Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 4 September 2008, the details of which you passed to the Low Flying Complaints Cell. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received one other report of a 'UFO' sighting for the 4 September 2008, and that was from Guildford in Surrey. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Finally, with regard to there being any low flying military aircraft in the area, I enquired, and have been informed that there was a Tornado in the vicinity at 21.00 at 250 ft, but that was only there for one minute as it flew by, on the way to RAF Marham.

Sorry I could not be any help.

Yours sincerely

txtrequest: Me and a friend were heading up the A19 north bound, going just past borrowby between mt grace, i noticed some brigt green lights with a blue light moving very quickly through the trees and once we came past the trees the craft cut across the motoway in what can only be described as a very unusual large and silent craft moving very fast wich then changed direction and headed towards the back of the car and shot out of site very quickly. I have seen low flying fighter jets before and i know they have quite a loud distinct noise and shape when flying. The craft that we saw was silent, moving extremely fast, very large and had multiple bright lights on it not to mention its unusual shape. Please if you can shed some light on the matter and did have low flying air crafts in this area let me know as i thought we were both going mad.

Just got into the hot tub to relax and looking at the stars and clouds, Suddenly I spotted something moving in the sky. It was at an altitude of approximately 500 feet heading in a north /north east direction at about 30-40 miles an hour (slower than a light aircraft). best way to describe the shape would be a chewing gum pack that was about 150 feet long 50 feet wide and about the same in height . It came right over where I was and passed over my house

It was black in colour and had 3 circles of lights/ exhausts underneath it emitting a dull orange light, similar to embers in a fire. I could see it quite clearly as it was visible by the ambient light and the cloud that was above it. It made no noise whatsoever and the only variation to the shape was a slight ridge around where the lights/ exhausts were. The lights were spread out the length of the object similar to traffic lights, one in the center and the others at about 10 feet from each end the diameter of the lights were all the same at approximately 30 feet, leaving 10 feet on each edge.

Just wish I had my camera handy!

txtrequest: This is not a complaint, but rather an observation for your attention:

I was walking along in Laindon, Essex when I saw two large orange lights in the sky flying in my direction (east) rather quickly. At first I thought they were conventional commercial airlines, but one of the lights flew around the other one and both moved away (north) at a higher speed (than I have previously observed) and with the agility of a helicopter. I discounted that they were a helicopters due to the fact that there was no sound.

This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's. I apologise if I have misspelt your surname, the answerphone can be hard to understand.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received one other report of a UFO sighting for the 3 September 2008, and that was from Plymouth in Devon. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

7

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	3 September 2008 21.45L
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	There were four separate lights. One of the lights was huge, and it had different lights on it.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	In the house.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The lights were seen moving over Urmston, Manchester in Greater Manchester.
6.	Approximate distance.	Not given.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	Not given.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Manchester Greater Manchester Section 40
11.	Other witnesses.	Her son came in and she pointed out of the window to the objects that she could see.
12.	Remarks.	Section 40 said that she saw a plane following one of the lights. It was a clear sighting. She informed her local Police and the local paper. She would like us to get back to her to explain what it could have been that she saw. Plus, if there were any other sightings on the day she saw the lights. The lights were not Chinese lanterns or anything like that.
13.	Date and time of receipt.	4 September 2008 11.30L

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 31 August 2008, the details of which you passed to the MOD by e.mail. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 31 August 2008 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Finally, with regard to there being any low flying military aircraft flights in the area, I enquired, and have been informed that there was not, at the time of your sighting and on that day.

Sorry I could not be any help.

Yours sincerely

txtrequest: Coming down St Stephens Hill towards Canterbury, a bright red light passed very quickly behind my car in the rear view mirror. I put it down as a low flying helicopter. As I came down the hill I saw people stopping to look at the sky. Further down a couple were stopped and were pointing at the sky to the East. I saw three very low, very bright lights travelling in formation then breaking off and doing acrobatics seen in sky over Canterbury. The lights were distant (probably a couple of miles) but large globe-like, travelling very fast and then coming to an almost immediate stop, changing direction in an instant, and changing colour in a pulsating way (not the flashing lights of a plane or helicopter), ranging through bright white light through red, green, blue, and orange. The incident was so strange I pulled the car over in the St Stephens Road area (just before the railway crossing) as dozens of people had come out of their houses and were pointing and staring at the sky. One commented that "they flew really low over our house and then shot off really fast, a few miles in a second".

I watched them for a few more minutes as they again reformed into a formation and travelled East towards Sturry / Broad Oak. One broke off and headed rapidly back towards my position before stopping and following the others. I jumped in my car and drove onto the Broad Oak Road to follow them, but could not see them in the sky any more. I did see some bright red lights stationary on the hill above the Broad Oak Road but could not ascertain what they were in the dark (I know there are pylons there so although unusually bright they could have been the hazard warning lights on those).

