SUBJECT: SIGHTING OF: UNIDENTIFIED FLYING OBJECT.

Sir,

At 6.30hrs on Saturday 16th February 1985 I spoke to a Miss Section 40 of Section 40 Buckhall, Stoke-on-Trent who reported sighting an Unidentified flying Object. I asked her questions about this occurrence and report in paragraphs A to O below as set out for this procedure.

A. 8.30hrs FRIDAY 15th/February/1985 for a duration of One hour.

B. The object appeared to be of a mushroom shape, very bright and a glowing Orange colour, No approximate Size could be given although she stated it would be the same size as an aeroplane, There was no Sound or Smell coming from the object, and that was the only object visible.

C. At the time of observing the object she was outside her house and standing in the front drive way.

D. At first she saw it with the naked eye and then through a pair of binoculars No photographs etc were taken.

Cont'd Overleaf / Sheet No

E. The object appeared to be directly over her next door neighbour's house Section 40 Buckhaven.

F. The object was directly overhead and quite high. She further states that it was about the same height as aeroplanes flight at.

G. Unable to tell no land marks avail

H. The object remained stationary for about One hour then moved quite quickly towards the Stoke area which took about 5 or 6 minutes then when in the vacinity of Stoke disappeared.

J. At the time the sky was clear, No clouds fog or electricity faults were apparent.

K. The only Hall bearing near is Buckhaven Hospital and she states there were no bright lights.

INFORMATION

1. Sec(AS)2 co-ordinate detailed investigation into reports on Unidentified Flying Objects, consulting AEW/GE and DI 55, and correspond with the public on the subject of UFOs when required.

2. Circulation of reports on UFOs is the responsibility of Sec(AS)2 during normal working hours, and AF Ops outside normal working hours. Reports may be received by telephone message or by signal message.

3. Copies of all UFO reports received in AF Ops and reports of AF Ops initial investigation, are circulated to Sec(AS)2, AEW/GE and DI 55.

4. The above mentioned reference gives considerable detail on the stages of investigation of UFO reports, and information should be passed to Sec(AS)2 as early as possible.

ACTION BY THE DUTY OPERATIONS OFFICER

5. During Normal Working Hours. Refer telephone calls reporting UFOs to Sec(AS)2, Ext 2140. No action is required on signal message reports.

6. Outside Normal Working Hours

a. Reports Received by Telephone. Complete the proforma at the Annex to this SOP. Dispatch it through the Registry.

b. Reports Received by Signal Message

(1) Ensure that the message has been circulated to the staffs detailed at para 3 above.

(2) Complete para R of the proforma at the Annex to this SOP and insert on the proforma the signal message reference to which the investigation refers. Dispatch it through the Registry.

Subject

SIGHTING OF POSSIBLE UFO - HUDDERSFIELD.

Station: HOLMFIRTH Date: 15 February 1985

Divisional Officer, Kirklees (Huddersfield)

At 7.15 am on Friday 15 February 1985 I was on duty in the Control Room at Holmfirth Police Station when I received a telephone call from Section 40 Meltham, Huddersfield (tel: Section 40).

Section 40 informed me that at precisely 4.02 am the same morning he had looked out of his house window and seen a strange object, which he could only describe as a bright orange ball in the sky.

The location given is above Castle Hill, Almondbury, Huddersfield. Section 40 stated that as he watched this 'object' hovering in the sky above Castle Hill, it descended, rose up again, descended onto moors, then rose up again, moved in the direction of the Emley Moor mast, Emley, Huddersfield, getting gradually higher, until it was eventually out of sight.

Section 40 called his wife, who also watched the object, he is adamant that it was not an aircraft.

I have made enquiries with Manchester Air Traffic Control, who confirmed that at that time a DC9 aircraft was over this area.

I submit this report for your information and request that it be passed to Chief Superintendent, Admin, for details to be passed to the Ministry of Defence, Department S4F (Air), Main Building, Whitehall, London, SW1A 2HB.

