ANNEX A TO
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, Time and Duration of Sighting	042245z Oct 96 Not stated
2. Description of Object (No of objects, size, shape, colour, brightness)	Strong light. Went right very fast, then reversed, then stopped, then shot off.
3. Location (indoor/outdoor stationary/moving)	Not known
4. How observed (naked eye, binoculars, other optical device, still or moving)	Not known
5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Not known
6. Angle of Sight (Estimated heights are unreliable)	Not known
7. Distance (By reference to a known landmark)	
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	See above
9. Met conditions during observations (Moving cloud, haze, mist, etc)	Not known
10. Nearby objects (Telephone lines, high voltage lines reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or Radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	
11. To whom reported (Police, military, press, etc)	Got through to AFDO answerphone initially. Would not wait for call back by

AFDO and then rang
CDSDO. Would not say
who he was or where
he lived other than
Humberside.

1.

12. Name and Address of Informant Name Address	Not known except that he said he lived in Humburside
13. Background of informant that may be volunteered	Nothing volunteered
14. Other Witnesses	Not known
15. Date, Time of Receipt	041096z Oct 96
16. Any Unusual Meteorological Conditions	Not known
17. Remarks	This man rang the CDSDO several times. He seemed to be somewhat agitated. He said he had worked on jets and that he was a surveyor and that he knew what he was talking about. He would not tell the CDSDO his name or where he lived and the CDSDO declined to take any further details. The CDSDO did pass Sec(AS)'s telephone No if the person wished to talk about it on Monday?

1. Over the weekend Air Force Ops received a number of reports relating to an unidentified aerial sighting, which is alleged to have occurred on Sat 5 Oct between the hours of 0200 and 1100 hrs over Boston, Lincolnshire.

2. As you can imagine the Press Office are receiving a number of enquiries, and at present our line is that we will be examining any reports received in connection with this sighting in the usual manner.

3. Attached is the paperwork which we currently have. DAO's staff (GE1) is looking into the matter in an attempt to establish what information the Air Force can substantiate about this sighting.

REPORT OF AN UNIDENTIFIED FLYING OBJECT - 5 OCT 96

- Date, time and location.** Notified to Northwood at 0502110Z by RCC Kinross following report from coastguard. Object still visible on radar at 0510115, time of writing report.
- Description of object.** First reports indicated a 'strange red and green rotating light, or a possible pair of objects described as flashing red, green, blue and white lights. Stationary over Boston, Lincolnshire, no exact height but reports range from 'about a mile high' to 'very high'. Objects seen on radar showed possible pair of plots, moving in a NE/SW direction over a distance of up to 8nm and stationary for short periods. No height information available as no contact on ADGE Radar only on NATS Clwyb. No sound was associated with the sightings.
- Exact position of observer.** Several observers reported sighting including Northwood, Anglia Radar, Waddington Approach, London Radar all report plots over Boston Lincolnshire. Surface sightings reported from Boston Police who report bright light, SE of Boston 40-45 degrees up in the sky. Surface sighting from ship MV CONOCOAST, from position 5312N00034E, reported 2 contacts with flashing blue, red, white and green lights over Boston. Possible airborne sighting from aircraft working London Radar at 050557Z who reported 'indistinct flashing lights'. Numerous other sightings phoned in to the police from members of the public.
- How observed.** See above. The visual contact by MV CONOCOAST was using binoculars. Skegness police have video footage taken either by them or the Boston PC. A copy is being sent to Northwood.

9. Direction in which object first seen. MV CONOCOAST reported object 'just appeared' overhead Boston.
6. Angle of sight. Reported as 40 - 45 degrees above the horizon, by Boston PC.
7. Distance. No distance given only reported as 'just SE of Boston'.
8. Movements. Objects appeared to move NE/SW over a range of about 8nm. First report indicated that the contact was a 'strange red and green rotating light'.
9. Met conditions during period. Conditions reported to be good with airborne reports indicating good VMC. However, a number of thunderstorms were active in the East Anglia region.
10. Nearby Objects. All reports indicated objects were high so no nearby objects available for comparison. The controller at Anglia Radar suspects that the radar response could be caused by the 'Boston Stump', a church steeple which does occasionally show up on radar.
11. To whom reported. The MV CONOCOAST reported the sighting to the Gt Yarmouth Coastguard who passed it on to RCC at Kiloos. Public also reported to Coastguard and to police at Skegness. Nottishhead informed by RCC Kiloos and has been sent a fax, on request, from the Coastguard.
12. Names of informants. As above.
13. Background. Unknown.
14. Other witnesses. As above.
15. Date and time of receipt. 050210Z Oct 96.
16. Unusual met conditions. Thunder storms.
17. Remarks. FAX received from Yarmouth Coastguard included in transmission for information. Press have made contact and been referred to MOD Air Press Office and RAF Nottishhead PRO. Phone calls subsequently received from DC Gregory, Norwich Airport Police, asking for any INFO. Coastguard also interested in whether we are responding to object. Object is still visible and still showing on Clady Radar although at 051105z an ac under control of Waddington Approach flew through area at 2000 feet and reported no contacts.

DETERMINING ITS HEIGHT BUT IT MUST BE QUITE A SIZE TO BE VISIBLE
FROM HR. // OK DID YOU INFORM HEATHROW AND TRY TO ASCERTAIN
WHY THEIR RADAR ISN'T PICKING IT UP AND ATTEMPT TO OBTAIN HEIGHT
FROM THEM // OK WILL COME BACK.

050830 LRC FM ARCC - HEATHROW NOW REPORT THAT FURTHER INVESTIGATION
CONFIRMED A COUPLE OF RADAR CONTACTS IN THAT AREA BUT NO HEIGHT
THEY SEEM TO BE STATIONARY. DEFINITELY NO MILITANT A/C IN THE

Sec(AS)2A

UNUSUAL AIR PHENOMENON - 5 Oct 96

1. After efforts to analyse the various sightings of unusual lights which occurred in the early hours of 5 Oct 96, I believe that three separate phenomena can be identified; each is briefly described below with a possible or probable explanation.