East of Canterbury is Manston International Airport, but this is not a usual flightpath and most significantly these lights were accompanied by no sound (indeed I could say they seemed to be accompanied by a silent stillness).

They looked and behaved like no plane or helicopter I have seen.

Were there any low flying military flights in this area at this time? Were any objects detected on radar in the area at this time?

If not, can you register my concerns over what I saw?

Thank you

Reporting UFO Sightings in Scarborough one

Date of Sighting: Friday 29th August 2008 on Westborough

Time of Sighting: about 11:55am

Description: Black regtangua wobbely-

UFO Sighting 2: I saw it coming from Grosvenor Road towards Westwood College and Tescos I watched it and decide to go after it on foot lost sight of it.

Date of Sighting: Saturday 30th August 2008.

Sighted about 11:00pm.

Description: Orange Circula shape-

I've seen quite a lot of UFO Sightings in Scarborough North Yorkshire UK.

Am a believer in UFOs and Aliens always have had interest in them.

I live by my self.

Had just come from my friend's place and wasn't looking for UFOs nor Aliens.

Thanks.

Additional Advice:

the Department has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days of the date of this message**. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

If correspondence includes a specific request for recorded information then it should be treated under the terms of the Freedom of Information Act 2000, even though the Act is not specifically mentioned. You should inform Parliamentary Branch, who will close the case down on the Parliamentary Toolkit. The correspondence should then be logged on the Access to Information Toolkit and you should consult and comply with the separate FOI guidance from DG Info. If you are in any doubt as to whether a piece of correspondence should be treated as an FOI request, you should ask your FOI Focal Point or refer to the

02/09/2008

guidance produced by DG Info. (See the guidance at <http://defenceintranet.diiweb.r.mil.uk/DefenceIntranet/Admin/RespondToRequestsForInformatic>

It is important that branches ensure they have simple systems to track correspondence received from members of the public, though the Parliamentary Toolkit records the basic details. If you have access to a DII/C terminal, please follow this link (once a response has been sent) to add your Final Reply Date and close the case to remove it from your TO Task List:

<http://pt/Layouts/PT/TaskList/TaskList.aspx>. Lead Branches without access to the Toolkit should notify the Ministerial Correspondence Unit (via ParliBranch-Treat-Official@mod.uk) of the date of their reply so that Parli Branch can close the record on the Toolkit.

Detailed guidance on handling TO Correspondence can be found on the Defence Intranet at http://main.defence.mod.uk/min_parl/ParlBrch/TOGuid.htm. If you do not have access to the Intranet, please inform the Ministerial Correspondence Unit.

Email: ParliBranch-Treat-Official@mod.uk

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	1 September 2008 20.44L
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	An orb shaped object, with a disc shape underneath was in the sky for about ten to fifteen minutes.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	The witness was looking out of the loft bedroom window.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye and then binoculars.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The object was moving over Rothwell, Leeds in West Yorkshire.
6.	Approximate distance.	Not given.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	Not given.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	There were a few clouds, but it was not raining.

9.	To whom reported. (Police, military, press etc)	The sighting was reported to Section 40 Section 40 a Supervisor at Leeds Police Stn in West Yorkshire, who then in turn left a message on the DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Leeds West Yorkshire Section 40
11.	Other witnesses.	Not given.
12.	Remarks.	Section 40 said that the Police went to the area of the sighting, but couldn't see anything. There were no press enquiries.
13.	Date and time of receipt.	2 September 2008 14.25L

txtincident: 2220 300808
txtrequest: 2220- 2240hrs sat 30th Aug 08 Whitburn, South Tyneside. Sighting of sodium coloured lights travelling north west. Initially 4 circular bright lights travelling in convoy, equally spaced at constant velocity (appeared slow). Front 2 made sudden vertical change of direction and eventually out of sight. Convoy was joined by 3 further lights. The last light (detached from convoy) had appearance of bright orange orb with a duller outer circumference. The brightness dissipated and it took on form of rest of lights and followed convoy after hovering over raised hilly area (known as Cleadon Hills).
Several other motorists (myself/wife as one) had stopped and one dog walker witnessed events. I made report to my colleagues at Southern area communication centre, Northumbria Police, who confirmed several other concurrent reports.
This is the first sighting I have made of unexplained flying objects. I know these were not flares (adjacent to coastal area) and they were not after burners of military aircraft.
Submitted for your information and attention.

No reply, as
no house number
and name of
witness.

