? = Unidentified
Poss UFO also! —
JPH.

11. BRIEF SUMMARY AND ANALYSIS

Due to brightness of object and the moon off the [illegible] observers could not distinguish any shape. Object did not throw off a ray of light which resembled a star, but was more round. For further discription of objects see case file.

Copy for Hynek

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Wed. 17th of May 1967
Day Month Year

2. Time of day: 11 : 30
Hour Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): (a. Daylight Saving)
b. Standard

4. Where were you when you saw the object?

[redacted] Xenia Ohio
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration) 1 45 _____
Hours Minutes Seconds

a. (Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? I had just looked at clock at 1130 went straight to door to see if it was lopsided when I spotted the light

5.2 Was object in sight continuously? Yes ✓ or No ✓ Except when light went off between trees as car as light came on.

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	b. (Cloudy) ✓

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. (A few) The stars were straight up while this light was so low it appeared less than half way up
c. Many
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. (Dull moonlight)
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. (Scattered clouds)
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. (Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
d. (As a light)
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. (Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

About four times size of light as the North Star

12. The edges of the object were:

(Circle One): a. (Fuzzy or blurred)
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other because of brightness and because, since I was way off to side I could not distinguish shape. It did not throw off little pointy light which makes star look. It was more round

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	No	(Don't know)
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker? red & green light flashed across front about every 5 of the 5 second.	(Yes) ←	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how? Moved farther back in sky making it appear smaller. As it moved farther away the yellow light took on a very faint green appearance to it making it yellow green. Then it seemed to sit for about one to one & half minutes and turning a darker green went straight up getting smaller & smaller until disappearing

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: It went behind trees but by walking out into our yard we could continue to see it until it moved out again

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what in front of: a cloud - which would make as light reflects on the side (at the time) towards us. Each time we saw a white misty light it happened at the same moment the object changed position going forward

17. Tell in a few words the following things about the object:

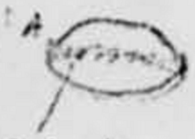
a. Sound for only a few seconds, as it grew smaller, we heard a noise which we can associate with the sound of high winds with a shrill whistling faintly

b. Color Light Yellow with red & gray light (side by side) flaring across the front of it every of the 5 seconds (the red light always first) then turned completely green as it disappeared.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

about 1/2 - The part that ~~did~~ was not covered would have been divided equally to the sides of the ~~matt~~ match head - as this - a thin rim of light would appear on each side

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.



Red Dash light a path across the dark dot being the red with the green so close it looked attached to the red. After moving across the front it would take 4 or 5 seconds for it to appear at A again. Then it would flash across in about 1 to 1½ seconds.

The picture is only to show more width than ~~height~~ to the light. The outline was not ~~clear~~ visible because of brightness of light

The white mist was behind and to the side away from us. This was only seen as it went forward (EAST) & grew smaller going North East. It was not seen when object fell or rose to different light

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? I would say it moved from close to eight miles at its nearest to about 12 to 15 miles when it was just a small speck before it left.

22. Where were you located when you saw the object? (Circle One):

(a.) Inside a building looking out my screen door
b. In a car
(c.) Outdoors went out into yard for clearer look
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

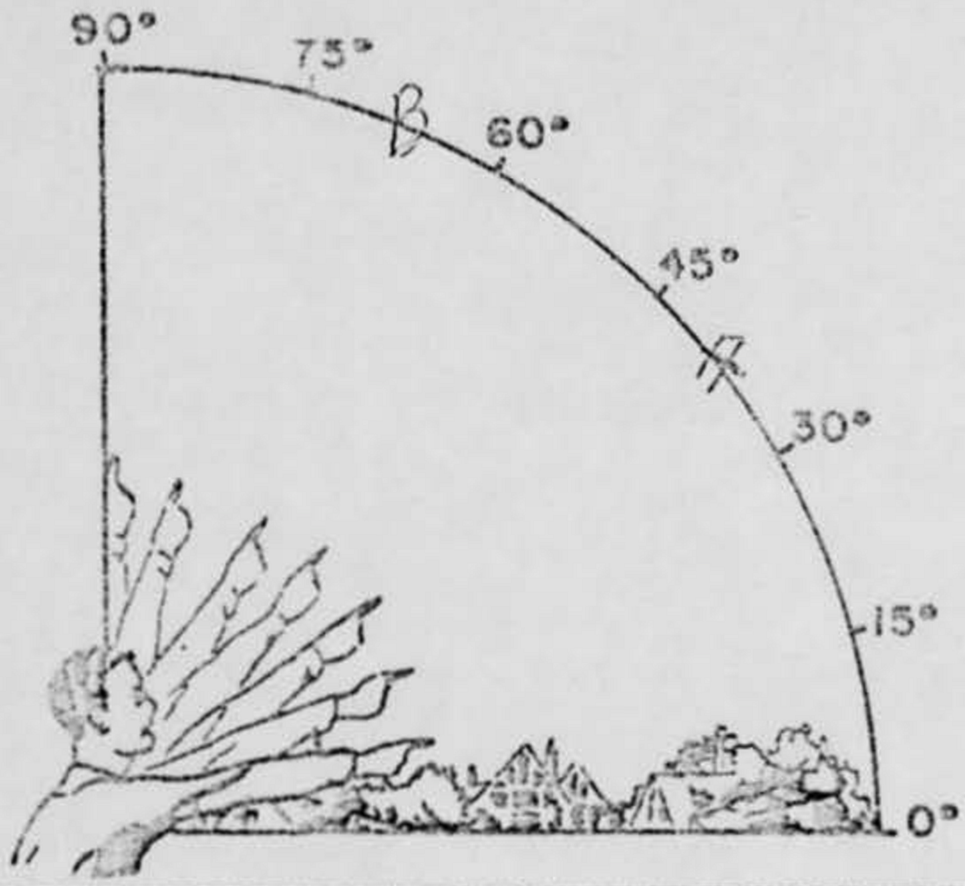
a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other		

