1. In November 1955 I received a letter from my niece in Budapest. This letter contained the following interesting item (free translation): "The so-called flying saucers (rockets) [sic] for several weeks kept the people in a nervous state. These very fast speeding flyers kept scientific groups very busy. I'm sure you heard already from the papers, 12 thousand km per hour was estimated on these flyers."			
2. Included with the letter was the following sketch indicating the formation and suspected course of the above objects: Budapest  Moscow			
3. This is the first time my niece has mentioned such objects in her letters.
