Dear **Section 40**

Further to my message yesterday regarding your requests for information about UFO sighting reports, I have now been informed by our Departmental Records Officer that the MOD files for 1978 were transferred to The National Archives in March 2005. Any surviving information concerning the following requests should therefore also now be open for viewing as described in my previous message.

DATE	TIME	LOCATION
1978	03:00	Halifax, West Yorkshire
1978	03:00	Chiltern, Nr Crendon, Bucks
11 January 1978	16:45	Rainhill, Nr St Helens
January 1978	02:30	Cononley, Nr Skipton, North Yorkshire

If you wish to view these records they can be found under the following National Archives references;

DEFE 24/1207 - UFO Reports & Correspondence
DEFE 24/1208 - UFO Reports (Unedited reports)
DEFE 24/1209 - UFO Reports
DEFE 24/1210 - UFO Reports
DEFE 24/1211 - UFO Reports
DEFE 24/1212 - UFO Reports
DEFE 24/1290 - UFO Reports (Edited)
DEFE 24/1291 - UFO Reports

The records covering the period of your remaining four requests (1979-1980) are still with the MOD and these should arrive with me shortly. As soon as I have examined them for any relevant information, I will write to you again.

Yours sincerely,

Dear **Section 40**

I am writing concerning the 27 Freedom of Information requests you have made for information about various UFO sightings between 1957 and 1980. Your messages have been passed to this department as we are the focal point within the Ministry of Defence for correspondence about UFOs.

First I should explain that it was generally the case that before 1967 all "UFO" files were destroyed after five years, as there was insufficient public interest in the subject to merit their permanent retention. In 1967 there was an increase in public interest in this subject and since then UFO report files have generally been preserved and transferred to The National Archives when they are approximately 25 years old. Some files did survive from the 1950s and early 1960s, and these together with records up to 1977 are now open for viewing. If the incidents detailed in the table below were reported to the MOD and any relevant information has survived it will be available at The National Archives, Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU (telephone: 020 8876 3444). The National Archives website <http://www.nationalarchives.gov.uk> gives details of the records they hold (including their on line catalogue) and how to access them.

DATE	TIME	LOCATION
September 1957	23:45	Bristol Channel
July 1963		Chorlton, Near Shaftesbury, Wiltshire
27 August 1967		Between Spelsbury and Chipping Norton, Oxfordshire
27 August 1967		Glossop, Derbyshire
24 October 1967	04:00	A3072 Between Okehampton and Holsworthy, Devon
October 1967		Gosport
Late October 1967	05:30	Bacup, Lancashire
October / November 1967		Sharneyford, Near Todmorden, West Yorkshire
5 August 1969		Carmarthen, Wales
16 June 1970	04:00	Hampstead, London
Late February 1971	06:15	Nuneaton
August 1971		Albridge, Staffordshire
27 October 1971	21:40	Banbury, Oxfordshire
14 September 1972		Crumlin, Monmouthshire, Wales
15 August 1975	03:25	Bury, Greater Manchester
October 1975	06:15	Salisbury, Wiltshire
1 August 1976		Hemel Hempstead
3 May 1977	04:12	Hainault Forest, London
28 August 1977	00:10-00:30	Windermere, Cumbria

With regard to your remaining 8 requests covering the period 1978 to 1980, the MOD still holds records for this period. I will examine these to see if they contain any relevant information and I will write to you again shortly.

Yours sincerely,

Dear **Section 40**

I am writing concerning your request for information about UFO sightings in and around Shrewsbury, Shropshire since 1995, including those by personnel based at RAF Shawbury. I apologise for the delay in replying.

First, I should explain that this department holds details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contains sighting reports) spanning a 25 year period. These records are not held electronically, but are filed on paper files in the order in which they were received. It is possible that amongst these documents there are reports from Shropshire, but in order to gather the information you are seeking, a manual search of a 10 year period of records would be required. It has been assessed that the cost of such an exercise would exceed the permitted £600 limit set for compliance with the Freedom of Information Act and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request.

You may however, wish to be aware that we are in the process of compiling a database of basic information from these sighting reports which we intend to publish in the MOD Freedom of Information Publication Scheme at www.foi.mod.uk in the future. We have now completed the database for the period 2002 to date, and a search of these records has provided the following information that you might find helpful.

DATE	TIME	TOWN /VILLAGE	COUNTY	BRIEF DETAILS OF SIGHTING
21-Feb-05		Chivnal	Shropshire	Silver object/ball with a tail on it. Was going very fast.
28-Jan-04	18.15	Billingsley	Shropshire	Lights in the night sky flying in formation.
25-Nov-03	14:25	Wem	Shropshire	A strange bright orange/red light in the sky.
28-Jan-02	03:00	Telford	Shropshire	Three triangle shaped object. Looked like the Mitsubishi car sign. Middle triangle was brighter than the other two.
14-Feb-02	21:11	Rock	Shropshire	White lights were seen.

You also requested reports specifically by personnel based at RAF Shawbury. None of the reports listed above came from military personnel, but I have enclosed, for your information, copies of the documents which the MOD hold's on a well known event involving personnel from RAF Shawbury and RAF Cosford on 30/31st March 1993. Although this is outside of the 10 year period you requested, you may find this useful.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>

Yours sincerely,

Section 40

Dear **Section 40**

Reference:11-01-2005-090907-003

I am writing concerning your request for information regarding reports of UFO sightings over or close to UK or US military installations based on the UK mainland. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence about UFOs.

This Department currently holds UFO sighting reports and correspondence files which contain reports made to the MOD over the past 25 years. These reports are filed in the order in which they were received and are not segregated by either source or location. It is possible that amongst this vast amount of information there may be reports relevant to your request, but without examining every one of the hundreds (possibly thousands) of reports contained in these files, it is impossible for us to identify those of particular interest to you. However, we are committed to providing requested information wherever possible, so if you would care to specify a period of time (ie 1-2 years) we could examine our files for that period and consider the release of copies of any relevant documents found.

I hope this is helpful. Please inform me if you wish to proceed with your request on this basis.

Dear **Section 40**

Reference: 04-01-2005-110832-012

I am writing concerning your Freedom of Information request for a list of the number and location of UFO sightings to date in Flintshire. Your request has been passed to this department as we are the focal point within the Ministry of Defence for correspondence about UFOs.