2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	Flying objects. They looked like bright lights.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Not given.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The objects were seen hovering over Southport in Merseyside.
6.	Approximate distance.	Not given.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	There were a big group of lights and they were in a half circle formation.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Southport Merseyside Section 40
11.	Other witnesses.	Not given.
12.	Remarks.	Section 40 said that the sighting was very unusual, and had never seen anything like it before.
13.	Date and time of receipt.	1 September 2008 10.25L

No reply, as
full address
not given.

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	29 August 2008 22.41L
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	A UFO was seen.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Not given.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The UFO was seen flying over Oakworth, Keighley in West Yorkshire.
6.	Approximate distance.	Was quite far away and too high to be a plane.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	Not given.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	The sighting was reported to West Yorkshire Police Communications, who then in turn left a message on the DAS answerphone.
10.	Name, address and telephone no of informant.	A female Section 40 Keighley West Yorkshire Section 40
11.	Other witnesses.	Not given.
12.	Remarks.	Not given.
13.	Date and time of receipt.	1 September 2008 10.20L

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 30 August 2008, the details of which you passed to the Police. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received two other reports of a 'UFO' sighting for 30 August 2008 and they were from Huddersfield in West Yorkshire and Sunderland in Tyne & Wear. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	30 August 2008 17.40L
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	Six orb shaped objects that were red and orange in colour. They initially formed a 'V' shape.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Outside.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The objects were seen moving over Stroud in Gloucestershire.
6.	Approximate distance.	Not given.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	The objects were floating around, and then a central one zoomed off like the Captain Kirk Enterprise.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	The sighting was reported to Kent Police who then in turn left a message on DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Stroud Gloucestershire
11.	Other witnesses.	Not given.
12.	Remarks.	Section 40 said that she was out walking her dog and noticed the objects.
13.	Date and time of receipt.	1 September 2008 10.15L

Subject: Sighting South wales.

Hi, i would like to report a sighting of a flying saucer i've seen.

On the 15/08/08 at 9:10pm while riding home on my motorcycle, i spotted three bright orange lights in the sky about a mile away, i pulled over to look and noticed that the lights were heading towards me. The lights switched off one by one but i could still see one of the objects, i lost sight of the other two, this object was black and disc shaped, it also moved quick and was silent.

My location - Argoed South Wales.

The lights were first spotted south of me near Blackwood and one saucer was observed heading north.

The saucer was in clear view over head at one point.

I've also been told that there was a sighting about the same in Bargoed.

I'm not the best at typing so i've kept it short but if theres any details you think i've missed out or any question, just ask. Thank Section 40

REPORT OF AN UNIDENTIFIED FLYING OBJECT

- a. Date/Time And Duration Of Sighting** (Local times to be quoted)
11/08/08, 2205hrs, approx 50secs
- b. Description Of Object** (Number of objects, size, shape, colours, brightness, sound, smell etc).
1 single round light, orange/red colour, no sound at all
- c. Exact Position Observed** (Geographical location, indoors or outdoors, stationary or moving).
Larkhall, Lanarkshire (approx 18nm SE of Glasgow). Observed initially from indoors then reporter moved outdoors.
- d. How Observed** (Naked eye, binoculars, other optical device, still or movie camera).

Naked eye
- e. Direction In Which Object Was First Seen** (A landmark may be more useful than a badly estimated bearing).

South east following the normal flight path of a/c inbound to Glasgow
- f. Angle Of Sight** (Estimated heights are unreliable).

Lower than normal a/c inbound to Glasgow. Estimated 1000-4000ft
- g. Distance** (By reference to a known landmark wherever possible).

Not known
- h. Movements** (Changes in E, F, G may be of more use than estimates of course and speed).

Tracked SE to NW
- i. Meteorological Conditions During Observations** (Moving clouds, haze, mist etc.)

Dry and clear with some stratus clouds
- j. Nearby Objects** (Telephone lines, Spires Etc)
N/A
- k. To Whom Reported** (Police, military organisations, the press etc).
Glasgow Airport Information desk who passed it on to ATC

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in August 2008, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's. I apologise if I have misspelt any of your address, the answerphone can be hard to understand.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings from Scotland so far in August 2008. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	(Date and time not given).
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	Saw three UFOs. They looked like red light orb things.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Not given.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The UFOs were coming from the East, and moving across Steading in the Highlands.
6.	Approximate distance.	Not given.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	The objects were moving across the sky.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Glen Loch Steading Highlands Section 40
11.	Other witnesses.	Not given.
12.	Remarks.	Section 40 said that the lights went different ways.
13.	Date and time of receipt.	18 August 2008 10.30L

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 15 August 2008, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 15 August 2008 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in 1987/1988, the details of which you passed to the Low Flying Complaints Cell. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

Finally, with regard to your particular observation in 1987/1988, the MOD has already released a great deal of information about UFOs which is available for public viewing. The files for those years are in The National Archives. They can be contacted at Ruskin Avenue, Richmond, Kew, Surrey TW9 4DU, telephone 0208 876 3444. The National Archives also have a website giving information on the records they hold and how to access them. This can be found on the internet at: <http://www.nationalarchives.gov.uk>.

