken. (10) At time of sighting, observers viewed one airplane, very large, heading from southwest to northeast until the night lights disappeared from sight. A short time later, another appeared, heading due west. Sighting of objects began at aprx 2230 hrs and continued for approximately 1½ hours.