This department holds details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contains sighting reports) spanning a 25 year period. These records are not held electronically, but are filed on paper files in the order in which they were received. It is possible that amongst these documents there are reports from Flintshire, but in order to gather the information you are seeking, a manual search of the whole 25 year period of records would be required. It has been assessed that the cost of such an exercise would exceed the permitted £600 limit set for compliance with the Freedom of Information Act and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request.

You may wish to be aware, however, that in order to assist members of the public with enquiries about UFO sightings reported to the MOD, this department is currently compiling a database of reports which we intend to publish in the MOD Freedom of Information Publication Scheme at the end of June 2005. The Scheme can be found on the internet at <http://www.foi.mod.uk>. You may wish to wait until this is published as this might answer your enquiry in full. In the meantime, we could assist you with the information you are seeking if you reduce or refine your request to allow a limited search of records and to bring the cost of compliance with the Freedom of Information Act under the permitted limit. I suggest this would equate to records spanning a one or two year period. Please contact me if you require further advice and assistance on refining your request. If I do not hear from you by 28 February 2005 I will assume that you do not wish to pursue this request further.

If you are dissatisfied with this decision or wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, London, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely,

Subject: Freedom of Information Act

Dear **Section 40**

I sent you an email making a request for information under the Freedom of Information Act.

The request was concerning the number and location of UFO sightings to date in Flintshire, and if any action was taken by the Ministry of Defence as a result.

I am writing again to check if the request is being dealt with. I would be grateful if you could let me know.

Section 40

It is for the policy lead to actually answer FOI requests (Section 40 at DAS I presume). Clearly they would need to keep us in the loop and let us know when and what they are planning to release and if necessary we'll make sure there are defensive press lines in place before the release.

If the press office does receive requests like this. We will take responsibility for adding the request to the AIT and then forward it to the right policy desk.

Thanks for letting us know this is coming though.

Hi Section 40 cc: Section 40 (DAS)

I have received the email below from a member of the press so assume it is best to forward to the Press Office for reply? I have copied in Section 40 who is my main contact for UFO material for the publication scheme.

Publication scheme manager

I am a writing from a north wales newspaper, the Flintshire Evening Leader.

I am trying to find out how we would register for information relating to UFO sightings in Flintshire, under the freedom of information act that comes into force on January 1.

I would be grateful if you could help

**Section 40**

From: **Section 40**
Sent: 16 February 2005 15:34
To: **Section 40**
Subject: Internet-Authorised: REQUEST FOR INFORMATION

Dear **Section 40**

You originally requested information from the Ministry of Defence about UFOs on 16 January. My colleague, **Section 40** sought clarification of your request on 24 January, which appears to have crossed with your further request for information about UFOs which you sent on 21 January. Your letter has been passed to this office as we are the focal point within the Ministry of Defence for correspondence about 'UFOs.'

I am afraid that in its current form it is still not possible for us to answer your request. As my colleague advised you, the Ministry of Defence holds details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contain sighting reports) spanning a 25 year period. These records are not held electronically, but are held on paper files in the order in which they were received. Before any of this information can be released personal data has to be removed in accordance with the Data Protection Act 1998. Clearly, if we were to process copies of all these records the costs would quickly exceed the permitted £600 limit set for compliance with the Freedom of Information Act 2000 and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request. If however, if you could be more specific about the information you are seeking we may be able to assist you. For example, I do not understand what you are seeking in relation to "any form of experimentation within the UK". Also, it is simply not possible to extract files containing "words such as Aliens..." etc. It would be helpful if you could be more specific.

You may wish to be aware that there is already some information about UFOs available for public viewing. MOD files on UFOs were routinely destroyed after 5 years until 1967 when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1977 are now available for viewing. The National Archives can be contacted at Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU or by telephone on 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at <http://www.nationalarchives.gov.uk>. The Ministry of Defence Freedom of Information Publication Scheme also contains documents relating to the well known events in Rendlesham Forest, Suffolk in 1980 and the final report of the Flying Saucer Working Party in 1951. These can be accessed via the internet at <http://www.foi.mod.uk>. A search in the Scheme under 'UFO' will take you to this information. We are looking to see if further information can be made available to the public and we are currently compiling a database of reports which we intend to publish in the MOD Freedom of Information Publication Scheme at the end of June 2005.

I hope this is helpful.

Section 40

Subject: Internet-authorised: Request for Information

Dear Section 40

I am writing concerning your message of 16 January in which you requested information from the Ministry of Defence about UFOs. Your message has been passed to this office, as we are the focal point within the Ministry of Defence for correspondence about UFOs.

First, it may be helpful if I explain that the MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

The Ministry of Defence examines any reports of UFOs it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to the files the MOD holds on UFOs, these span a 25 year period and the vast majority contain reports and correspondence sent to the MOD, filed in the order in which they were received. These records are not held electronically. Any information released from these files has to be redacted in order to remove personal data in accordance with the Data Protection Act 1998 and it is not therefore possible to supply all the information you are seeking. If however, you would like to specify exactly what information you are seeking we may be able to assist you. In the meantime, the MOD has released some information on UFOs into our Freedom of Information Publication Scheme which can be found at www.foi.mod.uk. A search under UFO will take you to all the classes currently in the Scheme.

I hope this is helpful.

I am writing with reference to your letter dated 4th February about access to information the Ministry of Defence holds with regard to reports of 'unidentified flying objects'. Your letter has been passed to this office as we are the focal point within the Ministry of Defence for correspondence about 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence does not have any expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date the MOD knows of no evidence which substantiates the existence of these alleged phenomena. Any 'UFO' sighting received are examined to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your request for copies of UFO reports received by the MOD, I should inform you that this department holds details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contains sighting reports) spanning a 25 year period. These records are not held electronically, but are filed on paper files in the order in which they were received. Before any of this information can be released personal data has to be removed in accordance with the Data Protection Act 1998. Clearly if we were to process copies of all these records the costs would quickly exceed the permitted £600 limit set for compliance with the Freedom of Information Act and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request. If however, if you could be more specific about the information you are seeking we may be able to assist you.