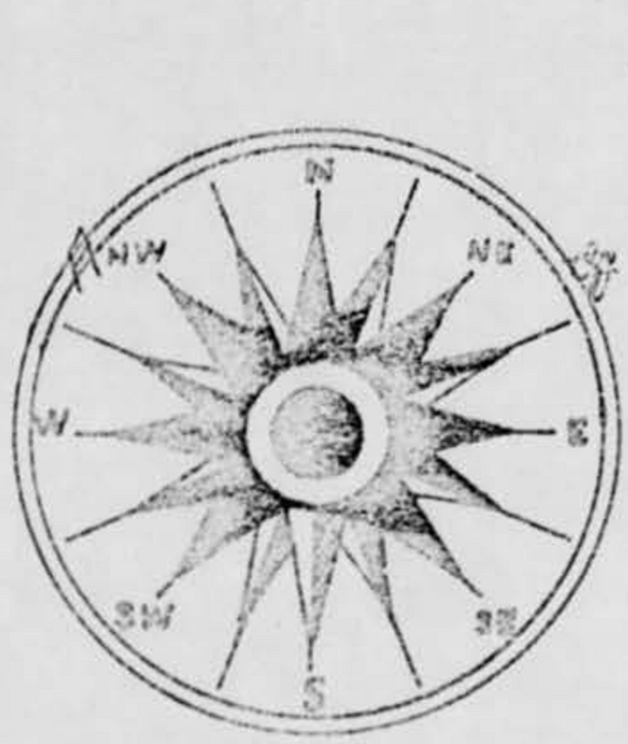
Through screen - Daughter who witnessed was using glasses - We went out into yard also

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

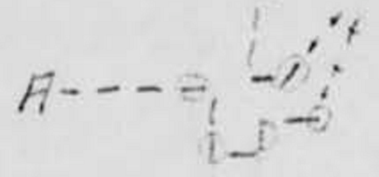
A measuring spoon (1/4 teaspoon) turned upside down and tilted away from you until you can almost see the bottom of the inside and imagine the red & green light running across the rim of the spoon making it look as if the lights started lower left going up thighs in the center

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





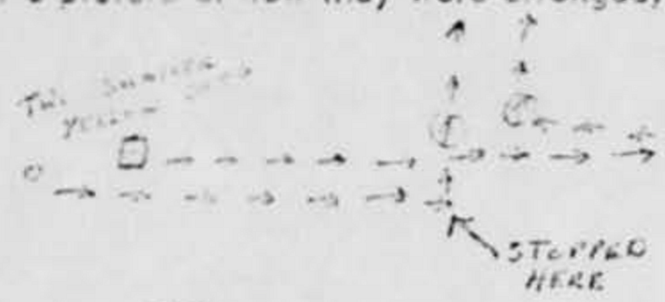
28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



Lines with circles around show where lights went off for a few seconds (this is as close to what I can remember). The lines that are crossed are where it became smaller and then came back to larger size. (Going up to B the 2 green lights became smaller & smaller until they completely disappeared (2b)

29. IF there was MORE THAN ONE object, then how many were there? 3

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.



MOVED AS WRITTEN ABOVE

ONE IN SQUARE CONTINUED FORWARD AFTER OTHER HAD STOPPED. THEN RETURNED TO ALMOST SAME DISTANCE FROM OTHER AS IN BEGINNING. ARROWS WITH CIRCLES AROUND SHOW WHERE THESE TURNED GREEN. THEY THEN ROSE TOGETHER UNTIL OUT OF SIGHT.

THE ▣ SEEMED NOT TO STOP AT ALL. THE TWO WERE MUCH HIGHER IN THE SKY AND MUCH SMALLER.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

KAREN LEE ENNIS 1305 BERWALD DR. XENIA, OHIO AGE 15

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) XENIA (City) (Zone) OHIO (State)

TELEPHONE NUMBER [redacted] AGE 32 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I did not call any neighbor out to witness this because all the time I kept telling myself and daughter this could have been weather balloons or helicopters since it seemed in the direction of W.P.A.F.B. When the lights disappeared straight up at such a rapid speed I finally decided to call.

