Dear [REDACTED]

This will reply to your letter of October 12 in which you described your observations of unidentified flying objects (UFOs).

Many details necessary to positive identification of the sights you saw are missing, and without further information, identification would be virtually impossible. If you care to complete the attached questionnaire and mail it in the envelope provided, perhaps a tentative identification can be made.

In the meantime, we are inclosing a copy of our latest Project Blue Book report which may help you in identifying what you saw.

Sincerely,

DAVID L. STILES, Major, USAF
Acting Chief, Civil Branch
Community Relations Division
Office of Information

Washington D.C.

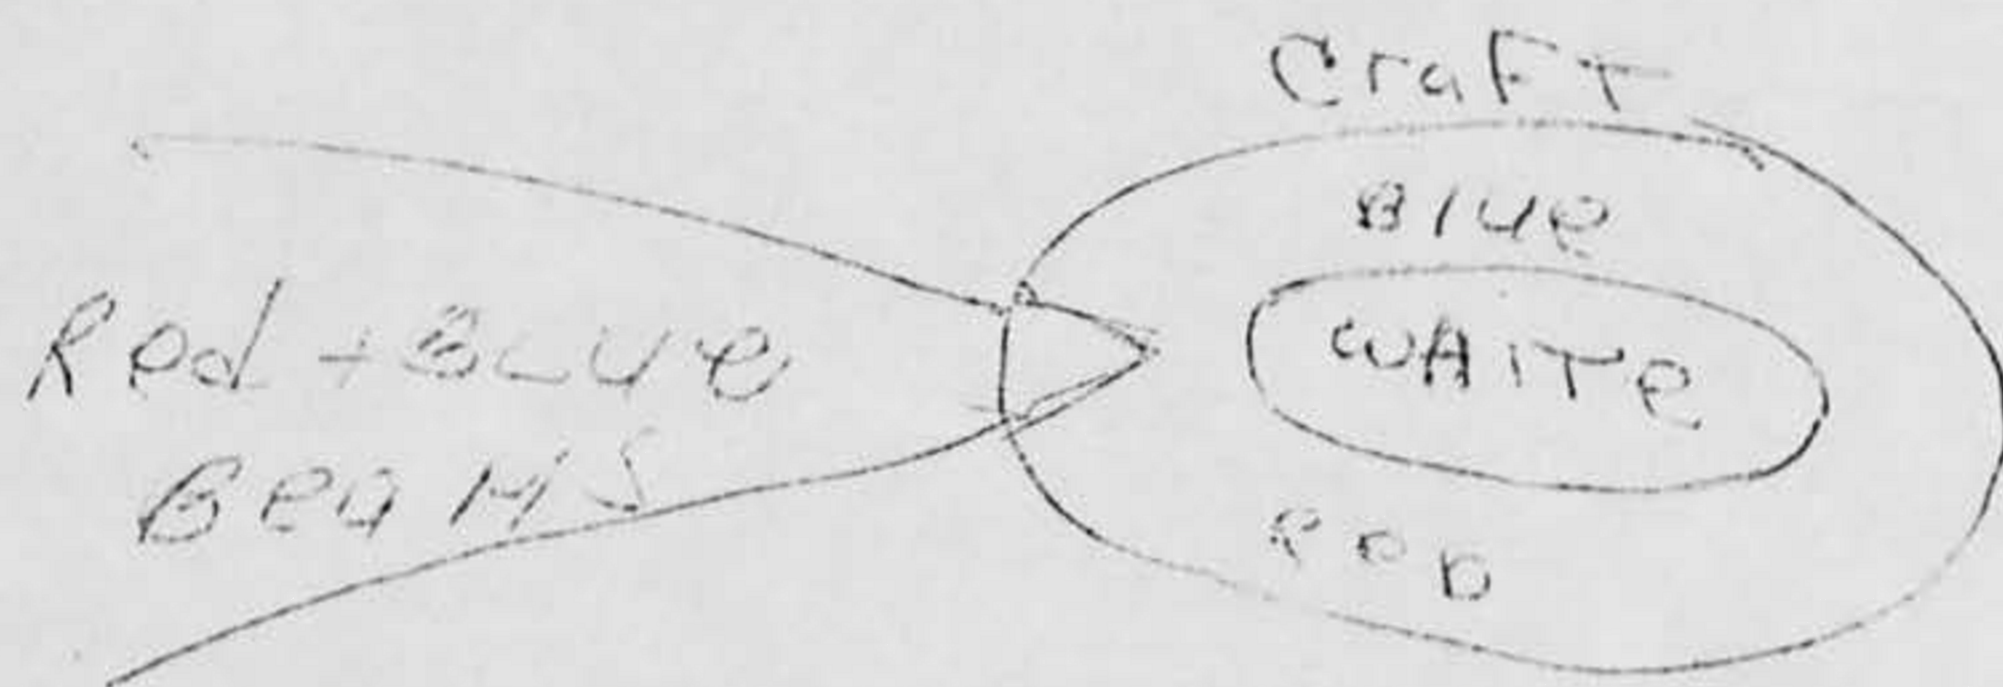

Dear Sirs,

On October 11, 1967 at 545
Connetquot Avenue we spot-
ted a series of blinking
red and blue lights. The time:
7:45. My companion went
to get her binoculars. We
saw the object go down Elm-
wood St. We followed it. After
a few minutes we lost it and
looked behind us. It was
coming at an extremely
fast speed toward us. We jump-
ed by a car and it hovered over
us, shutting off its light.
Finally it left and we
ran to my house to get
my binoculars. Then we

saw two of them coming from the sides. When we got out of the house it was gone.

We went to her house. There we got into the boat in the backyard. Two of them came over the boat so we went into the hull. After they left we were so scared that we ran to the front. We were looking towards ~~the front~~