I hope this is helpful.

Yours sincerely

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	20 July 2008 00.50L
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	It resembled a white light, and was travelling at low speed. Was about two to three times bigger than Venus. Sometimes it looked like a spotlight, but there was no silhouette or shadow of an aircraft. There was no noise.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Not given.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The object was travelling from West to East and moved across and above the witnesses' house in Ascot, Berkshire.
6.	Approximate distance.	It wasn't too far away.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	It travelled slowly across the sky.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Ascot Berkshire Section 40
11.	Other witnesses.	Not given.
12.	Remarks.	Section 40 said that he didn't think the light was an aircraft or a satellite. But, that we would know those details more.
13.	Date and time of receipt.	11 August 2008 12.30L

Subject: Release-Authorised: UFO Sighting.

Dear Sir,

I am writing with reference to your report of an 'unidentified flying object', seen on 30 July 2008, the details of which you passed to the MOD by e.mail. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received one other report of a 'UFO' sighting for the 30 July 2008, and that was from Gateshead in Tyne and Wear. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

Dear Section 40

I am sending you this report from Section 40 of a sighting of a "space craft" in Somerset. I do hope that you can help to direct this report to the correct desk - I'm afraid your email address was the only one I found that had any connection to UFO literature on defence intranet.

Best wishes,

txtrequest: i was out walking the dogs. i noticed a distinct humming sound which went quieter then louder. 20 to 30 ft above the houses where i was stood, the dogs stopped and looked as did i only to see a space craft, about 5,6 plane spans wide hovering, there was three lights on each point of a perfect triangular stone looking object at the back was a bright molten looking fire ball, firing off the front nose cone was a blue light (what looked like a welders tool)oxy acetelene. i tried to video it on my mobile phone but the screen went red blue green and black flashing, my battery (which i have charged today and was on full when i went out) totally emptied and my phone turned off, the dogs then started barking loudly as the object dissapeared into the clouds, faster than ive seen a military or public airline craft take off. luckily for me a man on a pushbike riding past was looking at the craft at the same time, but he peddled off rather quickly and i was unable to get his details but i have a description of him. i have logged and written out what i have seen, and drawn a rough picture. could these details be passed to the correct department please. THANKYOU VERY MUCH.

Additional Advice:

The Rt Hon Des Browne MP has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days of the date of this message**. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

If correspondence includes a specific request for recorded information then it should be treated under the terms of the Freedom of Information Act 2000, even if the Act is not specifically mentioned. In general, if you meet the Department's 15 working day deadline and respond fully to the request for information, then there is no need to follow the full procedures for FOI requests. However, you will still need to acknowledge that you have applied the Act and provide details of their right of appeal (see link below). If the correspondence requests information which is not already in the public domain, and particularly if you considering withholding information, then you should formally treat it as a FOI request. The correspondence should be logged on the Access to Information toolkit and you should consult and comply with the separate FOI guidance from DG Info. Note, the

04/08/2008

shorter deadline for responding to Ministerial and Treat Official correspondence will still apply. If you are in any doubt as to whether a piece of correspondence should be treated as an FOI request, you should ask your FOI Focal Point or refer to the guidance produced by DG Info. (See the guidance at <http://defenceintranet.diiweb.r.mil.uk/DefenceIntranet/Admin/RespondToRequestsForInformation>)

It is important that branches ensure they have simple systems to track correspondence received from members of the public, though the Parliamentary Toolkit records the basic details. If you have access to a DII/C terminal, please follow this link (once a response has been sent) to add your Final Reply Date and close the case to remove it from your TO Task List:
http://pt/_Layouts/PT/TaskList/TaskList.aspx. Lead Branches without access to the Toolkit should notify the Ministerial Correspondence Unit (via ParliBranch-Treat-Official@mod.uk) of the date of their reply so that Parli Branch can close the record on the Toolkit.

Detailed guidance on handling TO Correspondence can be found on the Defence Intranet at http://main.defence.mod.uk/min_parl/ParlBrch/TOGuid.htm. If you do not have access to the Intranet, please inform the Ministerial Correspondence Unit.

