Unknown Flying Objects Observed Over Budapest

REPORT NO. 00-K-3077200

DATE DISTRIBUTED 1 Apr '57

NUMBER OF PAGES 1

SUPPLEMENT TO REPORT NO. 00-K-3077200

RESPONSIBLE TO

00/K

THIS IS UNEVALUATED INFORMATION

1. During the early part of May 1956, I was told by several engineers, close associates whom I believe to be reliable, that the Ministry of Defense was alerted concerning the over-flight of a formation of unknown flying objects, flying in an easterly direction during that month.
2. My friends related that what appeared to be aircraft, flying in formation at an extremely high rate of speed at approximately twenty-five thousand meters, were observed by radar units of the Home Air Defense Command. Nothing was done to disturb this flight, the probable reason being that the Home Air Defense Command had no weapons at its disposal to reach these intruders.
3. During the same period, May and June 1956, many reports originating from all sections of Hungary cited the appearance of "Flying Saucers". For two or three weeks, reports appeared almost daily, describing these objects as fast-flying objects which could change direction of flight, acceleration and deceleration with utmost ease. My friends told me of discussions at the War Technical Institute in which Hungary's leading mathematicians, engineers and technicians took part, concerning these objects. It was decided that they did not exist and that if anything, the reports were initiated by US propaganda. An official announcement appeared in "Szabad Nép" declaring the entire "flying saucer" scare was a myth.
4. An interesting observation of one of my colleagues, however, was "Even if they don't exist, I hope they are on their way to bomb Moscow."