LIGHTS IN THE WASH AREA

2. Stationary and generally red/green/white flashing lights to the south east at about 40-45 degrees above the horizon; no reliable height or range could be determined. The lights were observed by Skegness and Boston Police between 0214Z and approximately 0600Z (daybreak); similar lights were observed from the MV Conocoast (approx 8 miles ESE of Skegness from 0345Z until daybreak. The lights observed from Skegness were captured on video which is being sent to RAF Neatishead, however, the result is believed to be of poor quality.

3. The fact that these lights were observed from three separate locations high above the horizon and in the same general direction, without corroborating radar data, suggests a distant celestial source. Venus rising may be a possible explanation since the planet can appear bright, coloured and to flash in certain conditions.

LIGHTS TO THE NORTH OF MV CONOCOAST

4. Stationary red, blue, green and white flashing lights to the north and 'very high', 40-45 degrees above the horizon. Lights observed from the MV Conocoast between 0246Z and approximately 0600Z (daybreak).

5. These lights were observed from a single location out at sea in the opposite direction to those at para 2. They would appear to have originated from an area over the North Sea but again at an angle well above the horizon. These lights were not the object of any attention on 5 Oct, or subsequently, but remain unexplained.

PERMANENT RADAR ECHOS

6. Generally stationary radar returns, without height or IFF/SSR, observed on the NATS Claxby radar at 0210Z until 1105Z over Boston and later on the RAF Waddington ATC radar.

7. These returns were almost certainly from a permanent geographical feature (St Botolph's church spire in Boston, 273ft) which were initially observed while attempting to associated an air track with the lights; in fact, no aircraft movement was

ultimately associated with lights in the Wash or E Anglian area. This church spire is known in aviation circles as 'the Boston Stump' and appears occasionally on some radars in certain radar propagation conditions.

8. Conclusion. The prolonged sighting of stationary coloured flashing lights reported by the Skegness police on 5 Oct 96 had no significance for the integrity of UK Airspace and no associated air vehicle was detected by civil or military radars.

PRESS LINES

BOSTON UFO SIGHTINGS - EARLY HOURS OF SAT 5 OCT 96

All available sources of information have been examined and we are satisfied that the sightings were not of air defence significance. We are content that there was no associated threat to UK airspace.

IF PRESSED:

THE RADAR RETURNS

The radar returns have been assessed and were almost certainly caused by a permanent geographical feature (St Botolph's church spire in Boston, 273ft). The church spire is known in aviation circles as the 'Boston Stump' and appears occasionally on some radars in certain radar propagation conditions.

LIGHTS IN THE WASH AREA

The lights in The Wash area were observed from three separate locations high above the horizon and in the same general direction, but without corroborating radar data. No associated air vehicle was detected by civil or military radars. This suggests a distant celestial source.

There were no corroborating radar returns for the visual sightings.

Subject: UFO SIGHTINGS

Section 40

Wg Cdr Section 40 usually keeps an eye on the continual UFO reporting that is copied to us, but with Section 40 away and my week already very full I simply comment that there seems to have been a "major" event over the weekend. A large number of people have contacted quite a number of centres, London and Boston featuring prominently. It is just possible that something might hit the press, hence the "heads up".

As is our accepted procedure, we will do nothing about this. But I have to say that I would love to follow up in some way. There must be something to explain all this!

PARLIAMENTARY QUESTIONS ON "UFOs"

Reference:

A. D/DI(SEC)6/1 dated 16 Oct 96.

1. You circulated draft answers to 6 PQs by Martin Redmond (Labour) (Don Valley) for comment. This response is for AD/DI 55.
2. The answers are most satisfactory, and the background brief to accompany them is now correct in reflecting that we have no intelligence exchanges with allies on the subject..
3. You may care to add that the reason Redmond is asking these questions now may be connected with the plethora of "Unusual Aerial Phenomena" reports currently circulating on, and the considerable open press interest in, reported sightings in the Lincolnshire area on 5 Oct 96. The unusual phenoma seen and reported that night (including reports from unimpeachable witnesses such as Skegness, and Boston Police, RAF Waddington air traffic control and National Air Traffic Services Claxby) would doubtless be within view of many of Redmond's constituents.

Subject: UFO SIGHTING - 5 OCT 96 BOSTON
LINCS

Wg Cdr Section 40

1. Over the weekend Air Force Ops received a number of reports relating to an unidentified aerial sighting, which is alleged to have occurred on Sat 5 Oct between the hours of 0200 and 1100 hrs over Boston, Lincolnshire.

2. As you can imagine the Press Office are receiving a number of enquiries, and at present our line is that we will be examining any reports received in connection with this sighting in the usual manner.

3. Attached is the paperwork which we currently have. DAO's staff (GE1) is looking into the matter in an attempt to establish what information the Air Force can substantiate about this sighting.

5. Direction in which object first seen. MV CONOCOAST reported object 'just appeared' overhead Boston.
6. Angle of sight. Reported as 40 - 45 degrees above the horizon, by Boston PC.
7. Distance. No distance given only reported as 'just SE of Boston'.
8. Movements. Objects appeared to move NE/SW over a range of about 3nm. First report indicated that the contact was a 'strange red and green rotating light'.
9. Met conditions during period. Conditions reported to be good with airborne reports indicating good VMC. However, a number of thunderstorms were active in the East Anglia region.
10. Nearby Objects. All reports indicated objects were high so no nearby objects available for comparison. The controller at Anglia Radar suspects that the radar response could be caused by the 'Boston Stump', a church steeple which does occasionally show up on radar.
11. To whom reported. The MV CONOCOAST reported the sighting to the Gt Yarmouth Coastguard who passed it on to RCC at Kinloss. Public also reported to Coastguard and to police at Stagsay. Nottisham informed by RCC Kinloss and has been sent a fax, on request, from the Coastguard.
12. Means of information. As above.
13. Background. Unknown.
14. Other witnesses. As above.
15. Date and time of meeting. 050210Z Oct 96.
16. Usual met conditions. Thunder storms.
17. Remarks. FAX received from Yarmouth Coastguard included in transmission for information. Press have made contact and been referred to MOD Air Press Office and RAF Nottisham PRO. Phone calls subsequently received from DC Section 40, Norwich Airport Police, asking for any INFO. Coastguard also interested in whether we are responding to object. Object is still visible and still showing on Clwyd Radar although at 051105z on an under control of Waddington Approach flew through area at 2000 feet and reported no contacts.