Email: ParliBranch-Treat-Official@mod.uk

Dear Sir or Madam

On May 31st this year
I went out side my house with
my husband at 11.20pm to have a
smoke. all of a sudden I became
aware of a very bright light above
our heads, we watched it zig zag
across the sky Southwards until it
vanished into cloud. I did mention it
to several locals at the time but did
not know who to report it to until
recently. I know it was not a plane
or helicopter I am quite used to seeing
those. I would be quite interested to
know what it was a thought perhaps

P.T.O

you might know. I also know it was
not a mistake. Looking forward to
your response.

Yours Sincerely

Dear Sir/Madam,

I am writing with reference to your report of an 'unidentified flying object', seen on 2 August 2008, the details of which you passed to the Met Police. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's. I apologise for not putting your name, the Met Police did not pass that information on to this office.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received one other report of a 'UFO' sighting for the 2 August 2008, and that was from Bridgewater in Somerset. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	2 August 2008 22.30L
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	Lights in the sky.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Not given.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The lights were seen over Winchmore Hill in London.
6.	Approximate distance.	Not given.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	Not given.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	The sighting was reported to the Met Police, who then in turn left a message on DAS answerphone.
10.	Name, address and telephone no of informant.	No name given. Section 40 Winchmore Hill London Section 40
11.	Other witnesses.	Not given.
12.	Remarks.	Not given.
13.	Date and time of receipt.	4 August 2008 11.50L

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in July 2008, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for Morley so far for 2008, either from members of the public or from any newspapers. No sighting report was sent to this office, regarding that area of West Yorkshire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

7

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	(Date and time not given).
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	Lights were seen.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Not given.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The object was going over Morley in West Yorkshire.
6.	Approximate distance.	Not given.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	Not given.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Leeds West Yorkshire Section 40
11.	Other witnesses.	Section 40 said there must have been lots of other witnesses, because her sighting (that other people had reported), was in the local paper and had been on the television.
12.	Remarks.	Section 40 said that she would like us to get back to her, to explain to her, what it was that she could have seen. Did we get sent any of the sighting reports that were shown in the local paper.
13.	Date and time of receipt.	4 August 2008 11.15L

txtinforequest: Could information please be supplied to give an explanation for an unusual sight.

Sunday afternoon 27th July approx. 4.30pm. Clear sky.

Whilst working in our front garden my wife noticed an object travelling at high speed in the sky. She pointed it out to me. Appeared almost as a football or balloon, ie "round". Travelling in approx. S.East to N.East direction. There was no sound, no lights. We are quite happy it was not an aeroplane.

We often enjoy sitting in our garden late into a summers evening and are well used to observing satellites and/or space debris in the night sky. This was much lower than that. If air traffic is passing over South Wales at approx. 30,000ft my guess would be that this object was at 10 to 15,000 feet. (possibly lower). The speed was considerably faster than an aircraft or satellite, yet not so fast that it disappeared in an instant. My wife had time once seeing it to call my attention to it before it disappeared. We would describe it as silver \ white in colour.

We are of the opinion that there is a totally reasonable explanation for what we saw. However we are at a complete loss as what it was and can offer no intelligent suggestion.

Your thoughts and opinions will be appreciated.

Thank you

Jards

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 26 July 2008, the details of which you passed to the MOD by e.mail. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received three other reports of 'UFO' sightings for the 26 July 2008, and they were from Surrey, Avon and Northamptonshire. As to your question of there being a flyover around the area, between the times of 10-10.30pm on 26 July 2008, I have been informed that there was not, due to the fact that it was a Saturday, and at the times you stated, was too late for a flyover. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

txtinforequest: I know this may sound weird to ask, but were there any flyover exercises happening over hampshire or the surrounding area around 10-10:30pm tonight, as me and my father witnessed a silent aircraft pass over.

I was a bit concerned to report this as it may sound like some weirdo reporting a UFO, but the sight worried me slightly, as it was clearly visible like a shooting star, but with a very smoothly curving course.

I just wanted to check whether it was infact a navy flyover, as i know that these are going on in the area.

Many thanks

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 15 April 2008, for which you mentioned on our answerphone. I apologise that you did not receive a response, it's just that this Department never received your letter. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 15 April 2008 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 26 July 2008, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received three other reports of 'UFO' sightings for the 26 July 2008, and they were from Surrey, Hampshire and Northamptonshire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

Section 40

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	26 July 2008 No time given
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	A group of lights in a cluster. More lights gradually joined them. There was absolutely no noise.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Outside, didn't say where.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye. Section 40 son also videoed the sighting.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The lights were seen over Bristol in Avon.
6.	Approximate distance.	The lights were about 2,000 ft above some trees in the distance.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	Several lights were moving across the sky. They suddenly disappeared, then more odd lights joined them, and they suddenly disappeared too.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Bristol Avon Section 40
11.	Other witnesses.	Section 40 wife and son saw the lights Also, someone in a car stopped and asked if Section 40 and his family could see the lights too.
12.	Remarks.	Section 40 said that they were definitely not balloons or aircraft. He said he imagined that it would be like this, if he ever saw something unexplained. That he certainly didn't imagine all this, as with him, there were four witnesses to this sighting with the man in the car too.
13.	Date and time of receipt.	29 July 2008 14.15L