UNIDENTIFIED FLYING OBJECT

Station: Otley Date: 28 November 1984

Chief Superintendent Section 40

At 14.10 hours on Wednesday 28 November 1984, I attended at Section 40 Otley and there spoke to Section 40 and her mother Section 40 Section 40 informed me that at about 14.25 hours on Tuesday 27 November 1984 she was stood in the kitchen of the above address looking out towards Otley Chevin, which is to the South of Otley, when she saw an object which she describes as disc shape and spherical, and larger than a distbin lid. No lights were displayed on the object and it appeared to be moving under power as opposed to drifting about in the sky.

I informed both ladies that to the best of my knowledge when aircraft took off or landed from Yeadon Airport they cleared The Chevin at approximately 500 feet, and I asked them if the object was as high in the sky as this. Section 40 informed me that it was lower.

Whilst watching the object I was informed that the sun was not shining, however, it appeared to them to be a dull grey colour but when either the underside or topside was in view it glinted with a metallic effect.

When the object was first ~~since~~ seen it was to the South of Otley and was below the skyline of Otley Chevin. The object then travelled towards the North East, that is right across the Wharfedale Valley in the direction of a small radio mast situated near Almscliffe Crag. Whilst watching the object they saw it turn round travel back across the valley in a Southerly direction over ploughed fields in front of Farnley Hall, and appeared to land in an area known as Knotford Nook.

Both ladies did not actually see the object land as at this point their view was obscured by trees. They then returned inside the house.

At 15.30 hours the same day, I spoke to the Air Traffic Controller at Yeadon Airport, who informed me that at the time and on the date in question there was no aircraft movement whatsoever from the Airport and no weather ballons had been released at that time.

On instructions of Headquarters minute sheet dated 9 November 1967, I submit this report for the information of the Chief Superintendent, Headquarters Admin so that he may notify the Ministry of Defence.

Q. Description of events.

Whilst travelling to the pub, Observer noticed a strange bright light. He pulled over at a nearby traffic island, mounted the kerbside with his two front wheels and continued flashing his lights. Object of "whitish" brilliance then came towards him (ie changed direction) and came to rest in front of Observer. An Orange ball of light dropped from underneath the White light as though in freefall but then levelled out and moved towards observer. Observer in panic left the scene rapidly not seeing the orange ball of light again. However he did see the white ball of light ~~ascend~~ climb rapidly towards the south and dissapear into a cloudbank. Whilst this event took place the observer did not hear any noise from the object remarking that the only noise he heard was from the traffic passing him.

OCCURRENCE REPORT CA/BF/29/9/D Police 78 Section 40

Station RAF CARLISLE

Area Central Date 25 July 1984

182

Subject UNIDENTIFIED FLYING OBJECT.

Checked

Examined and Submitted

1. At 10.40pm on Thursday 26 July 1984, at the Main Police Office, RAF CARLISLE, I received a telephone call from Mr. Section 40 WHITEHAVEN (Tel. No. Whitehaven Section 40)

2. Section 40 asked me to record and report the sighting of an object in the sky, which he and his family had observed for a period of about five (5) minutes between 10.30pm and 10.35pm this date.

3. He described the object as being a light, white in colour, and spheroid in shape. It was observed against a background of cloud to the North of his house. He could not estimate either range nor height of the object, but said if the height of the cloud was known he had taken a measurement that could be of assistance in establishing this data.

4. Section 40 stated that his wife and two daughters had obser ed the light through binoculars, but could not see any feature on it's surface. He had called on a neighbour to obtain a better pair of binoculars when his wife had seen the object move upwards into the cloud. He was unable to offer estimates of speed or rate of acceleration.

5. When asked why he had chosen this Unit, rather than the local police to report the sighting Section 40 gave the impression that he would receive a more sympathetic hearing from the Service Authorities.

Sunday 15th. July '84.

Dear Sirs,

On the evening of Wednesday the 11th. inst., I, together with my two neighbours observed an object at a very great height.

