Dear Sir:

We have been seeing flying saucers around here.

The 1st was on Jan. 23, 1967. at 5: 4. M. This was a bright orange saucer, stopped object up in the sky which had left a vapor trail as wide as a road, past our Mobil Home & past my Father's barn, as we have our home on my Dad's farm.

But the most recent and more shocking to my 9 year old son, was on March 9th 1967. Craig, my son, saw this saucer hover over my Dad's pond, which we can see from our Mobil Home. It was at a very fast speed he said, but then stopped above the pond just as fast. Then it landed in my father's barn yard.

He says it seemed to land down on 3 or 4 legs, so it was high enough, he could watch it from the window of our home, my son was home alone at the time. Craig said a ladder was put down, which he seemed to think looked quite long, if the saucer was on legs I suppose it was. Then this little guy got out, all my father's little got very scared except me, which this creature had an instrument held it and his hand in front of this cow or steer, and it didn't move, it just stood there as if it was stunned or hypnotized. What do you think? Craig said he did the same to a smaller calf. Craig was scared, so he went out on the porch here, but others were stayed inside, as he was home alone. Craig said after this creature did those things, he crawled up the ladder & disappeared into

This blue-grey round saucer,
Craig mentioned as it hovered
over the pond it seemed to be
shooting fire from all around it.
Anybody states, that's what it looked
like.

This thing took off Craig said,
We have been watching close ^{to it}
since, but no sight of it or
any thing.

We looked for tracks &
tracks & found none, but
as the cattle in the barn
yard step they could have well
covered up any evidence. It
was mild that day - This was
about 6 or 6:30 on the 9th of
March P. M.

I tell you Maj Hester, I haven't
slept since. I wake up all hours
of night & have to peek out the
window.

I'm ready to invest in a
couple of huge German Shepherd
Dogs.

I hope you can soon do
something with those other people.
Sincerely in Research,

Mrs. [REDACTED]