Due Date: 07 August 2008
Correspondent: Jenkins
Additional Advice:

The Rt Hon Des Browne MP has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days of the date of this message**. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

If correspondence includes a specific request for recorded information then it should be treated under the terms of the Freedom of Information Act 2000, even if the Act is not specifically mentioned. In general, if you meet the Department's 15 working day deadline and respond fully to the request for information, then there is no need to follow the full procedures for FOI requests. However, you will still need to acknowledge that you have applied the Act and provide details of their right of appeal (see link below). If the correspondence requests information which is not already in the public domain, and particularly if you considering withholding information, then you should formally treat it as a FOI request. The correspondence should be logged on the Access to Information toolkit and you should consult and comply with the separate FOI guidance from DG Info. Note, the shorter deadline for responding to Ministerial and Treat Official correspondence will still

21/07/2008

apply. If you are in any doubt as to whether a piece of correspondence should be treated as an FOI request, you should ask your FOI Focal Point or refer to the guidance produced by DG Info. (See the guidance at <http://defenceintranet.diiweb.r.mil.uk/DefenceIntranet/Admin/RespondToRequestsForInformation>)

It is important that branches ensure they have simple systems to track correspondence received from members of the public, though the Parliamentary Toolkit records the basic details. If you have access to a DII/C terminal, please follow this link (once a response has been sent) to add your Final Reply Date and close the case to remove it from your TO Task List:

http://pt/_Layouts/PT/TaskList/TaskList.aspx. Lead Branches without access to the Toolkit should notify the Ministerial Correspondence Unit (via ParliBranch-Treat-Official@mod.uk) of the date of their reply so that Parli Branch can close the record on the Toolkit.

Detailed guidance on handling TO Correspondence can be found on the Defence Intranet at http://main.defence.mod.uk/min_parl/ParlBrch/TOGuid.htm. If you do not have access to the Intranet, please inform the Ministerial Correspondence Unit.

Email: ParliBranch-Treat-Official@mod.uk

Regards,

**MOD Parliamentary Branch
Ministerial Correspondence Unit**

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 27 July 2008, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received one other report of a 'UFO' sighting for the 27 July 2008, and that was from Scunthorpe in Humberside. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in July 2008, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for Caerleon, Newport in Gwent so far for July 2008. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in July 2008, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for Thorndon, Eye in Suffolk so far for 2008. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not be any help.

Yours sincerely

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	Date and time of sighting. (Duration of sighting.)	(Date not given). 21.21L
2.	Description of object. (No of objects, size, shape, colour, brightness, noise.)	Two UFOs were in the sky.
3.	Exact position of observer. Geographical location. (Indoors/outdoors, stationary/moving.)	Not given.
4.	How object was observed. (Naked eye, binoculars, other optical device, camera or camcorder.)	With the naked eye.
5.	Direction in which object was first seen. (A landmark may be more helpful than a roughly estimated bearing.)	The UFOs were seen over Thorndon in Suffolk.
6.	Approximate distance.	Quite far away and high up.
7.	Movements and speed. (side to side, up or down, constant, moving fast, slow)	The UFOs were going quite fast and looked like they were tracking a passenger jet.
8.	Weather conditions during observation. (cloudy, haze, mist, clear)	Not given.

9.	To whom reported. (Police, military, press etc)	DAS answerphone.
10.	Name, address and telephone no of informant.	Section 40 Thorndon Eye Suffolk Section 40
11.	Other witnesses.	Not given.
12.	Remarks.	Section 40 said that he was unable to get pictures of the objects on his camera.
13.	Date and time of receipt.	28 July 2008 11.20L

Subject: TERN HILL SIGHTING 7 JUNE 2008

The Sun has reported a UFO sighting over Ternhill Barracks in Shropshire at about 11pm on 7 June 2008. It appears that a number of soldiers saw lights in the sky and made a video which they have passed to the newspaper. They have not made a formal written report on the matter, although they did inform their superiors.

The MoD in London became involved when the press office was contacted by the newspaper on 24th June. On 25th June I requested a copy of the video from Media Ops at HQ 5 Div where it had been passed by the unit concerned. It shows a number of lights in the sky. As reported in the paper, the lights change colour and appear square, but this looks like the pixels showing up as the photographer zoomed in. They do not appear to be moving very quickly.

The BBC has reported that at the same time as the alleged incident, a local hotel was letting off Chinese lanterns and, apparently, the hotel manager thinks the whole UFO story is "highly hilarious".