It shone with the magnitude of Venus at it's brightest.

We observed it through binoculars.

It did not move for a period of about half an hour.

From our viewpoint it was at approximately 60° and in an estimated N.W. direction.

It appeared to have circular form.

I first noticed it at about 9.15 (21.15) and observed it until about 21.45 at which time I went indoors to fetch my x25 telescope.

However, upon finding the 'scope I was disappointed to find that the object had disappeared.

I had however fixed it's position by aligning it with the corner of the roof.

The time was then almost 22.00.

Upon making a further aligned viewing I found I was looking at a point approximately in the centre of the "Plough" which was by then faintly visible.

My neighbours would corroborate.

Your's Faithfully,

Chief Superintendent

On Thursday, 26 April 1984, PC 657 Section 40 was on duty at Edgware Police Station when at approximately 10.20pm he received a telephone call from Mrs Section 40 aged about 29 years, of Section 40 Stanmore. As a result of what Mrs Section 40 told the officer, he went to Section 40 Stanmore, where he met Mrs Section 40 and Miss Section 40 aged 21 years, of Section 40 Stanmore. They stated in the presence of PC 657 Section 40 and PC 541 Section 40 that they had seen an object of an unusual nature in the sky above her rear garden.

Both officers accompanied Mrs Section 40 and Miss Section 40 into the rear garden of Section 40 where Mrs Section 40 pointed east towards a flashing light, approximately 45° up in the sky from where they were standing. The officers obtained a pair of binoculars and studied the object through them and saw that the object was circular in the middle with a dome on the top and underneath. The middle of the object had blue lights around the middle and a red/pink lights on the extreme right of the middle. The dome on the top and blue and white flashing lights, the dome underneath was blue, green and red/pink with white flashes. They observed the object for an hour and during that time the object moved erratically from side to side, up and down and to and fro, not venturing far from the original position. During the time the officers observed the object it moved up to the right to a position of approximately 50° from where they were standing.

SC 118 Section 40 was also present during this time and observed the object. The object appeared to be over Borehamwood or Mill Hill.

Mrs Section 40 stated "At 9.45 approximately, I opened my back door to let the dog in, when I noticed a bright light in the sky about 45° up above the trees in my back garden that was flashing blue, white, green and pink and it seemed to have things flashing off it. I called my friend out to show her. We both stood and watched for about 5-10 minutes. I ran out to tell my neighbours but saw two young boys walking by and asked them if they could see it they said they could. I ran back into my friend, we watched a little longer. I then ran next door and told them, we went in their garden. They also saw it and the light flashing off it. I ran back in again and my friend and I stood watching it when a blinding white ball with a trail behind went above from left to right, we both screamed at the same time our neighbours heard us. The light at this time was going further back in the sky and throughout the whole time the object was moving very fast and very erratic the whole time. I am not a nutter. I 'phoned the police who sent three officers round, who all witnessed and agreed this was not a plane or a star and that it was flashing colours and moving very erratic. This object was also viewed through binoculars by the police and myself".

All minutes to be numbered in consecutive order. Continue on other side if necessary.

Miss Section 40 stated "My friend called me into her back garden at 9.45pm and we both saw a large flashing object, much larger than a star in the sky between two trees. The object was flashing bright pink, blue and white and small white objects were shooting away from the main object while it moved in a triangular motion. We watched it for 55 minutes and in this time it faded almost away and then came back and started to fade slowly. After watching for about 20 minutes a bright white light flashed rapidly past us about 100 feet from the house from left to right leaving a bright white trail.

I saw one white object go back to the main red, white and blue one after about 20 minutes."

Air Traffic Control informed. OB 168 and SM 63A of 26.4.84. and SM 3 of 27.4.84. refer.