REPORT OF AN UNIDENTIFIED FLYING OBJECT - 5 OCT 96

- Date, time and location.** Notified to Northwood at 0502110Z by ROC Kinson following report from coastguard. Object still visible on radar at 0510115, time of writing report.
- Description of object.** First reports indicated a 'strange red and green rotating light, or a possible pair of objects described as flashing red, green, blue and white light. Stationary over Boston, Lincolnshire, no exact height but reports range from 'about a mile high' to 'very high'. Objects seen on radar showed possible pair of objects, moving in a NW direction over a distance of up to 8km and stationary for short periods. No height information available as no contact on ADGB Radar only on NATS Cansby. No sound was associated with the sightings.
- Exact position of observer.** Several observers reported sighting including Northwood, Anglia Radar, Waddington Approach, London Radar all report plots over Boston Lincolnshire. Surface sightings reported from Boston Police who report bright light, SE of Boston 40-45 degrees up in the sky. Surface sighting from ship MV CONOCOAST, from position 5312N00034E, reported 2 contacts with flashing blue, red, white and green lights over Boston. For the aircraft sighting from aircraft working London Radar at 050357Z who reported 'indistinct flashing lights'. Numerous other sightings phoned in to the police from members of the public.
- How observed.** See above. The visual contact by MV CONOCOAST was using binoculars. 2 ground police have video footage taken either by them or the Boston PC. A copy is being sent to Northwood.

AND CANNOT
EXPLAIN IT. IF THEY ARE HELICOPTERS THEY ARE FAST APPROACHING
THE END OF THEIR ENDURANCE AS ITS WELL OVER TWO HOURS SINCE THE
FIRST REPORT LET ALONE HOW LONG THEY WERE UP BEFORE THEY WERE
ACTUALLY SIGHTED, BUT WE HAVE TO BE TALKED BEFORE WE CAN PUT AN
A/C UP TO INVESTIGATE AND AS THEY DO NOT PRESENT A THREAT THE
END TO INVESTIGATE MUST COME FROM A CIVIL SOURCE IE POLICE OR
CUSTOMS, CAN YOU SEE WHAT CUSTOMS THINK // OR WILL DO.

LINCS

Wg Cdr Section 40

1. Over the weekend Air Force Ops received a number of reports relating to an unidentified aerial sighting, which is alleged to have occurred on Sat 5 Oct between the hours of 0200 and 1100 hrs over Boston, Lincolnshire.
2. As you can imagine the Press Office are receiving a number of enquiries, and at present our line is that we will be examining any reports received in connection with this sighting in the usual manner.
3. Attached is the paperwork which we currently have. DAO's staff (GE1) is looking into the matter in an attempt to establish what information the Air Force can substantiate about the sighting.

REPORT OF AN UNIDENTIFIED FLYING OBJECT - 5 OCT 96

- Date, time and location.** Notified to Northwood at 0902110Z by RCC Kinloss following report from coastguard. Object still visible on radar at 0910115, time of writing report.
- Description of object.** First reports indicated a 'strange red and green rotating light, or a possible pair of objects described as flashing red, green, blue and white lights. Stationary over Boston, Lincolnshire, an exact height but reports range from 'about a mile high' to 'very high'. Objects seen on radar showed possible pair of plots, moving in a NBSW direction over a distance of up to 8km and stationary for short periods. No height information available as no contact on ADGE Radar only on NATS Clwyb. No sound was associated with the sightings.
- Exact position of observer.** Several observers reported sighting including Northwood, Anglia Radar, Waddington Approach, London Radar all report plots over Boston Lincolnshire. Surface sightings reported from Boston Police who report bright light, SE of Boston 40-45 degrees up in the sky. Surface sighting from ship MV CONOCOAST, 090500Z 3312N00054E, reported 2 contacts with flashing blue, red, white and green lights over Boston. Prior to sightings from aircraft working London Radar at 090557Z who reported 'indistinct flashing lights'. Many sightings phoned in to the police from members of the public.
- How checked.** See above. The visual contact by MV CONOCOAST was using binoculars. Anglia police have video footage taken either by them or the Boston PC. A copy is being sent to Northwood.

5. Direction in which object first seen. MV CONOCOAST reported object 'just appeared' overhead Boston.
6. Angle of sight. Reported as 40 - 45 degrees above the horizon, by Boston PC.
7. Distance. No distance given only reported as 'just SE of Boston'.
8. Movements. Objects appeared to move NE/SW over a range of about 2nm. First report indicated that the contact was a 'orange red and green rotating light'.
9. Met conditions during period. Conditions reported to be good with airbase reports indicating good VMC. However, a number of thunderstorms were active in the East Angles region.
10. Nearest Objects. All reports indicated objects were high so no nearby objects available for comparison. The controller at Anglia Radar suspects that the radar response could be caused by the 'Boston Stump', a search scope which does consistently show up on radar.
11. To whom reported. The MV CONOCOAST reported the sighting to the Gt Yarmouth Coastguard who passed it on to RCC at Kinloss. Public also reported to Coastguard and to police at Shingess. Northland informed by RCC Kinloss and has been sent a fax, on request, from the Coastguard.
12. Name of informants. As above.
13. Background. Unknown.
14. Other witnesses. As above.
15. Date and time of incident. 050210Z Oct 96.
16. Unusual met conditions. Thunder storms.
17. Remarks. FAX received from Yarmouth Coastguard included in transmission for information. Press have made contact and been referred to MOD Air Press Office and RAF Northland FRO. Phone calls subsequently received from DC Gregory, Norwich Airport Police, asking for any INFO. Coastguard also interested in whether we are responding to object. Object is still visible and still showing on Clady Radar although at 051103z an ac under control of Waddington Approach flew through area at 2000 feet and reported no contacts.