In the meantime, you may wish to be aware that there is already some information about UFOs available for public viewing. MOD files on UFOs were routinely destroyed after 5 years until 1967 when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1977 are now available for viewing. The National Archives can be contacted at Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU or telephone,

020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at <http://www.nationalarchives.gov.uk>. The Ministry of Defence Freedom of Information Publication Scheme also contains documents relating to the well known events in Rendlesham Forest, Suffolk in 1980 and the final report of the Flying Saucer Working Party in 1951. These can be accessed via the internet at <http://www.foi.mod.uk>. A search in the Scheme under 'UFO' will take you to this information. We are looking to see if further information can be made available to the public and we are currently compiling a database of reports which we intend to publish in the MOD Freedom of Information Publication Scheme at the end of June 2005.

I hope this is helpful.

Dear **Section 40**

I am writing concerning your Freedom of Information request for details of an alleged UFO crash at Minley Manor in July 1977. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence regarding UFOs. I apologise for the delay in replying.

The MOD no longer holds any files on UFOs covering July 1977 as all the surviving UFO report and correspondence files for this period are now open for public viewing at The National Archives. Details of opening times and how to access information at The National Archives can be found on their website at www.nationalarchives.gov.uk. We know of no specific file concerning an incident at Minley Manor, but you may wish to view the following files which are relevant to the period.

The National Archives Reference	Title	Period Covered
DEFE 24/1206	UFO Reports and Correspondence	April – October 1977
DEFE 24/1207	UFO Reports and Correspondence	October 1977 – March 1978
DEFE 71/34	UFO Reports	1977
DEFE 71/35	UFO Reports	1977

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely,

Dear **Section 40**

I am writing concerning your request for information about UFO sightings received by the Ministry of Defence in 2004 and 2005. Your message has been passed to me as this department is the focal point within the MOD for correspondence about UFOs.

The Ministry of Defence does not have any expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial lifeforms. We remain totally open-minded, but to date the MOD knows of no evidence which substantiates the existence of these alleged phenomena. We do not carry out investigations into the sightings reported to us, but examine any reports we receive solely to establish whether they provide anything of defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your questions about the types of information that the MOD could be exempt from disclosing about UFOs, I should inform you that each request for information is looked at on its merits and the requested information is examined in light of the Freedom of Information Act 2000. Any of the exemptions in the Act could be applied if it is necessary. Since the introduction of the FOIA in January this Department has answered more than 90 requests about UFOs and the only information withheld has been personal data to protect the privacy of individuals who corresponded with the MOD.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely,

Dear **Section 40**

I am writing concerning your request for information about 'unidentified flying objects' and your comments on the 'Disclosure Project'. Your request has been passed to this Department as we are the focal point within the Ministry of Defence for correspondence regarding UFOs. I apologise for the delay in replying.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'UFOs' it receives solely to establish whether what was seen might have some defence significance, namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external source, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to the 'Disclosure Project', we are aware that many people have claimed to have experienced various phenomena. However, the MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or, the question of the existence or otherwise of extraterrestrial lifeforms. We remain totally open-minded, but to date the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

The only records the MOD holds on these events are the UFO sightings reported to us and public correspondence about UFOs spanning a 25 year period. These are not held electronically but are filed on paper files in the order in which they were received. Before any of this information can be released personal data has to be removed in accordance with the Data Protection Act 1998. Clearly, we can not process copies of all MOD records, but if there is specific information you are seeking we may be able to assist you. You may also wish to be aware that there is already some official MOD information about UFOs available for public viewing. MOD files were routinely destroyed after 5 years until 1967 when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1977 are now available. The National Archives can be contacted at Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU or telephone, 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at <http://www.nationalarchives.gov.uk>.

The Ministry of Defence Freedom of Information Publication Scheme also contains documents relating to the well known events in Rendlesham Forest, Suffolk in 1980 and the final report of the Flying Saucer Working Party in 1951. These can be accessed via the internet at <http://www.foi.mod.uk>. A search in the Scheme under 'UFO' will take you to this information. The Freedom of Information Publication Scheme, Reading Room also contains the answers to some of the many Freedom of Information requests we have received on this subject since the introduction of the Freedom of Information Act 2000 in January.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely,

**Section 40**

From: Section 40
Sent: 26 August 2005 08:42
To: Section 40 @dailypost.co.uk
Subject: Internet-authorised: Freedom of Information request

Dear Section 40

I am writing concerning your request for information about an alleged 'UFO incident' in the Berwyn Mountains in Wales in 1974. Your request has been passed to this Department because we are the focal point within the Ministry of Defence for correspondence about UFOs. I apologise for the delay in replying.

These events are alleged to have taken place in the Berwyn Mountains on 24 January 1974 and the Ministry of Defence UFO records for this period are no longer held by the MOD, but are now open for public viewing at The National Archives, Kew, Richmond, Surrey TW9 4DU. Details of how to access information at The National Archives can be found on their website at www.nationalarchives.gov.uk. A quick look at the archives catalogue (PROCAT) has revealed two files for this period that might hold relevant information. These are AIR 2/18873 (Unidentified Flying Objects 1973-74) and AIR 2/18874 (Unidentified Flying Objects 1974-75).

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

infosubject: At about 8.30pm on January 23, 1974, witnesses claimed to have seen an object fall out of the skies over Clwyd, Wales, and impact into the Berwyn Mountains. Dozens of people across Lancashire and Cheshire were said to have phoned police claiming to have seen objects in the sky.

The impact was said to have registered 4-4.5 on the richter scale and was said to have been felt in Wrexham, Chester, Liverpool, Southport, and even in some areas of Greater Manchester.

Police and army personnel converged on the area.

Some claimed a spaceship had crashed into the mountain. Alien bodies were claimed to have been taken to Porton Down. Others said it was a meteorite. Others said there had been an earthquake.

It was covered extensively in the newspapers at the time.

Ministry of Defence officials were said to have been involved in the investigation. There were claims people ordered not to say anything about what had happened.

What happened that night still remains a mystery and I was interested in MOD documents under the Freedom of Information Act which could shed light on what happened.

What are the official reports of what happened that night. What were the conclusions of any MOD investigation. Were the objects spotted on radar.

I would be grateful if you could send any documents.

Section 40

Dear [redacted] **Section 40**

I am writing concerning your request for information regarding your research into a crop circle that appeared near Stonehenge on 7th July 1996. I apologise for the delay in replying.

I am afraid I am unable to provide you with the information you are seeking because military pilot's carry their flying log books with them throughout their career to record details of the hours they have flown. It is not possible for us to ask every pilot in the RAF, Army and Royal Navy to check their individual books and even if this was possible, details of the routes of individual sorties are not recorded in these logs, only the time of departure and landing and the duration of the flight.