On Thursday 26th April 1984 I was on duty in full uniform at Edgware Police Station. When as a result of what Mrs. Section 40 told me over the telephone. I went to Section 40 Stanmore, where I met Mrs. Section 40 and Miss Section 40 They stated in the presence of P.C Section 40 and myself that they had seen an object of an unusual nature in the sky above her rear garden. P.C. Section 40 and myself accompanied the females into the rear garden where she pointed east towards a flashing light approximately 45 Degrees up in the sky from were we were standing. A pair of binoculars were obtained and I studie the object, through them. I saw that the object was circular in the middle with a dome on top and underneath. The middle Section of the object had bright blue lights around it with a red or pink light on th extreme right. The Dome on the top had blue and white flashing. Underneath the bottom dome was or appeared to be covered in blue green

Narrative:-

SATCO (14 years experience) came up to VCR to oversee "deputy controller" (deputy SATCO?) plus assistant (12 year + 8 years experience respectively) "talking in" a light plane on runway 22. SATCO scanned the sky and observed "LITS" (light in the sky) coming in on runway 27 and told the controller his plane was on 27 and not 22. Then the light plane called base leg for 22 and everyone become aware that the objekt on final for 27 was unidentified. SATCO reports that the objekt came in "at speed", made a touch and go on runway 27, then departed at "terrific speed" in a "near vertical" climb. It was at this point that SATCO observed the objekt through binoculars, resulting in the description at (b)

The Aircraft in the circuit did not see it.

The Airfield's radar was not being used; a nearby RAF airfield (with radar) was closed for the Easter period.

NB phrases in parenthesis are quotes from the report & was genuine. Witnesses do not wish to be identified in case their professional integrity is questioned.

Subject ...Correspondence from the public - UFOs.....

Section 40 I attach a copy of a letter from Section 40 enquiring about the possible identity of a light viewed over Brighton on 9 October.

Whilst I could give the standard reply that we are only interested in the defence implications of UFOs I would like, if anyone has any bright ideas as to what the object/light might have been, to let Mr. Section 40 know.

Can you help please?

Section 40

Dear Sirs,

I wonder if it is possible for you to help me to find a logical explanation of what, to me, was a strange occurrence?

Around midnight, on October 9th, from an upper window here, I saw a very large globe of yellow light which moved horizontally across the sky line, taking about a quarter of a minute. This globe disappeared as abruptly as it had appeared.

Assuming the Ministry of Defence has minutely detailed maps here is more detailed information. From my bed in Cromwell Avenue, Hove it appeared at the far left of, and higher than Sussex Heights (a tall block of flats), Brighton, and disappeared over approximately West Street, approach to Brighton Station. Taking distance into account, its size must have equalled that of a semi-detached house!

Investigation has revealed nothing unusual in the way of electrical storms, meteorites etc, or local fires. The only suspect occurrence was a lifeboat launch, but flares do not

P.T.O.

Traveling in a steady horizontal direction until they shed light - The globe did not.

Although nothing can ultimately be proved about anything, there is a point where one may say "it would seem to be so." The UFO question, for me, has not reached it. The whole subject is open to false, wishful thinking and publicity seeking. However, 100 years ago the idea of television would have met with the same scepticism that UFOs do today.

I hardly believe that I saw this globe of light, yet I know that I did see it. I would be very grateful if you could let me know of any other investigations I could make, or if you have any explanation of this odd occurence.

Thanking you,

Yours faithfully,

Section 40

P.S. Satellites are always thought to be small to remain out in the "wide blue yonder." Are they, and do they?

Please don't dub me just another crank. I'm just an astounded realist.

Photostat made of original sketch made of object seen in night sky over Surrey, June 1983.

Observation made by Mrs. Section 40

Sanderstead,
South Croydon,
Surrey, Section 40
Tel. Section 40

sometime during the month of June 1983 at approximately 3am one morning. Slate grey sky. No moon or stars visible. Object appeared to pass very slowly across Mrs Section 40 view from her left to right (in relation to the position of the house from south to north-north east). There seemed to be no means of propulsion. The object was not being pushed, pulled, lifted or carried. Its movement was silent.