BACKGROUND

1. This PQ is one of 26 for answer before the House prorogues from Martin Redmond about 'UFO' related issues (22 for answer by MOD numbers 2100, 2101, 2103, 2105, 2106, 2109, 2110, 2111, 2112, 2113, 2114, 2117, 2118, 2120, 2122, 2123, 2127, 2130, 2131, 2135, 2136, 2142, one for the Prime Minister and 3 for FCO reply). However, in view of the overall amount of detail (including that relating to the Intelligence Services) that the MP is seeking, we consider it prudent to assess the collective worth of what might be said in reply rather than answer each question in isolation. We shall therefore delay replying substantively in order to do so. That said, we considered the Prime Minister would wish to provide a full reply to Mr Redmond and believe this can be done without detriment to the replies for the other 25 Questions. This has now been done. **It is too early at this stage to determine which of these questions might be linked for reply and recommend that each one is answered with an individual interim reply.**

2. MOD's interest in 'unexplained' aerial phenomena is limited to that required solely to establish whether there is any evidence that the UK Air Defence Region might have been compromised by a hostile foreign military aircraft. Unless there is any evidence that this is the case, and to date no sighting has provided such evidence, the MOD does not make any further investigations or seek to provide an explanation for what was observed. We have no interest (and neither does any other Government Department), expertise or role with respect to 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial lifeforms, about which we remain open minded, and we know of no evidence that proves these phenomena exist.

3. In May this year an MOD employee, Mr Nicholas Pope, who had previously served in the Air Staffs Secretariat, published a book on the 'UFO' phenomenon 'Open Skies, Closed Minds' (copy of book jacket attached). Media and public interest in 'UFO' issues has increased since that time including a number of TV programmes. It is quite possible that Martin Redmond has been lobbied into tabling this raft of questions by a member of the public with an interest in such matters, which follow ten questions he tabled on 'UFO' matters between May and July this year.

MARTIN REDMOND PQs - 'UFOs'

1. I attach substantive draft replies for the raft of PQs tabled by Martin Redmond last week relating directly, or indirectly, to 'UFOs'. So far as the latter is concerned, Annexes A and B are letters for Minister(AF) to send to Mr Redmond; Annex C deals specifically with 'UFO' matters and is for USofs to send to the MP.

BACKGROUND

2. Abnormal phenomena and 'UFOs' have been something of a media fashion this year, partly stoked by a book by a MOD employee, Mr Nicholas Pope, 'Open Skies, Closed Minds'. The book seeks an investigation into so-called 'UFOs'. It may be that Mr Redmond is seeking to establish if the MOD has taken note of Mr Pope's concerns. Mr Pope is now writing a follow up book on 'human encounters with aliens' and we might, therefore, expect Parliamentary and media interest to continue.

DEFENCE INTELLIGENCE MATTERS

3. At Annex A is a draft reply for Minister(AF) to send to Mr Redmond in response to the five Questions seeking information on Defence Intelligence branches. They do not specifically mention 'UFOs'.

4. DI55 is the branch responsible for studying aerodynamic missiles. It is known publicly that they are also consulted by Sec(AS) from time to time on aerial phenomena. The other Defence Intelligence branches referred to in Mr Redmond's questions have ceased to exist, some of them many years ago. They may have been identified by researchers from files in the Public Record Office which included details of a DIS reorganisation.

RAF RUDLOE MANOR

5. At Annex B is a separate draft reply for Minister(AF) to send to Mr Redmond about the role of RAF Rudloe Manor. Again, there is no specific mention of 'UFOs' in this question and we believe it appropriate, once more, to avoid creating a link not made by the MP. Although the Flying Complaints Flight, based at RAF Rudloe Manor was responsible until 1992 for collecting 'UFO' reports made to RAF stations and passing them to Sec(AS), the 'UFO' lobby continue to misrepresent RAF Rudloe Manor as a 'UFO' investigation unit, despite numerous attempts by the Department to dispel this myth. The extent of Rudloe Manor's involvement in the 'UFO' reporting process these days, in common with all other RAF stations, is to note down the details of any reports made in its local area and forward them to Sec(AS).

MOD 'UFO' POLICY; DISCUSSIONS WITH OTHER GOVERNMENTS; ARCHIVED RECORDS; RAF FLYING COMPLAINTS FLIGHT (FCF)

6. At Annex C is a draft reply for US of S to send to Mr Redmond in response to the remaining 15 Questions, all of which include reference to 'UFO' matters. We have grouped these in logical order. Although Question 14 does not specifically mention 'UFOs', examination of the letter cited by the MP reveals 'UFOs' to be the subject matter.

7. For completeness, I attach at Annex D, three questions tabled by Mr Redmond which are being answered by the FCO.

DATED OCT 96

DRAFT REPLY FROM MINISTER(AF) TO MARTIN REDMOND MP

D/Min(AF)/

October 1996

I am writing as promised in my answers of 17 October to your questions (Official Report, col 1092, copy attached) about the functions of a number of Defence Intelligence branches.

It has been the policy of successive Governments not to provide information on the functions of individual intelligence branches when this discloses the more recent nature of their duties.

I shall arrange for a copy of this letter to be placed in the Library of the House.

THE HON NICHOLAS SOAMES

Mr. Soames: I will write to the hon. Members and a copy of the letter will be placed in the Library of the House.