With regard to your request for a statement about whether any military aircraft flights took place over this location at this precise time, I am unable to assist you, as each military sortie is planned individually and no central records are kept.

You say that the aircraft may have flown from Boscombe Down, but I should inform you that military aircraft often fly hundreds of nautical miles during one training sortie and it should not be assumed that an aircraft has come from the nearest military establishment. Again it is impossible to confirm which Station this military aircraft might have come from for the same reasons mentioned above.

I sorry I can not be more helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

infosubject: I have recently been researching a crop circle which appeared (supposedly in broad daylight) across the road from Stonehenge and the A303 sometime between 5.00pm and 6.30pm on 7th July 1996.

In the various reports and myths which have been built around this event is a report of an RAF training flight over the field in question. One crop circle researcher has written of seeing the pilot's log (I am trying to verify this pilot's log exists and contains relevant information to the crop circle).

So the information I would like to see is:

Any pilot's logs in which the pilot flew over Stonehenge between the times of 4.00pm and 6.30pm on the 7th July 1996. Or a written statement relating to the fact that no flight took place in that location at that time on that date.

I believe the training flight may well have flown from Boscombe Down but this is not clear from the information I have.

I hope you can help as this is now quite an old event and has reached mythical status in the crop circle world.

It would be great to add some real fact to much of the nonsense written about it.

Thanks

We have received a question relating to crop circles, the text of which I have attached. It has been suggested by the Air Historical Branch that the flight in question could have been an Army Air Corps helicopter from Middle Wallop, since AAC use Salisbury Plain for training flights.

Can you provide any assistance with this question.

Many thanks

Subject: RE: 20050518-U-RFI_BoscombeDown-FOI_2

Section 40

Apologies for not getting this back to you sooner but I fell foul of the dentist! I have looked for the Boscombe Down Operational Record Book (F540) which would cover the day in question but we do not have a one! There is a gap between Feb 94 and Apr 97 when Boscombe Down appears to have failed to submit a F540. Also it is highly unlikely that any Authorisation Sheet is still in existence as the date in question exceeds the time period stipulated for the retention of these Sheets.

With regards to the pilots' log books, as I said during our telephone conversation, they are issued to pilots and remain in their possession when they leave the Services as a record of the flying hours they have flown. As they form part of the personal records of the pilot they are covered by the DPA. If the researcher has seen the pilot's log then it must have been shown to him by the pilot in question as it would not be in the public domain.

If the aircraft came from Boscombe Down I can think of no way of tracing the pilot. Further, as Section 40 believes it was a training flight it is also possible that an Army Air Corps helicopter from Middle Wallop near Andover was the aircraft involved as the AAC use this area for training flights (Salisbury Plain).

It is not possible to give a statement that categorically says that no flight took place in the location at that time or at that date as this is impossible to prove.

Hope this helps!

Section 40

Following intensive investigation by our SME (OC Ops, Sqn Ldr [redacted] here at RAFSU Boscombe Down regarding the FOI request about Crop Circles, the records that would potentially answer this request do not go back as far as Jul 96. The Air Traffic Control Logs only date back to Sep 96 with previous logs being destroyed. A possible other avenue would have been to investigate UAS/AEF records however, these are destroyed after 2 years. We have also canvassed staff that were at this unit in Jul 96 to no avail. The only other potential avenue for investigation is via the F540 and flying authorisation sheets. These will be lodged with the Air Historical Branch so you might want to direct this FOI request to them. Sorry we could not be of more assistance and please contact me if you need to pursue this further.

30th August 2005

Your Ref: D/DAS/10/2/8/13

Dear Section 40

Thank you very much indeed for your letter of 25th August, and enclosure.

The unclassified signal was sent by your good self to Section 40 about 4-5 years ago, you will recall, and later you sent him a less redacted version. I had been hoping that further information might be available, but it seems not. I appreciate all the explanatory information you have provided.

You may be interested to know that I first heard about this case a few weeks after the event, indirectly via a high-ranking source in RAF Germany. According to him, there were two large UFOs. One of the Tornados, when approached on a head-on course by one of the unknown craft, was reportedly forced to take violent evasive action. In 1991, that source agreed to put something in writing for a friend, who subsequently sent me a copy. I enclose a copy of part of his letter. As you can see, there is no mention of a near-miss, or two large UFOs, though that is what he originally said.

Some confusion remains in my mind regarding the sequence of events and the two types of aircraft, but you will be pleased to know that I shall not be making any further FOI requests in this connection!

Sincerely

Section 40

5

Our version of events begins at 1900 hrs on the evening of 5 November 1990 with reports at Rheindahlen of a 'sonic boom'. We confirmed that, at that time two of our Phantom aircraft were carrying out practice intercepts at a very high level over Germany, under positive radar control and did not fly supersonic. Simultaneously, the crew of one of the Phantom aircraft reported a UFO sighting, described as a large formation of aircraft all in reheat in finger formation (similar to that seen in the Battle of Britain films) disappearing to the north. The crews gave chase, but did not establish further visual or radar contact. Separately, one of our Tornado aircraft returning at high level from the United Kingdom saw an array of red lights in the sky and, similarly, investigated to no avail. Subsequently, the NATO Air Defence Organization reported that there were several unidentified high speed contacts during the course of that evening in the same area (Western border of Germany/Southern Belgium) as the sightings.

We shall probably never know exactly what our crews saw or, our people on the ground heard. Some days later you will be interested to learn that a Chinese satellite re-entered the atmosphere over North west Europe at about the same time on 5 November 1990. I must, however, also point out that the meteorological conditions prevailing at the time were perfect for the propagation of the phenomenon known as anaprop which during severe atmospheric temperature inversion trap particles in the atmosphere which speckle on radar and produce spurious radar symbols known as angels.

Dear **Section 40**

I am writing concerning your request for information about a UFO sighting reported by RAF pilots on 5 November 1990. I can also confirm that we have received your second request for UFO sighting reports from Kent in March 1997 and this is currently receiving attention.

I apologise for the delay in replying. I am sure you will appreciate the subject of UFOs is very popular with the general public and since the introduction of the Freedom of Information Act 2000 in January, we have received a large number of requests which we are working our way through.