I do not intend to investigate any further as I think we have our answer and, as I suspect there might be copyright issues surrounding the video, do not intend to retain a copy on our files.

I will inform the soldiers of my decision through their 2ic.

Subject: UFO SIGHTING 7 JUNE 2008 TERN HILL BARRACKS

Dear Capt. Section 40

The Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorized foreign military activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

Given the reports of the nearby hotel setting off Chinese Lanterns around the time of the sighting at Tern Hill and the above policy, I do not intend to investigate the matter any further.

I should however, be grateful if you would pass this decision on to the soldier that reported the sighting. I assume he has retained a copy of the video. If not, I shall return my copy to him, otherwise, it will be destroyed.

NOTES/COMMENTS:

FOI REQUEST IN RESPONSE TO MEDIA REPORTS OF UFO SIGHTINGS

1. As per our telecom of 3 Jul 08, please find enclosed two letter from [Section 40]. The first is the FOI request in response to the story reported in The Sun newspaper on 25 Jun 08, "Army spot UFOs over Shropshire". The second letter is a request to interview the soldier who sent the information to the newspaper, Cpl [Section 40]

2. Please provide guidance on how we respond to this request which arrived in our post bunk on 27 Jun and I saw on 31 Jun 08.

3. Cpl [Section 40] does not wish to have anything further to do with this issue and evidence has since come out that the UFOs may in fact have been Chinese Lanterns set loose by a restaurant.

Dear Sir/Madam,

This is a Freedom of Information Act request. I would like to request copies of all documentation either written or electronic relating to the alleged UFO sighting by Corporal Section 40 and colleagues over Tern Hill barracks near Market Drayton in Shropshire on June 7th 2008.

I understand that Corporal Section 40 reported the incidents in question to his commanding officers. I would therefore like to request a copy of this report either written or electronic and any other reports submitted by any other military personnel at Tern Hill barracks on the night in question (June 7th 2008).

I would also respectfully like to request a copy of the video film footage taken by Corporal Section 40 and any other such footage that may have been taken by other military personnel at the times.

Yours sincerely,

Section 40

Dear Sir,

I am acting as a consultant for a TV show called UFO HUNTERS which is broadcast on the HISTORY CHANNEL in the USA (<http://www.history.com/minisites/ufohunters>). The production company in question will be in the UK filming this coming August.

We would therefore like to seek your permission to interview Corporal Section 40, 1st Battalion, Irish regiment, and his colleagues concerning the alleged sighting and filming of unidentified flying objects over Tern Hill barracks on June 7th.

The UFO HUNTERS series is in its second season and takes an unbiased and practical approach at this phenomenon. We would treat Corporal Section 40 and his colleagues with respect and act in a professional manner at all times.

We are planning our schedules now for filming in August and we would like to include these interviews if at all possible.

I would like to thank you for your cooperation with this request and I look forward to hearing from you in due course.

Yours sincerely,

Section 40

We spoke, but the following is the basic story:

I took a call this morning from the 2IC rear party at 1 Royal Irish at Tern Hill Capt Section 40 on Section 40
Section 40

A soldier who was part of a fire picket tagging on at the camp on 7 June took video footage with a camera on a mobile phone of what he says were "UFOs" in the sky above the camp – which they have emailed to The Sun – and which The Sun is apparently planning on splashing – probably tomorrow.

I don't have all the details/timings but what I do have is the following:

1. Soldier is Cpl Section 40 who the phone belongs to – he was accompanied by Pte Section 40 who also witnessed the "UFOs".
2. The footage was taken on 7 June at 23.03hrs – with a 5 megapixel camera on the phone.
3. 2IC rear party says the video images are very good.
4. The 2IC says the images could not have been anything to do with nearby RAF Shawbury.
5. They show lots of multi-coloured dots and zoom in on a cube shaped object which then flattens.
6. The Sun has already interviewed Cpl Section 40 he has explained to them what he saw.
7. There is some suggestion of payment being offered – though I think a discussion about that has still to happen.
8. I have reminded all, the 2IC and Cpl Section 40 about their responsibilities ref the DIN on communicating with the media.
9. Cpl Section 40 spoke to Section 40 an editor at The Sun (?)
10. Cpl Section 40 mobile number is Section 40
11. I spoke to the CRO at RAF Shawbury who said he was not aware – Sqn Ldr Section 40

Subject: RE: Release-authorized: UFO sighting at Tern Hill

Cols All

The UFO story is front page this morning in the Sun and has a double page spread inside. I alerted SIO 5 Div and AD Def PR(A) at 2300hrs last night so that those key figures below me and above me were aware.