Mr. Nicholas Pope

Mr. Redmond: To ask the Secretary of State for Defence to what post Mr. Nicholas Pope was appointed by his Department after his tour of duty with Secretariat (Air Staff) Department 2A; and if he will make a statement. [40920]

Mr. Soames: Mr. Nicholas Pope was posted on promotion two years ago to a general finance policy branch.

Uranium-tipped Shells

Dr. David Clark: To ask the Secretary of State for Defence what assessment he has made of the current risk posed to civilians from exploded depleted uranium-tipped shells in Kuwait. [41101]

Mr. Arbuthnot: My Department has conducted no formal assessment of the risks to civilians from exploded depleted uranium-tipped ammunition in Kuwait.

Dr. Clark: To ask the Secretary of State for Defence if he will make a statement concerning the risk to soldiers of handling depleted uranium-tipped shells. [41100]

Mr. Soames: Depleted uranium has a very low level of radioactivity and the risks attached to the handling of depleted uranium ammunition are minimal.

Dr. Clark: To ask the Secretary of State for Defence what assessment he has made of the 1991 Atomic Energy Authority report on industrial technology concerning the risk of exposure to exploded depleted uranium-tipped shells. [41102]

Mr. Soames: I refer the hon. Member to the letter sent by my noble Friend the Under-Secretary of State for Defence to the hon. Member for Blaenau Gwent (Mr. Smith) on 7 August 1996, a copy of which has been placed in the Library of the House.

Dr. Clark: To ask the Secretary of State for Defence how many depleted uranium-tipped shells were fired by British forces during the Gulf war; and what assessment he has made of the number of exploded shells remaining in Kuwait. [41099]

Mr. Soames: British forces fired some 88 depleted uranium shells during the Gulf conflict. The Ministry of Defence has made no assessment of the number of exploded shells remaining in Kuwait, as we judge the risk to human health posed by DU rounds to be negligible. It is likely, though, that a large proportion of the 88 shells was expended in Iraq rather than Kuwait.

Mr. Llew Smith: To ask the Secretary of State for Defence what studies have been conducted by his Department into the nephrotoxicity of the inhalation of

Mr. Soames: I will write to the hon. Member and a copy of the letter will be placed in the Library of the House.

Married Quarters Estate

Mr. Spellar: To ask the Secretary of State for Defence what are the locations of the houses from the married quarters estate that have been released to Arrington Homes for immediate use by the private sector. [40931]

Mr. Arbuthnot: I will write to the hon. Member and a copy of the letter will be placed in the Library of the House.

RAF Rudloe Manor

Mr. Redmond: To ask the Secretary of State for Defence what work is currently undertaken at RAF Rudloe Manor; what work was undertaken in the last 10 years; what was, by rank, the establishment for the last 10 years; and if he will make a statement. [40823]

Mr. Soames: I will write to the hon. Member and a copy of the letter will be placed in the Library of the House.

Defence Intelligence Branches

Mr. Redmond: To ask the Secretary of State for Defence (1) what is the current function of DI55 SIG; what was its function (a) five years and (b) 10 years ago; and if he will make a statement: [41040]

(2) what is the current function of DI65B; what was its function (a) five years and (b) 10 years ago; and if he will make a statement; [41038]

(3) what is the current function of DI55; what was its function (a) five years and (b) 10 years ago; and if he will make a statement; [41041]

(4) what is the current function of DI61E; what was its function (a) five years and (b) 10 years ago; and if he will make a statement; [41037]

(5) what is the current function of DI10; what was its function (a) five years and (b) 10 years ago; and if he will make a statement. [41039]

Mr. Soames: I will write to the hon. Member and a copy of the letter will be placed in the Library of the House.

Unidentified Flying Objects

Mr. Redmond: To ask the Secretary of State for Defence (1) what consultation has taken place in each of the last five years by his Department with the French Ministry of Defence Centre National d'Etudes Spatiales in respect of unidentified flying objects; and if he will make a statement: [41048]

(2) if a lodger unit housed within his Department's Flying Complaints Flight specialises in unidentified flying object investigations; and if he will make a statement: [41036]

(3) how many records currently held by his Department's Scientific Intelligence Branch are under extended closure for (a) 50 years, (b) 75 years and (c) 100 years; how many of these records refer to unidentified flying objects; and if he will make a statement: [40911]

ANNEX B TO
D/SEC(AS)/64/4
DATED OCT 96

DRAFT LETTER FROM MINISTER(AF) TO MARTIN REDMOND MP

D/Min(AF)/

October 1996

I said I would write to you in response to your recent Parliamentary Question (Official Report, 17 October, Col.1092, copy attached).

RAF Rudloe Manor consists of a parent unit and five lodger units:

No 1 Signals Unit - providing voice and data communications for MOD, RN, Army and RAF establishments throughout the country.

Detachment of 1001 Signals Unit - operating the UK military communications satellite system. No 1001 SU comprises several sites, one of which is located at RAF Rudloe Manor.

Headquarters Provost and Security Services (UK) - a RAF unit commanding the six geographical P&SS Regions within the UK.

Headquarters Provost and Security Services (Western Region) - providing specialist Police and Security support to all RAF establishments within the West Midlands, the West Country and South and Mid Wales.

Controller Defence Communications Network - a tri-service unit controlling world wide defence communications.

Rudloe Manor also has a parenting responsibility for Bristol University Air Squadron and No 3 Air Experience Flight, which operate from the airfield at Colerne.

The role of the station over the last 10 years has not varied, although some of the lodger units have changed:

- a. No 1001 Detachment formed in Oct 91.
- b. No 1 SU came into existence in Apr 93, forming from a staff organisation which originally arrived in Nov 85.
- c. HQ P&SS(WR) formed in Apr 93, and HQ P&SS (Southern Region), which was then at RAF Rudloe Manor, moved to RAF Halton in 1995.
- d. No 6 SU, a message switching unit, closed in Oct 94.

Information on the establishment of the Station is not available for security reasons in the form requested. However, I can tell you that it comprises 557 Service and 225 civilian personnel.

