UNIDENTIFIED OBJECT OVER NORWEGIAN TOWN

On 18 September, at 1400 hours, three forestry workers who were working right outside Kirkenes noticed a flat, round object hovering motionless at about 500 meters altitude. The object appeared to have a diameter of 15-20 meters. After the workers had observed the object for a while, it suddenly flew away at great speed in a northwesterly direction.

It appears that only these three workers saw the object; they swear, however, that their report is true.
