REPLY TO
ATTN OF: XPCP

Date 16 Mar 67

SUBJECT: Unidentified Flying Objects (UFO)

TO:

When unidentified flying objects (UFO) are reported, the following information will be filled in and then forwarded immediately to Plans/Program attention XPCP.

a. Description of the Object(s):

(1) Shape. like a very bright star

(2) Size compared to a known object (use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit, or basketball) held in the hand at about arm's length.

pin and pea

(3) Color. bright white with little flashes of red and green

(4) Number. 1

(5) Formation, if more than one. N/A

(6) Any discernible features or details. flashes of green around what appeared to be port holes.

(7) Tail, trail, or exhaust, including size of same compared to size of object(s).

None

(8) Sound. If heard, describe sound. None

(9) Other pertinent or unusual features like a light that is dimmed diminishing to pen point size, then disappeared.

SEND 164

b. Description of course of Object(s):

(1) What first called the attention of observer(s) to the object(s)?

friends observation pointed out to her.

(2) Angle or elevation and azimuth of the object(s) when first observed. not very high above the mountains - about 3-4 inches above the horizon.

(3) Angle or elevation and azimuth of object(s) upon disappearance.

same height, but veered slowly to the North.

(4) Description of flight path and maneuvers of object(s).

straight forward and then reverse.

(5) How did the object(s) disappear? (Instantaneously to the north, etc.)

slowly to North

(6) How long was the object(s) visible. (Be specific, 5 minutes, 1 hour, etc)

10 minutes

c. Manner of Observation:

(1) Use one or any combination of the following items: Ground-visual, ground - electronic, air electronic. (If electronic, specify type of radar.)

ground visual (naked eye)

(2) Statement as to optical aids (telescopes, binoculars, and so forth) used and description thereof.

None

(3) If the sighting is made while airborne, give type of aircraft, identification number, altitude, heading, speed, and home station.

N/A

d. Time and date of sighting:

(1) Zulu time-date-group of sighting. 3 Mar 67/0253Z

(2) Light conditions. (use one of the following terms: Night, day, dawn, dusk) Night

e. Location of Observer(s). Exact latitude and longitude of each observer, and/or geographical position. A position with reference to a known landmark also should be given in electrical reports, such as "2mi N of Deeville; "3mi SW of Blue Lake". Typographical errors or "garbling" often results in electrically transmitted messages, making location plots difficult or impossible.

EXAMPLE: 89 45N, 192 71W for 39 45N, 102 21W.

N of the cross on the hill and West over the mountains (near Lookout Mtn)

f. Identifying Information on Observer(s):

(1) Civilian - Name, age, mailing address, occupation, and estimate of reliability. Mr. [REDACTED] Housewife, Skyline

6-2693

80237

(2) Military - Name, grade, organization, duty, and estimate of reliability. N/A

g. Weather and winds -- Aloft conditions at time and place of sightings:

Clear - calm

(1) Observer(s) account of weather conditions. _____

clear, all stars visible

(2) Report from nearest AWS or U.S. Weather Bureau Office of wind direction and velocity in degrees and knots at surface, 6,000', 10,000', 16,000', 20,000', 30,000', 50,000', and 60,000' if available. _____

(3) Ceiling. 16,000 scattered

(4) Visibility. 20 mi

(5) Amount of cloud cover. high thin broken

(6) Thunderstorms in area and quadrant in which located. None

h. Any other unusual activity or condition, meteorological, astronomical, or otherwise, which might account for the sighting. _____

None

i. Interception of identification action taken (such action may be taken whenever feasible, complying with existing Air Defense directives). _____

None

j. Location, approximate altitude, and general direction of flight of any air traffic in the area at time of sighting. _____

k. Position title and comments of the preparing officer, including his preliminary analysis of the possible cause of the sighting(s). _____

l. Existence of physical evidence, such as materials and photographs. _____

EDWARD E. VICKS, Major, USAF
Chief, Operations Services Division