I shall arrange for a copy of this letter to be placed in the Library of the House.

THE HON NICHOLAS SOAMES

Martin Redmond Esq. MP

3) what research has been conducted on behalf of his Department by the national poisons information service into the causes of Gulf war syndrome. [41292]

Mr. Soames: I will write to the hon. Members and a copy of the letter will be placed in the Library of the House.

Mr. Nicholas Pope

Mr. Redmond: To ask the Secretary of State for Defence to what post Mr. Nicholas Pope was appointed by his Department after his tour of duty with Secretariat (Air Staff) Department 2A; and if he will make a statement. [40920]

Mr. Soames: Mr. Nicholas Pope was posted on promotion two years ago to a general finance policy branch.

ANNEX C TO
D/SEC(AS)/64/4
DATED OCT 96

DRAFT LETTER FROM US of S TO MARTIN REDMOND MP

D/USofs)/

October 1996

In response to a number of Questions you recently asked about 'UFO' matters (Official Report, cols 1092-1093 and 1095, copies attached) Nicholas Soames said that he would be writing to you. I am, however, replying as the Minister responsible for these issues. A full list of the Questions is attached at Annex. I have added a separate number sequence from one to fifteen and use this in the following paragraphs for ease of reference and clarification.

The MOD's interest in 'unexplained' aerial phenomena (Question 1) is limited to whether the UK Air Defence Region might have been compromised. Unless there is any evidence that this is the case, and to date no sighting has provided such evidence, we do not investigate further or seek to provide an explanation for what might have been observed. We have no expertise or role with respect to 'UFO/flying saucer' matters and, so far as the existence or otherwise of extraterrestrial lifeforms is concerned, we remain open minded but know of nothing that proves they exist. Our policy in this respect has not changed during the last thirty years.

RAF Standing Instructions (Question 2) require all RAF Station Commanders to forward reports of all 'UFO' sightings

whether made by members of the public or on-duty service personnel to the Secretariat (Air Staff), Branch 2a. Sec(AS)2a look at all 'UFO' sighting reports (Question 3) whether military or civilian reported. Reports are assessed in consultation with other MOD branches as required to determine whether there is any defence interest in what has been reported. Over the last twelve months there has been one instance of an on-duty member of the services reporting an 'unexplained' aerial sighting, and this was not judged to be of any significance.

We have no evidence (Question 4) that any structured craft of unknown origin has penetrated the UK's Air Defence Region. I am unable to provide the information you seek about reports of alleged landings (Question 5) since records are maintained only of 'UFO' sighting reports which are not broken down further into specific categories.

You ask at Questions 2a, 2b and 6-12 about collaboration and consultation with a number of foreign governments. My Department has regular discussions with a number of countries on a wide range of topics of mutual interest but such discussions have not extended to 'UFO/flying saucer' issues or the existence or otherwise of extraterrestrial life forms.

I can confirm (Question 13) that my Department's Scientific Intelligence Branch holds no records under extended closure for any period in excess of 30 years. So far as the information sought at Question 14 is concerned, the PRO has confirmed that the class list giving details of preserved records is available to researchers at Kew.

Finally, I can also confirm (Question 15) that there is no unit within the Flying Complaints Flight (FCF) based at RAF Rudloe Manor (or anywhere else) specialising in investigations into unidentified flying objects. I should add that despite continuing misunderstandings about the role of RAF Rudloe Manor in alleged 'UFO' investigations, the Station is not and never has been involved in this way.

I shall arrange for a copy of this letter to be placed in the Library of the House.

The Earl Howe

Martin Redmond MP

Unidentified Flying Objects

10. 1. (6) if he will make statement on his Department's policy towards unidentified flying objects and on how this has developed during the past 30 years; [40913]

6. (7) what co-operation there is between the Royal Air Force and the United States air force in respect of establishing the facts relating to unidentified flying objects; and if he will make a statement: [40918]

5. (8) how many alleged landings by unidentified flying objects have been recorded in each year since 1980 and this year to date; how many have been investigated by his Department's personnel; which of these had been traced by radar and with what result; and if he will make a statement: [40921]

8. (9) what consultation has taken place in each of the last five years by his Department with the Italian Ministry of Defence air force general staff (2. Department) in respect of unidentified flying objects; and if he will make a statement: [41049]

2. (10) what instructions have been sent to the commanders of Royal Air Force stations to collect reports from air crews having allegedly sighted unidentified flying objects; what inquiries have been held following such sightings; to what extent there has been collaboration between his Department and departments in (a) Canada and (b) the United States of America on this problem; and if he will make a statement: [40917]

12. (11) what consultation has taken place in each of the last five years by his Department with New Zealand's Ministry of Defence in respect of unidentified flying objects; and if he will make a statement: [41043]

9. (12) what consultation has taken place in each of the last five years by his Department with the Portuguese Ministry of Defence's joint staff of the armed forces intelligence division in respect of unidentified flying objects; and if he will make a statement: [41051]

3. (13) how many instances of unidentified flying objects have been reported on by the defence services of the United Kingdom during the last 12 months; what steps are taken to co-ordinate such observations; and if he will make a statement: [40910]

4. (14) if he will list by year for the last 30 years how many structured craft of unknown origin have penetrated the United Kingdom's air defence region; and if he will make a statement: [40919]

Mr. Soames: I will write to the hon. Member and a copy of the letter will be placed in the Library of the House.

Mr. Nicholas Redfern

4. Mr. Redmond: To ask the Secretary of State for Defence if he will list the titles of the records of the Ministry of Defence's scientific intelligence branch in respect of correspondence sent to Mr. Nicholas Redfern by the Public Record Office, Kew on 21 September 1990. [40889]

Mr. Soames: I will write to hon. Member and a copy of the letter will be placed in the Library in the House.

Dr. Liam Fox: The Minister of State, Foreign and Commonwealth Office, my right hon. Friend the Member for Richmond and Barnes (Mr. Hanley), shall write to the hon. Member shortly. Copies of the letter will be placed in the Libraries of the House.

