INSUFFICIENT DATA FOR EVALUATION

11. BRIEF SUMMARY AND ANALYSIS
The observer sighted several white lights that were like stars only a little brighter. The lights were observed for 10-15 minutes and moved from the NE to the N.

COMMENTS: In that the time of the sighting is unknown the sighting has to be listed as insufficient data. Since the sighting is of point light sources it really doesn't fit the definition of a UFO as given by 80-17.

DEPARTMENT OF THE AIR FORCE
WASHINGTON 20330

OFFICE OF THE SECRETARY

September 4, 1968

Dear [redacted]

This replies to your letter of August 28, in which you reported that you and your friend [redacted] have seen unidentified flying objects (UFO's).

Without additional information, we cannot offer explanations of what either of you might have seen. However, if each of you will complete one of the inclosed questionnaires and mail them in the inclosed envelopes, our technical people at Wright-Patterson Air Force Base, Ohio, will be able to investigate further and make an evaluation. If your boyfriend wishes to report his sighting, it is very important that he complete the questionnaire because we cannot accept secondhand sighting reports.

Should you ever sight another UFO, please report it as soon as possible to the nearest Air Force base. Each base in the United States has a UFO investigator, who is in a better position to make an on-the-spot investigation, which usually results in a more accurate analysis.

In the meantime, you might be able to identify your sightings by looking at the categories of objects often reported as UFO's in the material we are sending.

Sincerely,

(Signged)