Please find enclosed a copy of the report made by the RAF pilots as requested. We do not hold a specific file for this case and as far as we are aware, this is the only document concerning the sighting we hold. Two lines have been obscured as they contain the name of the pilot who made the report, and the actual post of an individual working within the MOD. I can, however, inform you that their Department was the Directorate of Air Operations.

I hope this is helpful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact the undersigned in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely,

Our Reference
11-05-2005-101024-004

Date
25th August 2005

Dear **Section 40**

Thank you for your letter dated 2nd May concerning your request for information about UFOs. I apologise for the delay in replying.

I will answer your requests / questions in the same order as your letter.

First I can confirm that we did not receive any UFO sighting reports for 7th or 8th August 2004 in or around Cannock Chase, Wolverhampton, Penkridge or Lichfield. With regard to reports from South Staffordshire in the last three years, you may recall that my colleague, **Section 40** wrote to you on 18th July 2003, in response to your previous request for information and gave you details of the one report we had received at that time. In order to answer your request **Section 40** searched our records for the previous 18 months and that was the only report we held. Since then we have received only one report from Staffordshire and that was from Stoke-on-Trent. The only details we received was that a witness saw "a flying saucer" at 23.15 on 15 January 2005.

You also asked whether we hold statistics on triangular objects. We do not keep such records. We receive reports describing many shapes, patterns, lights etc. All the reports we receive are filed on paper files in the order in which they are received and are not segregated or put into categories.

With regard to your comments about military activity close to nuclear power stations and civil airports, I can assure you that military aircraft do not conduct training in close proximity to these locations. Flight safety issues are taken extremely seriously by the RAF and aircrew adhere to the highest levels of airmanship. Restricted Areas of 2 nautical miles radius are in place around all major nuclear installations and RAF crew are aware of these and act accordingly. Infringements of the restricted area can occur, but are extremely rare. Civil airfields have air traffic zones of various radius depending on the activities of the particular airfield. These restricted zones are controlled by Air Traffic Controllers and military aircraft only enter them with the permission of the ATC. As you have mentioned the Manchester Airport airmiss, I have enclosed for your information a copy of the Civil Aviation Authority Airmiss report into the incident. You will see that although a definitive cause was not found for these events, the investigator found no evidence that military activity was involved.

Finally, you asked for information on UFO reports on 31st March 1993. The MOD received a large number of UFO reports and a few more enquiries were made than is normal. The

Department's air defence experts were, however, satisfied that there was no evidence of a threat to the UK. Please find enclosed copies of the documents the Ministry of Defence holds on this event. Personal data including individual's names, addresses etc, has been removed in accordance with the Data Protection Act 1998.

I hope you find this useful. If this information does not address your requirements or you wish to complain about any aspect of the handling of this request, then you should contact this department in the first instance. Should you remain dissatisfied, then you may apply for an internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB.

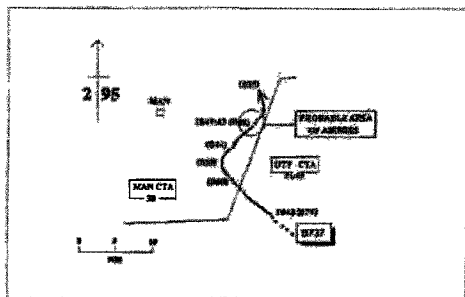

If you are still unhappy following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.informationcommissioner.gov.uk>.

Yours sincerely,

Section 40

AIRMISS REPORT No. 2/95

Date/Time: 061848 Jan **NIGHT**
Position: N5318 W0200
 (8NM SE Manchester Apt)
Airspace MTMA **Class:** A
Reporting Aircraft Reported Aircraft
Type: B737 **Untraced**
Operator: CAT
Alt/FL: 4000 ft ↓
 (QNH 1027 mb)
Weather VMC CLAC
Visibility: 10 km+

**PART A: SUMMARY OF INFORMATION REPORTED TO JAS**

THE B737 PILOT reports that he was over the Pennines, about 8 or 9 NM SE of Manchester Airport, at 4000 ft, while being radar vectored by Manchester radar on 119.4. He was flying at 180-210 kt on a N heading and squawking 5734 with Mode C selected. Although it was dark, visibility was over 10 km with a fairly strong NW wind (340/30). While flying just above the tops of some ragged Cu both he and the first officer saw a lighted (see JAS notes) object fly down the RH side of the ac at high speed from the opposite direction. He was able to track the object through the RH windscreen and side window, having it in sight for a total of about 2 seconds. There was no apparent sound or wake. The first officer instinctively 'ducked' as it went by.

The first officer reports that his attention, initially focused on the glare shield in front of him, was diverted to something in his peripheral vision. He looked up in time to see a dark object pass down the right hand side of the ac at high speed; it was wedge-shaped with what could have been a black stripe down the side. He estimated the object's size as somewhere between that of a light ac and a Jetstream, though he emphasises that this is pure speculation. It made no attempt to deviate from its course and no sound was heard or wake felt. He felt certain that what he saw was a solid object - not a bird, balloon or kite.

MANCHESTER ATC reports that the B737 was being radar vectored from Dayne to the ILS for RW 24 when the pilot reported a lighted object passing close by above and in the opposite direction. There was no known traffic in the vicinity at the time and no radar contacts were seen.

JAS Note (1): Telephone conversations subsequently took place with both the captain and the first officer. The captain remained convinced that the object was itself lit. Although he could not determine a definite pattern, he described it as having a number of small white lights, rather like a Christmas tree. He confirmed the high speed of the object, and though unable to estimate its distance, said he felt it was very close. Following the incident, the captain and first officer independently drew what they had seen, both agreeing about the shape but differing in their opinions about the lighting aspects. The first officer felt that the object was illuminated by their landing lights, which at that stage were switched on. He was unable to assess its distance, other than to say that he involuntarily 'ducked', so it must have appeared to him to have been very close. He was entirely convinced, as was the captain, that what they had seen was a solid object and not a Met phenomenon, balloon, or any other craft with which they were familiar, or a Stealth ac, which he had himself seen and which he feels he would have recognised.