Unidentified Flying Objects

Mr. Redmond: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what consultation has taken place in each of the last five years by his Department with the French Service de Documentation Extérieur et de Contre-Espionnage in respect of unidentified flying objects; and if he will make a statement; [40970]

(2) if he will list by month for each of the last 10 years, and this year to date, the number of occasions that MI6 has monitored unidentified flying objects investigations; and if he will make a statement; [40981]

(3) if he will list by month for each of the last 10 years and this year to date the number of occasions on which the Government Communications headquarters has monitored unidentified flying object investigations; and if he will make a statement. [40922]

Mr. David Davis: I shall write to the hon. Member shortly. Copies of the letter will be placed in the Libraries of the House.

Consultants

Mr. Milburn: To ask the Secretary of State for Foreign and Commonwealth Affairs what are his latest estimates of the expenditure on all external consultants, including management consultants, for each year since 1992, in 1996 prices, for his Department and its agencies; and what are the quantified annual cost savings which such expenditure has resulted in. [41178]

Dr. Liam Fox: The Minister of State, Foreign and Commonwealth Affairs Office, my right hon. Friend the Member for Richmond and Barnes (Mr. Hanley), shall write to the hon. Member shortly. Copies of the letter will be placed in the Libraries of the House.

New Buildings and Premises

Mrs. Bridget Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what was the total expenditure on new buildings and premises by his Department and its agencies; and if he will indicate the square footage of new office space purchased or newly rented in each of the last five years. [41144]

Dr. Liam Fox: The Minister of State, Foreign and Commonwealth Office, my right hon. Friend the Member for Richmond and Barnes (Mr. Hanley), shall write to the hon. Member shortly. Copies of the letter will be placed in the Libraries of the House.

Telephone Interceptions

Mr. Redmond: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list for each of the last 12 months the number of (a) interceptions and (b) monitorings of telephone calls (i) entering or (ii) leaving the United Kingdom through the joint

Government Communications headquarters—National Security Agency agreement; and if he will make a statement. [40972]

Dr. Liam Fox: The Minister of State, Foreign and Commonwealth Office, my right hon. Friend the Member for Richmond and Barnes (Mr. Hanley), shall write to the hon. Member shortly. Copies of the letter will be placed in the Libraries of the House.

Nuclear Weapons

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications for United Kingdom policy on the use of nuclear weapons of the decision of the International Court of Justice on nuclear weapons. [41224]

Mr. David Davis: I shall write to the hon. Member shortly. Copies of the letter will be placed in the Libraries of the House.

Combined Heat and Power

Mr. Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what capacity of electricity used in his Department's buildings is generated in a combined heat and power plant; and what plans he has to increase that capacity. [41321]

Dr. Liam Fox: The Minister of State, Foreign and Commonwealth Office, my right hon. Friend the Member for Richmond and Barnes (Mr. Hanley), shall write to the hon. Member shortly. Copies of the letter will be placed in the Libraries of the House.

DEFENCE

Religious Discrimination (Catterick Camp)

Mr. Gabraith: To ask the Secretary of State for Defence what reports he has received of religious discrimination at Catterick camp during June and July; and if he will make a statement. [40766]

Mr. Soames: There have been no reported incidents of religious discrimination at Catterick Camp during June and July. However, we treat any allegations of discrimination extremely seriously and if the hon. Member can provide any information which suggests that religious discrimination has taken place at Catterick Camp it will, of course, be fully investigated.

Suicides

Mr. Galbraith: To ask the Secretary of State for Defence pursuant to his answer of 16 May to the hon. Member for South Shields (Dr Clark), *Official Report*, column 559, if he will break down the number of suicides in the armed forces by (a) year and (b) service for each year since 1991. [40767]

Mr. Soames: Since January 1991 the total number of service personnel who have been confirmed as committing suicide is 130, which is broken down as follows:

PARLIAMENTARY QUESTIONS ON 'UFOs' - MARTIN REDMOND

1. There is very little that I can offer for inclusion in the letter you are coordinating for reply to Martin Redmond. In response to the questions he posed specifically about Defence Intelligence I would suggest the following:

"The departmental titles you asked about are in a series which delineate Defence Intelligence Staff branches, sections and desks although not all of them were extant during the timeframe you specified. It has been the policy of successive Governments not to provide information on the functions of individual intelligence branches when this discloses the more recent nature of their duties. However I can confirm that intelligence is studied on threats to the UK Air Defence Region to establish whether it might have been compromised by foreign military aircraft or weapons. I can also confirm that the Defence Intelligence Staff do not consult the intelligence staff of our Allies on unidentified flying objects."

2. For the background brief, which I believe should be classified CONFIDENTIAL, I suggest you may wish to tell Secretary of State the following:

"The Defence Intelligence branch titles have ceased to exist, some of them many years ago, except for DI55. There are two files in the Public Records Office dating from the late 1960s/early 1970s which include details of a DIS reorganisation which may have provided researchers with the titles. DI55 is the branch responsible for studying aerodynamic missiles. They are also the DIS repository for UFO reports forwarded by Sec(AS). There is no evidence that UFOs, in the 'flying saucer' context, are a threat but the reports are filed in case they provide useful collateral in explaining more tangible events.

The DIS does not exchange or discuss information on UFOs with its intelligence allies since it is not relevant to the

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Received a telephone call from a [Section 40] of Milton Keynes (Tel: [Section 40]).

2. On Sunday evening he was outside his house in Milton Keynes when for one and half seconds he saw a bright white light streak across the sky. He said that it was a calm night. Then just before he saw the light the wind suddenly blew up from nowhere, and just after the light went over the wind suddenly went away as quickly as it came.

3. I explained our interest to him and agreed to let him know if we received any other reports which matched with his own.

Further to your conversation with Section 40 regarding obtaining a video tape of the "UFO" sighting near Inverness on 25 July, I wrote to the informant who, incidentally, is a civilian working for the police, and requested a copy of the tape. The informant, Section 40, has since contacted us and has advised that unfortunately the video has been taped over.