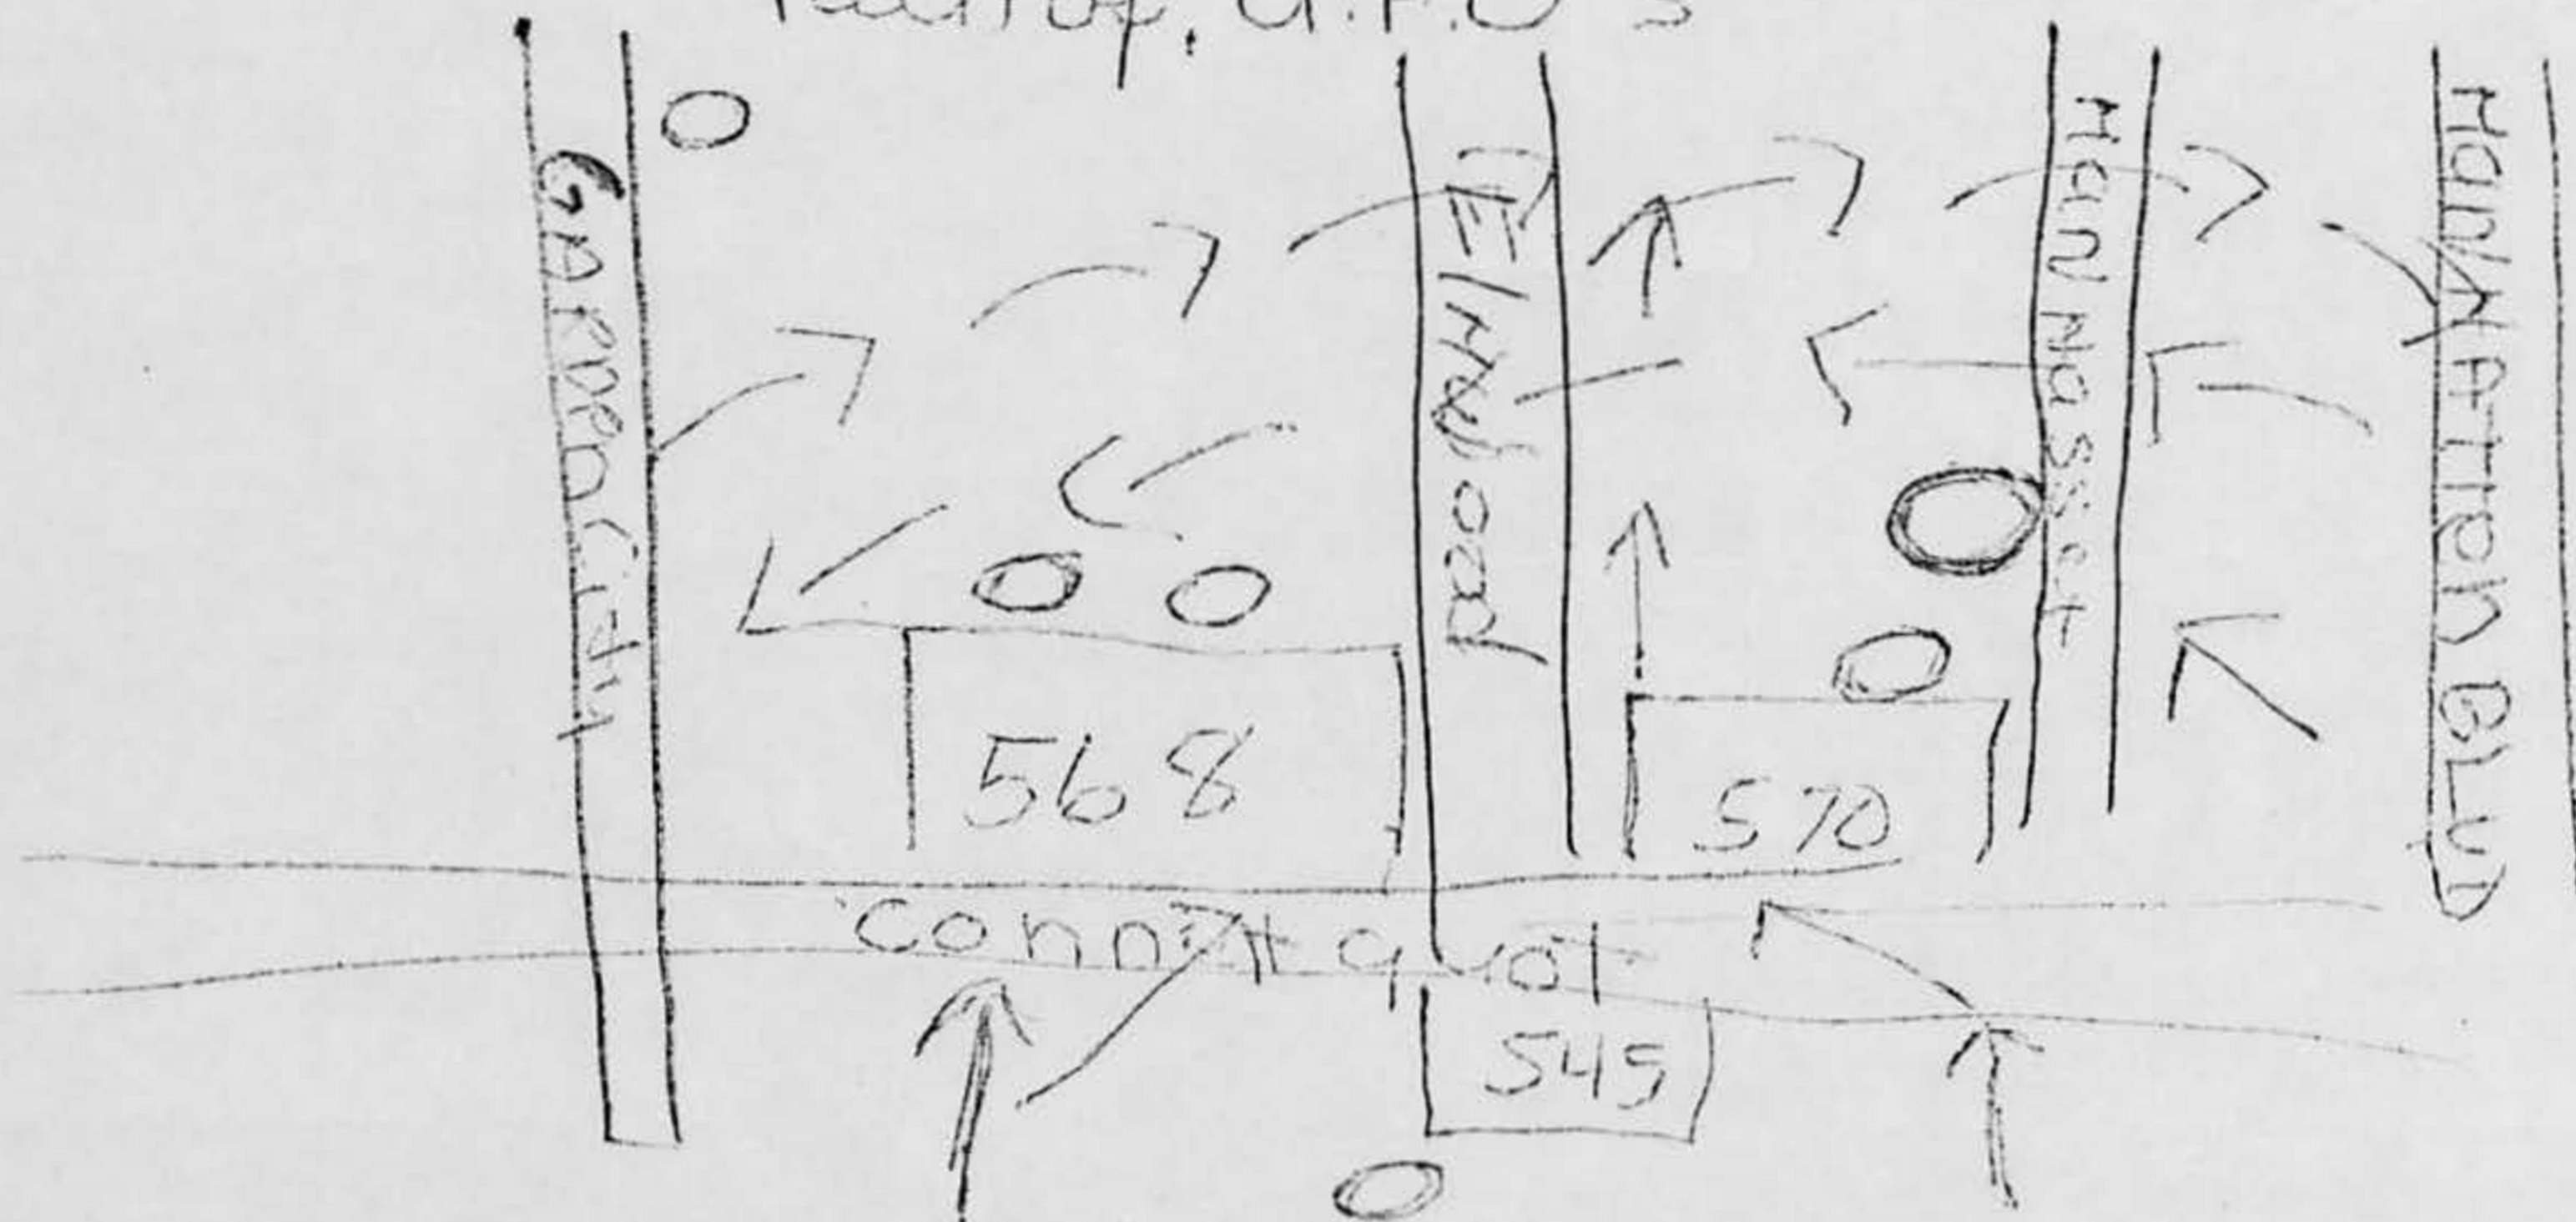

~~the front~~ where we saw five of them hovering over. They seemed to come over and stop, as though doing something. Every few minutes two of them would get together. Then I looked into the binoculars and ~~saw~~^{saw} the craft:

We went to my house and saw six of them going over E. Manhattan St. They seemed to be ~~for~~ surrounding us.

We went in the back again; into the boat. There was a scary quiet. Then I heard it: a high shrill. Five crafts kept coming closer to the Earth. We ran into the house. No one would believe us till they saw it.

After a while they kept going from Garden City St. to E. Manhattan Blvd.
- faith of U.F.O's

The circles on the drawing
stand for the spot where
they were hovering

Please, we're not crazy. We
swear to God with what we
saw. Please, help us.

Thank You