JAS Note (2): Despite exhaustive investigations the reported object remains untraced. A replay of the Clee radar shows a number of secondary contacts, including the subject B737, being radar sequenced in the Manchester TMA and zone. The B737 tracks over two almost stationary primary contacts just N of Leek on a NW heading while descending through FL 70-60. On entering the Manchester TMA, passing FL 50, it is vectored right onto about 040°, and continues to descend on a NE track along the E boundary of the Manchester TMA to within 0.75NM of the Daventry CTA, where the base of CAS is FL 45. At this point, passing 3600 Mode C, the ac is turned onto a L base for RW 24 as part of a busy sequence of inbound ac. At no time during this downwind leg is any other radar contact seen in the vicinity. An extract from the RT recording on 119.4, which shows that the B737 was given descent clearance to 4000 ft at 1845:30, follows:

From:

B737 (1848)- 'c/s we just had something go down the RHS just above us very fast.'

Manchester - 'Well, there's nothing seen on radar. Was it er an ac?'

B737 - 'Well, it had lights, it went down the starboard side very quick.'

Manchester - 'And above you?'

B737 - 'er, just slightly above us, yeah.'

Manchester - 'Keep an eye out for something, er, I can't see anything at all at the moment so, er, must have, er, been very fast or gone down very quickly after it passed you I think.'

B737 - 'OK. Well, there you go!'

The possibility that the object might have been a hang glider, paraglider or microlight was investigated, but all the operating authorities, without exception, agreed that this was an extremely unlikely explanation, for various reasons, but mainly because none of these activities takes place at night. In addition, there are the obvious hazards of flying in the dark, from high ground (the peaks in this area along the Pennine ridge range from 1600 to over 2000 ft), strong winds, and because these aircraft are unlit. JAS also explored the possibility of military activity, but could find no evidence in support of this from any official source. In any case, it seems most unlikely that such a flight would have been conducted in CAS and so close to a busy international airport. Because of the B737's proximity to uncontrolled airspace to the E of Manchester during the downwind leg, which covers the airmisss period, the possibility of unknown military or civil activity in the adjacent FIR cannot be completely discounted. However, the likelihood of such activity escaping detection is remote, as the area is well served by several radars and any movements at the levels in question would almost certainly have generated a radar response.

PART B: SUMMARY OF THE WORKING GROUP'S DISCUSSIONS

Information available to the Working Group included reports from the pilot of the B737, transcripts of the relevant RT frequencies, a video recording, and reports from the air traffic controllers involved.

The Group were anxious to emphasise that this report, submitted by two responsible airline pilots, was considered seriously and they wished to commend the pilots for their courage in submitting it, and their company, whose enlightened attitude made it possible. Reports such as these are often the object of derision, but the Group hopes that this example will encourage pilots who experience unusual sightings to report them without fear of ridicule. It was quickly realised by all members that, because of its unusual nature, they could only theorise on the possibilities once normal avenues of investigation had been explored. There is no doubt that the pilots both saw an object and that it was of sufficient significance to prompt an airmisss report. Unfortunately, the nature and identity of this object remains unknown. To speculate about extra-terrestrial activity, fascinating though it may be, is not within the Group's remit and must be left to those whose interest lies in that field. It is probably true to say, however, that almost all unusual sightings can be attributed to a wide range of well known

natural phenomena. There are, of course, a few which defy explanation and thus fuel the imagination of those who are convinced that there is 'something going on' out there. Usually activity of this kind is accompanied by a rash of ground sightings in the same geographic area; in this case, as far as is known, there were no other reports and therefore the incident has to be reviewed in isolation, with no other witnesses. The resources normally available when investigating airmisses are pilots' reports, corroborated by radar and RT recordings. Often these will provide all the clues necessary, but in this case there is no 'reported pilot', and radar recordings do not show any unknown contacts. The lack of a radar contact is not necessarily unusual if weather suppressors are in use on the radar, particularly if the object generates a poor radar response. In these conditions the radar can interpret a non-transponding (primary) contact as weather, and therefore disregards it. Enquiries into military activity did not reveal any ac in the area at the time, and it was considered inconceivable that such activity would take place so close to a busy airport without some sort of prior notification. Members put forward other suggestions, such as a large model aircraft or a commercially operated remotely controlled craft, such as those which are used for survey or photographic work. Considering the prevailing conditions - darkness, high ground, strong NW wind, and the proximity of a major international airport - the Group felt that this kind of activity, together with the hang glider/microlight theory, could not be regarded as a realistic possibility. As was pointed out by one member, however, the extreme actions of a foolhardy individual cannot be entirely ruled out and there remains, therefore, the possibility that someone, perhaps in a microlight ac (which most accurately fits the shape described), had defied the conditions and got airborne. Further talks with the microlight experts on this idea highlighted its extreme improbability; the strong wind, terrain and darkness would have rendered such a flight almost suicidal.

Having debated the various hypotheses at length the Group concluded that, in the absence of any firm evidence which could identify or explain this object, it was not possible to assess either the cause or the risk by any of the normal criteria applicable to airmisss reports. The incident therefore remains unresolved.

PART C: ASSESSMENT OF RISK AND CAUSE

Degree of Risk: Unassessable

Cause: Unassessable

Section 40

Dear Sir/Madam,

RE: INFORMATION REGARDING UNIDENTIFIED FLYING OBJECTS

I have corresponded with this department on a number of occasions with regard to the subject of Unidentified Flying Objects (UFOs), and it is as part of my continuing research that I again write to you today with the hope that you can provide me with relevant information.

Firstly, I am fortunate enough to live in a very active area of South Staffordshire, close to an area known as Cannock Chase, which over the years and continuing to this day has become a hotspot for people reporting sightings of unconventional flying craft and strange lights in the sky which could be termed a 'UFO'. I have asked for information in the past with regards to data which you may hold on these sightings in the Cannock Chase area in an attempt to find out if there are rational explanations behind these reports and you have kindly assisted me with these enquiries and necessary information where available.

As it has been almost two years since my last correspondence with the department, and in that time there have continued to be many new sightings being reported locally, I write to see if you have any new information which could be of assistance.

① Last summer (August 7th and 8th) there were many reports of unidentified phenomena being seen and recorded in and around Cannock Chase including 'six silver discs' seen near Wolverhampton, orange balls of light, triangular shaped craft seen near Penkridge. Also around that time there were reports of a glowing triangular shaped craft/lights seen hovering over the city of Lichfield not far away from these locations. Going further back to the start of 2003 there were also many reports then of a triangular shaped craft flying over Cannock Chase and the Rugeley and Lichfield areas.