REPORTING OF UFOs

1. Thank you for your minute of 19th September (AFDO/1/3/1) about the reporting of 'UFOs'.
2. The Department's interest in 'UFO sightings' is one of air defence, namely, whether there is any evidence in a sighting of a breach of the UK air defences. Whilst this policy remains in force Sec(AS)2, as the Air Staffs Secretariat, is required to accept UFO reports from members of the public and to keep records of all such reports where the witness is prepared to give his/her name and contact details.
3. In looking at this issue it is important to remember that as our declared interest is air defence, not 'flying saucer' related, MOD must be seen to acknowledge at all times information provided by members of the public about a sighting which might, in their view, pose an air defence threat. We cannot expect the civil police to decide what constitutes a potential threat nor who might have information which the MOD might find of importance.
4. MOD and OGDs have to deal with Parliamentary Questions about UFOs and also receive a significant number of letters from MPs acting on behalf of their constituents about this issue. MOD Ministers are required to respond to such inquiries and, in order to staff these properly, Sec(AS)2 must have full and accurate records of all reports made to the Department, however misguided we might, at times, feel the informant to be.
5. It is simply not possible for Sec(AS)2 to provide round the clock cover to respond to calls from members of the public about low flying and UFOs and, as you know, out of hours this is done on our behalf by the DCMC. However, I am unable to gauge the scale of your own concerns about the number and content of the calls you receive since, by your own admission, you do not report all of the details on to us. For the last six months we have on record that only 14 reports were forwarded to us by the DCMC. If you maintain a logbook of all calls received it would be helpful to know the details of all of those relating to UFOs which were not turned into reports for, say, the last six months. From this we shall be able to complete our records and assess by how much public interest is increasing.

6. Once we have this sort of information we shall be better able to look again at MOD policy on the handling of calls from the public about UFO sightings. I should be grateful for your assistance.

DETAILS OF OCCURRENCETITLE REPORT OF UFO SIGHTING

1. At 2340 hours a lady contacted the Ops room to report what she believed to be a UFO sighting, she declined to give her name but provided an address of Section 40, nr St Ives.
2. At 2230 hours tonight the lady and her partner were returning from Cambridge along the A14 towards Conington. Approximately a half a mile before Conington they saw what appeared to be two red lights in the sky. At first they thought the lights might be fireworks as they had seen these in the sky earlier in the evening. However, these were seen in a different direction. The couple decided that they would investigate further and turned off a lane halfway between Conington and Ellsworth. The lights had disappeared behind a hill and as the lane was very dark they decided that they would turn around and go home. On turning the car around and driving back the way they came a very bright light suddenly appeared behind them, lighting up the inside of the car. They were very disconcerted about this and left the area in a hurry. The lady stated that they had not been drinking and thought the sighting to be something they couldn't explain.

ACTION TAKEN

1. It was explained to the caller that we had not received any other calls concerning this area. However, the report of the sighting would be passed on to FCF for their information.
2. The DOB ref. no was passed to the caller for her info if she any other details to pass etc.
3. Info for FCF. E-Mailed.

U.F.O. SIGHTINGS**MESSAGE**REPORT OF U.F.O. SIGHTINGAt approx 2230hrs on Sunday 260896 on A4189 at Gannaway, Claverdon,
Warwickshire, Section 40, Coventry

Tel Section 40 saw the following:

"Triangular shaped object in sky approx size of a large helicopter,
totally silent, brilliant gleaming gold with row of lights all
around on one side, gliding gently and appeared to turn over. The
other side had what appeared to be black circles around it.
Definitely not an aeroplane."

Section 40 contacted her local radio station to enquire as to whether
other sightings had been reported. She was subsequently contacted by
Section 40, tel Section 40, a resident of Claverdon. This
lady described the above object exactly as Section 40 had seen it and
at approximately the same time.

Air Traffic Control at Coventry and Birmingham both state that nothing
logged with them and no 'unusual manoeuvres' took place within their
air space on that date.

For your information.

UFO SIGHTING from

Section 40

Hull

Log 116.

① Sighted at approx 0215am 26/8/96.

Section 40 stood on Southcoates Lane Bridge looking west when he saw the object travelling South.

Sighting lasted approx 7-10 secs. Then seen again at approx 0300am 26/8/96 travelling Northwards, again for 7-10 sec.

He described it as ~~orange~~ beige in colour, no lights, sound or smell, size of a fighter plane.

He first observed it with a naked eye, then with binoculars. He est estimated it to be 2000/3000 ft in the air, at an angle of 45° from eye level, starting it flew over the football pitches Southcoates Lane / Rosmead St.

The night was clear with patchy cloud.

Section 40 reported it to the police at 0317am 26/8/96. There were no other witnesses.

Section 40 is a keen UFO spotter, he subscribes to monthly magazines and first spotted one in 1980 which he did not report. This is his second ~~proper~~ proper sighting.

Shape of UFO

SAW A BRIGHT LIGHT ABOVE A MISTY TYPE OF SKY. IT HOVERED AND MOVED AWAY AT INCREDIBLE SPEED. IT WAS LIKE A SEARCHLIGHT BUT DID NOT HAVE A BEAM. IT HOVERED AND CAME BACK AGAIN. IT WENT ON FOR ABOUT HALF AN HOUR. SEVERAL PEOPLE SAW IT. NO SOUND WITH THE LIGHT. NO STARS IN THE SKY JUST A HAZE. THE OBJECT MOVED VERY QUICKLY AND IT WENT AT INCREDIBLE SPEED AND THEN CAME BACK AGAIN. THE OBJECT HOVERED ABOVE THE BRITISH MUSEUM FOR ABOUT 2 MINUTES AT A TIME. IT WOULD DISAPPEAR BEHIND THE BUILDINGS AND THEN COME BACK AGAIN.