To demonstrate why we have protocols in place to ensure that engagement with the media is controlled and supervised the effect of the splash was that it was discussed in the broadcast paper reviews last night on TV. CDS also has a front page article on his comments that we cannot go on fighting wars on two fronts. The comment from the broadcasters was along the lines of *'the Services cannot fight two wars but it seems there are soldiers who have time to go UFO spotting'*. End result is that we look foolish.

Also and of more note is that sat alongside that article on the front page is a small sidebar that reports the latest death in Afghanistan. In my opinion it completely undervalues and ridicules the ultimate sacrifice that someone has paid. The soldiers involved in the release may just like to ponder that.

I reiterate the point from my previous E mail that these soldiers must be dealt with under the Defence Instructional Notice for unauthorised engagement with the media but that is Chain of Command business.

Media Enquiries - The Way Forward. The MOD Line currently is: **The MoD examines reports solely to establish whether UK airspace may have been compromised by hostile or unauthorised military activity. Unless there is evidence of a potential threat, there is no attempt to identify the nature of each sighting reported.** We have no reason to change that line and anything else we say will only give the story legs. Therefore I believe we should not say anything more or do anything more on this. I cannot see any opportunities here especially when contrasted with the recent deaths and the funerals that are taking place. There should therefore be no further release of the video or comments made and then the story will hopefully die quickly.

For 2ic Rear Party, 1 R IRISH - Please ensure everyone is briefed and please include your Regimental HQ element (Regtl Sec etc and other peripheral organisations that may have websites and therefore be susceptible to being contacted by the media to make comment) because the media will try it on with them. All enquiries should be directed to Section 40 143 Bde on Section 40

Here to assist further as required.

Thanks.

My advice for Cpl Section 40 action against the Sun is that unless he has hard evidence that they did something he had asked them not to then he will be wasting his time (and money). Telephone conversations are not substantial or sufficient I would offer.

Sir,

I have spoken with theatre and the CO agrees that this matter should be investigated and disciplinary action follow. We have ascertained that Pte [Section 40] was merely present but has not been in contact with the press and was surprised when his name was mentioned. The case against is being put together and sent to 5XX Legal for formal legal advice, once we have this disciplinary action will be conducted. Cpl [Section 40] has been warned that disciplinary action may follow.

5XX COS has now spoken to us on two occasions (both before the news broke and after the explanation for the 'UFOs' came out) and GOC 5XX is well aware of the issue. COS is satisfied that unless legal advice says otherwise, we the unit will deal with disciplinary action.

Cpl [Section 40] his part has shown genuine remorse and did come to us as soon as he realised what he had done. He had attempted to keep what he said from the Sun and is himself seeking legal advice against the Sun for publishing details he specifically asked them not to publish. In addition, the Sun have misrepresented him and his video footage, showing a street light in the still picture but not explaining that this was a street light.

The DIN has again been published on Part 1 Os, in addition, the Rear Party has been briefed on Media Contact so that they are aware of more than the G1, G2, Operational G3, and G4 aspects of our current Op tour. I don't expect legal advice to come back until the week after next.

Regards,

Cols, All

The Sun have not approached us in London about this yet but probably will do in due course.

Handling. I have agreed with SIO 5 Div that we are not putting the soldiers up for further interviews. There is no opportunity to get our messages out and there is nothing reputation enhancing in this story and risk that it will be revealed as a fake and the soldiers/Bn will look stupid. Cpl Section 40 already given enough to the Sun when he spoke to them and they have his video. He has been sent a contract which I suggest SIO 5 Div needs to see to ascertain whether or not we can stop publication of the video. I suspect we will not be able to. It may be that we meet the Sun half way and get them to run it without saying who passed it to them but that is a very very long shot.

DIN Breach. I have just explained to Capt Section 40 that while it is a Chain of Command issue the soldiers have breached the DIN on engagement with the media and should be disciplined for that. To hear that a Cpl is claiming that he is unaware of the rules I find somewhat incredulous. I have made it clear to Capt Section 40 that the soldiers need it explaining very clearly to them that they are to have nothing more to do with the media even if called by them about this or anything else. For example, the scenario of a death in theatre from the Bn and them then being called to give comment is very credible.

The Future. Any oxygen given to the story will simply incur lots of work subsequently and if it is printed in the Sun tomorrow there will then be lots of subsequent regional interest As explained to Capt Section 40 instead of dealing with the huge interest in the recent 9 fatalities and helping prevent aggressive media intrusion with the families I am now spending time on this (avoidable) incident. If it runs tomorrow then the unit will be approached by regional outlets who will want a piece of the action preventing the unit from getting on with supporting those on ops and those remaining behind. The soldiers may just wish to ponder the subsequent effects of what they have done!!
