OCT 23 1967

Dear Mr. [redacted]

We are unable to identify positively the object you observed on September 4, 1967, without additional information.

The description you provided is consistent with rotating satellite packages. It would be nearly impossible to determine which satellite component you might have observed since there are more than forty visible to the naked eye.

The State of New York is heavily ringed by SAGE stations, but none of these stations reported any unidentified flying objects. We did not receive any other UFO reports from the State of New York.

In the future, if you should observe another unidentified object, please contact the nearest Air Force installation immediately; it will be glad to conduct an on-the-spot investigation.

Thank you for bringing your observation to our attention.

Sincerely,

DAVID L. STILES
Major USAF
Acting Chief, Civil Branch
Community Relations Division
Office of Information

Mr. [redacted]
Saratoga Springs, New York 12866

M/R: SAFLL sent an interim reply, saying that WPAFB was being consulted; then they asked us to send the results direct to Mr. Larson.

The Honorable Carleton J. King
The House of Representatives
Washington, D. C.

Dear Carleton:

I am enclosing a comprehensive report on the UFO or UOF which you and I discussed on your last visit to Saratoga. You said you would give it to the Defense Department. Hope to hear from you soon or will the Bluebook gobble it up in its confusion?

Best regards to Connie. Keep well

Sincerely

LAKE JACKSON, TEXAS 77566

Sept 1967

UFO Incident 8:30 PM Sept 9 1967

Location Greene County Town of Hunter
[redacted] Gut Lot 26.
Bradenburgh Patent Greene County
Terrace on East Side of Grimsted Home
Coordinates 2199N 702E 1:63
Sheet 6168 II NE AMS Series V827

Observers [redacted]

Circumstances Reclining on Terrace at
East side of the City house.
With Bicester set up to observe
Andromeda Galaxie. Also Bal 6x30
Binocular & Kalimar 7-12 x 50
Binocular both focused at infinite

Time Exactly 8:30 PM Eastern Daylight
by radio watch later checked to be accurate
within 1 min by radio time announcement

Object observed Flashing white light with
a period of approximately 1/5 sec
per flash. interval

Trajectory

Appox 35° above horizon immediately below
North Star — Traveling in a direct
line apparently easterly dropping below
the tree line when due N.E.

Time of flight observation

Appox 12 seconds

NELSON D. GRISWOLD
THREE BAYOU ROAD
P. O. BOX 236
LAKE JACKSON, TEXAS 77566

Noise None Quiet night, no traffic, no sound.

Weather Clear sky, starlight, no moon, no wind

Conclusions Both observers agreed object could not be meteor. Very improbable that it was airplane because of lack of sound plus obvious speed ~~of~~ if at high altitude. Not a echo satelite. Such having been observed by both previously also flashing. Also are red or green light as with airplane

Both observers had time to form binoculars on object and observe. No significant dimensions observable the object was comparable in brightness to Venus.