None to us

① I was wondering if you have received any reports to the department of the phenomena which I have detailed above or any other reports of strange lights or craft in the skies over the South Staffordshire area in general but particularly the Cannock, Rugeley and Lichfield areas for the last three years and if so, would it be possible to send me a copy of any of the information which you hold where this is possible.

② As I mentioned above, locally, the most commonly reported craft seen in the skies which people cannot readily identify are these triangular shaped craft/vehicles, which have also made their presence felt nationally and internationally. This phenomenon is an area of study which I have become very much involved in over the past year or so.

It is my belief from the research that I have undertaken that a large majority of these sightings of triangular platforms in our skies are nothing more than misidentified 'terrestrial' phenomena such as newly developed military technologies, stealth aircraft and misidentified commercial aircraft. Indeed, I have just begun the initial stages of research to show that from my own observations, the landing light configuration of commercial jet aircraft when seen at night on an aircraft in a steep banking turn are identical to many of the pieces of footage I have seen of purported 'extraterrestrial' flying triangle craft. Having said that however, there still remain some reports of these craft which seem to defy what I would call an 'earthly' explanation simply through the way the behave and the characteristics they display which do not fit in with the technology and physics that we understand. That is, though, to say that they can't be explained.

③ To assist me with my research into this fascinating area of Ufology, I was wondering if you have any information which may be of use. What information or statistics, if any do you hold on sightings of this type of phenomenon. What is the Ministry's (or the departments) view on these sightings being new technologies and/or stealth aircraft (can you comment on this?) although if they are new or existing military aircraft surely the pilots would be invited not to fly over restricted and sensitive locations such as nuclear power stations as some of these craft have been observed doing or not to fly in direct conflict with civil airliners in some of the busiest airspace in the UK, close to one of our busiest airports (the infamous incident at Manchester Airport where a

None

pilot approaching the airport had a very close shave with one of these triangular shaped craft)

(3) In particular does the department have any files or information that they can share on the events of 31st March 1993, when one of these triangular craft(s) were witnessed by many hundreds of people flying low over the country for several hours late that evening and early the next morning (Devon, Cornwall, Somerset, Wales, the south, and the Midlands) including observers from both RAF Cosford and RAF Shawbury.

For your reference, I have enclosed copies of articles from my files, from local sources concerning some of the sightings that I have detailed above in my request for information.

I hope that you are able to help me at least in part, even if you are unable to fulfil all of my requests as I realise that I have asked for a lot of information and I understand the time constraints and pressures of assisting me especially with all the other work you may be involved in. Any information you can provide however small it may be, is still very much appreciated and will be most helpful in taking my research further and hopefully trying to find an answer to some of these unexplained sightings and the questions they raise.

Thanking you in anticipation of your reply

YOURS FAITHFULLY

Video footage shot in Midlands said to reveal strange lights Group releases film which 'shows UFOs'

By Andy Richardson

Video footage and photographs which supposedly show UFOs over Cannock Chase and surrounding areas during the summer have been released.

The footage, from Staffordshire UFO Group, shows a number of incidents caught on camera over the Cannock Chase area during August 7 and 8 this year. One shows six silver discs hovering over a field in Perton, Wolverhampton, and others show some strange hovering orange balls of light which were captured in Heath Hayes, Milford and Shenstone.

Graham Allen, chairman of Staffordshire UFO Group, said there had been a flurry of UFO activity in August and September over the Cannock Chase area which experts term a "lull". The footage has just been shown to UFO experts at a special world conference held in Japan.

Mr Allen said there hadn't been such activity since a spate of sightings in Mexico City four years ago.

There had been numerous sightings of UFOs throughout August and September over Cannock Chase, Mr Allen said.

As well as the orange balls of light seen over the Chase a triangular shaped UFO was seen hovering over cottages at Pottal Pool, near Penkridge, he said.

Captured

Mr Allen said: "Cannock Chase is now one of the world's most prominent UFO hotspots and has now been brought to the attention of world experts."

"The footage was captured by members of the public on August 7 and 8 this year when there was a flurry of activity all over the area."

"The footage was taken in Heath Hayes, Milford, Shenstone and Perton."

"It has been studied by experts who have been left baffled by what appears on the film."

The footage was released at a special UFO talk which was held at Weston Hall, near Stafford yesterday.

Camera captures mystery lights over city cathedral

A leading UFO expert has told The Post he has concrete evidence of unexplained phenomenon in the Lichfield skies after capturing video footage of mysterious lights hovering above the cathedral.

Graham Allen, of Staffordshire UFO Group, said a city resident had recorded a strange triangular object floating above the Lichfield landscape earlier this month, following a glut of reported sightings from witnesses all over the district.

Mr Allen, who has been one of the foremost experts on UFO activity for over a decade, said the footage is among the most exciting he has ever seen.

The group are currently in the process of getting the videotape analysed by experts.

"This recording really is unprecedented," he told The Post. "We had a whole host of reported sightings at the start of last month from people from Lichfield, Shenstone and Cannock. All of them reported the same thing, a large orange object, which they said was about the size of a bus."

"At first we thought it could be ball lighting, which is rare natural phenomenon. But as the calls kept coming in we realised it was something different."

"When we got this videotape we got really excited. Something like this is does not happen very often, really."

Mr Allen said the footage shows a object high above the city. He said the strange light moves in a number of directions and seems to hover over the city. At one point the recording zooms in and reveals the object has a glowing triangular shape at its centre.

"The witnesses all say they thought there was something alive in the centre of the ball," he added.

"We have dozens of similar reports from all over the area and all of them say the thing - and that backs up what we have on this recording. It is a genuine recording and we are very excited about it."

Mr Allen said the group would release the footage of the incident after it had been analysed.

More sky 'triangles' reported

Stealth bombers over the Chase?

by Mike Lockley

The X-Files mystery of what's flying over our skies deepened this week with news there have been a flood of sightings of triangular-shaped craft.

Staffordshire UFO Group has received info from Shenstone, Burntwood and Rugeley.

Chairman Graham Allen told *The Post*: "Each give a similar description of two triangular-shaped craft flying low, silent and straight at around 6.30pm on January 16."

Only last week a *Post* reader told of her close encounter with the triangular craft at Pottal Pool - an area that has become a hotbed of UFO activity.

However, evidence the answer to the riddle may not be in the stars has gathered strength.

