1. Reference your letter of September 14, 1967 in which you reported your unidentified flying object (UFO) observation and subsequent photographs of August 9, 1967. Additional information on your sighting and your original negatives are needed to perform a scientific investigation. Request you complete the attached photographic data sheet and FTD Form 164 and return them with your original negatives. Upon completion of analysis we will return your negatives along with our findings.

2. Your letter indicates that three photographs were taken of the unidentified object, however, you forwarded only two photographs. Would you please state whether two or three photographs were taken.

3. Reference your letter of September 19, 1967 in which you requested the return of your photographs. Your two photographs are attached. An analysis has not been performed on them.

Dear Sir,

I am extremely sorry about the stir I caused over my "U.F.O.", but it seems that my friends were playing a little joke on me. You see, some of [redacted] friends got together and made up a kite which resembled a U.F.O., so I'm afraid that that's all it was. I can't say how sorry I am at the stir I caused. Please forgive me.

Sincerely,

SUBJECT: (Unclassified) Report of Information on Unidentified Flying Objects

TO: Director of Intelligence, DCS/O
Headquarters, USAF
ATTN: AFOIN-C/CC
Washington 25, D. C.

1. In compliance with letter, Headquarters, USAF, AFOIN-C/CC-2, subject as above, 19 December 1951, the following information, as reported to this headquarters by Mr. [redacted], is forwarded. This report was not transmitted by electrical means due to the fact that no other activity or observations were reported from this area and report was not deemed of sufficient value to warrant electrical transmission.

a. Description: Two orange lights, moving at jet speed, no sound, one behind the other, moving North for approximately two miles, then separated, one going Northwest and the other continuing North. The one headed Northwest appeared to get momentarily brighter, then returned to its original glow. Altitude estimated at 1500 feet.

b. Time Sighted: 2215C, 27 August 1952.

c. Manner of Observation: Surface-visual.

d. Location of Observer: W Long 96°45', N Lat 32°51', 6521 Trammel Drive, Dallas, Texas. Object first sighted approximately one-half mile West of house and 40° above horizon.

e. Identifying Information on Observer: Mr. [redacted]s and wife, 6521 Trammel Drive, Dallas, Texas. Mr. [redacted] works as bookkeeper at Cook's Modern Home Office. Wife does not work. Average intelligence.

f. Weather: 015 125/87/66 14/993.

g. Other Activity or Condition: None reported.

h. Existence of any Physical Evidence: None reported.

i. Interception or Identification Action Taken: None

j. Location of Air Traffic: Very much aircraft activity in area going in and out of Love Field. Both Mr. [redacted] and wife insisted that object sighted was no normal aircraft.

U.F.O. sighting

On August 9, 1967, me and a friend of mine had been walking our bikes around together. We were coming back to [redacted] by my friend's house (Ronald [redacted]) when we noticed a bright light in the sky. We watched it for a while and thought it was some bright object. At last, I thought it was a plane, but it had loud down noises while it was still in the distance. After a half hour a [redacted] and a half or a little more, I decided to go in my house. I told my mother about it and she said it was probably a star. I knew that it was not a star. It was a bright light. It was a small metallic color and had a shape like a