With war clouds gathering, new special shelters have been constructed at one Home Counties RAF base to house US Stealth bombers has appeared in the daily

press.

And yesterday a Ministry of Defence spokesman refused to be drawn on whether the sci-fi looking aircraft are carrying out manoeuvres over

crossing, the key lines, the former RAF Hednesford camp nearby.

There are two alternative theories for the triangular craft being put forward by

■ The profile of a US Stealth bomber

our area. She said: "I cannot comment on what the US are doing regarding exercises and movements.

Acclaimed UFO researcher Irene Bott still thinks the triangular objects could be from another world.

She said: "On past research there is evidence to say it is not something of ours."

And Irene is not surprised there's been a glut of unexplained activity in the Pottal Pool area. Two years ago, a petrified woman motorist claimed two large green balls of light seemed to be playing 'catch-up' with her vehicle.

Irene added: "Pottal Pool fits all the criteria for paranormal activity. There's the

UFO spotters:

■ It is the latest technology to be developed at the aero research centre in Whiston, Blackpool.

■ It is the result of 'back engineering': a claim that governments are constructing their own crafts from UFO debris.

■ The UFO group is currently interviewing the latest rash of UFO spotters. If you've seen something strange in the skies contact *The Post* on 01543 258523.

ARTICLE FROM:

The Rugeley Post

Thursday 6th February 2003

Page 11

'UFOs are bombers preparing for war'

Multi-million pound Stealth bombers are using the airspace over Lichfield and Rugeley for hi-tech war manoeuvres, witnesses have claimed.

Experienced aviation buffs told The Post they believed a fleet of sightings of triangular-shaped craft over Rugeley and Shenstone were proof US war planes were using the area in preparation for an attack on Iraq.

The increase in unexplained sightings has led to many theories, including UFO groups claiming the area was a hotbed for alien activity.

"I witnessed two triangular-shaped craft fly over me while driving through the Chase, but I don't believe they were UFOs," said military aviation enthusiast Mr Ellis. "I think what I saw were F-17s. It was a moonless night and they made no sound at all. The shape of the craft resembled a F-17 and after

by Kevin Edge

they had gone over I heard a loud roar." The 25-year-old Software Engineer believes Stealth bombers are using bases in Britain in the run up to war in the Gulf.

"Before the first Gulf War the bombers used bases in Saudi Arabia," he said. "But this time they have been refused. So they could be using bases here."

Mr Ellis' theory goes against claims from Staffordshire UFO Group, who have long-held the belief that the Chase is a hotspot for alien visitors.

"To the initiated eye they do look a lot like a UFO, so I can see some people confusing them," Mr Ellis said.

The Ministry of Defence refused to be drawn last week on the subject of hi-tech aircraft over our area.

"I cannot comment on what the US are doing regarding exercises and movements," a spokesperson said.

**Section 40**

From: **Section 40**
Sent: 22 February 2005 08:38
To: **Section 40** 40@mod.uk
Subject: Internet-Authorised: REQUEST FOR INFORMATION

Dear **Section 40**

I am writing with reference to your e-mails of 25 & 27 January 2005 in which you requested "copies of declassified information about unidentified object appearances/incidents in the United Kingdom". Your request has been passed to this office as we are the focal point within the Ministry of Defence for correspondence about 'UFOs.'

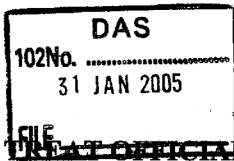

I should inform you that this department holds details of UFO sightings reported to the MOD and public correspondence about UFOs (some of which also contain sighting reports) spanning a 25 year period. These records are not held electronically, but are filed on paper files in the order in which they were received. Before any of this information can be released personal data has to be removed in accordance with the Data Protection Act 1998. Clearly, if we were to process copies of all these records the costs would quickly exceed the permitted £600 limit set for compliance with the Freedom of Information Act 2000 and as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request. If however, if you could be more specific about the information you are seeking we may be able to assist you

In the meantime, you may wish to be aware that there is already some information about UFOs available for public viewing. MOD files on UFOs were routinely destroyed after 5 years until 1967 when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1977 are now available for viewing. The National Archives can be contacted at Ruskin Avenue, Kew, Richmond, Surrey TW9 4DU or by telephone on 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at <http://www.nationalarchives.gov.uk>. The Ministry of Defence Freedom of Information Publication Scheme also contains documents relating to the well known events in Rendlesham Forest, Suffolk in 1980 and the final report of the Flying Saucer Working Party in 1951. These can be accessed via the internet at <http://www.foi.mod.uk>. A search in the Scheme under 'UFO' will take you to this information. We are looking to see if further information can be made available to the public and we are currently compiling a database of reports which we intend to publish in the MOD Freedom of Information Publication Scheme at the end of June 2005.

I hope this is helpful.

TREAT OFFICIAL CORRESPONDENCE

To DAS (LA) P&P
CC.

TO Ref No 1070 /2005

Date 31-1-05

The Prime Minister/SofS/Min(AF)/Min(DP)/USofS/MOD* has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department*.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days of the above date**. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

Most correspondence involves some form of request for information – even if it is only a request for clarification of Government policy – and is therefore covered by the Freedom of Information Act (FOIA) from January 2005. In general, if you meet the deadline for responding to correspondence, and comply with any requests for information, there is no need to do anything differently as this will meet the requirements of the Act. However, if the correspondence requests information which is not already in the public domain, and which might need to be withheld, then you should treat it as a FOIA request, track it using the Access to Information toolkit, and comply with the separate FOI guidance from DG Info (see <http://aitportal/default.aspx> for details). However, the deadline for responding to correspondence will still apply. If you are in any doubt as to whether a piece of correspondence should be treated as an FOIA request, you should ask your FOI Focal Point or refer to the guidance produced by DG Info.

It is vital that branches ensure they have simple systems to record and track correspondence received from members of the public. This information should be regularly monitored and reviewed against the targets for answering correspondence published in the Spending Review 2000 Service Delivery Agreement for the Ministry of Defence.

As part of our monitoring procedure, random spot checks on the accuracy of your branch records on correspondence will be performed throughout the year.

Dear MOD

Is it true that the MOD possess declassified information about unidentified object appearances/incidents in the United Kingdom?

Also with regards to the new Freedom of Information Act, which took effect this month, if the above is true, can I be sent a PDF file of the declassified information from the MOD?

Thanks