33. When and to whom did you report that you had seen the object? CALLED W.P.A.F.B.

Wed 17th of MAY 1967
Day Month Year

34. Date you completed this questionnaire: 25th (Day) May (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The red and green lights which crossed the object (or light) were like the lights that go down the runways at the base. Especially as seen from Route 235. Not a light that moved around but a line of lights that flashed in aquence.

All three lights disappeared, going up to B, (as in drawing) almost in same spot. Growing smaller as they rose, and each turning a dark green just before rising and staying green until disappearing. (dim)

At the times the white misty light appeared it made the area of the object* look three dimensional. The object, the light inbetween and then the clouds from which the light was reflected. Reflected probly isn't the right word but it made the cloud look large (almost as a barrier) or something solid.

This is the only thing which gave any idea to me that there was or might be something solid there. When the light shown against the cloud it seemed to be over something and not from it (as in a ray.) The light seemed cut off in an arch. Since it only lasted a second we had no time to observe a ~~dark~~ definite line or shape.

* The two smaller lights never had the white misty light. Only the large one.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

17 (Day) MAY (Month) 67 (Year)

2. Time of day: 23 (Hour) 30 (Minutes) EDST

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

XENIA (Nearest Postal Address), GREENE (City or Town), OHIO (State or County)

5. How long was object in sight? (Total Duration) 1 (Hours) 15 (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? By clock

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	(b.) Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

Send 164

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
(b.) A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

1/4 moon

(a.) Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
(c.) Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

yellow - brighter than path star / about 2 green lights

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
(b.) Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

yes - 1 minute ff (30-60 sec light off)
then back on at moved position.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: trees - at going further away.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

a. Sound whoosh - started low going - high pitch sound
b. Color bright yellow, then green, blue, red,

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object? objects went very high and fast

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 15 to 20 miles away supposed to be in direction of WPAFB.

22. Where were you located when you saw the object? (Circle One):

(a.) Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside? Home in project
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

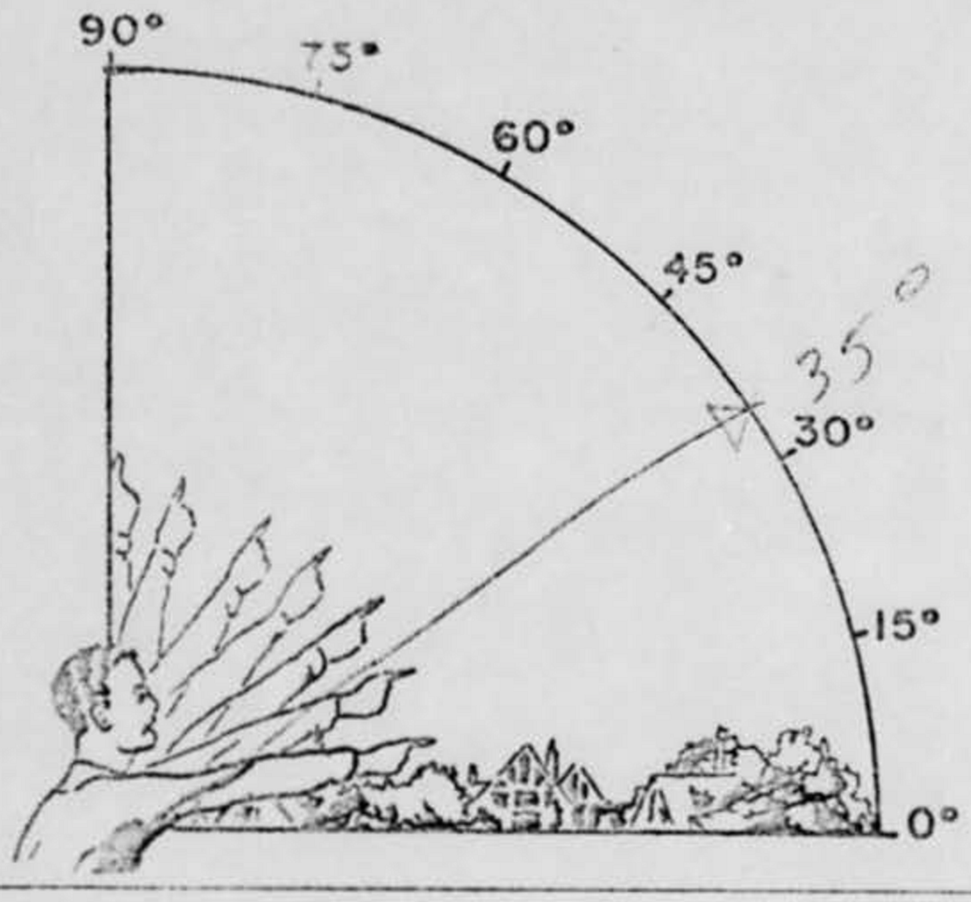
25. Did you observe the object through any of the following?

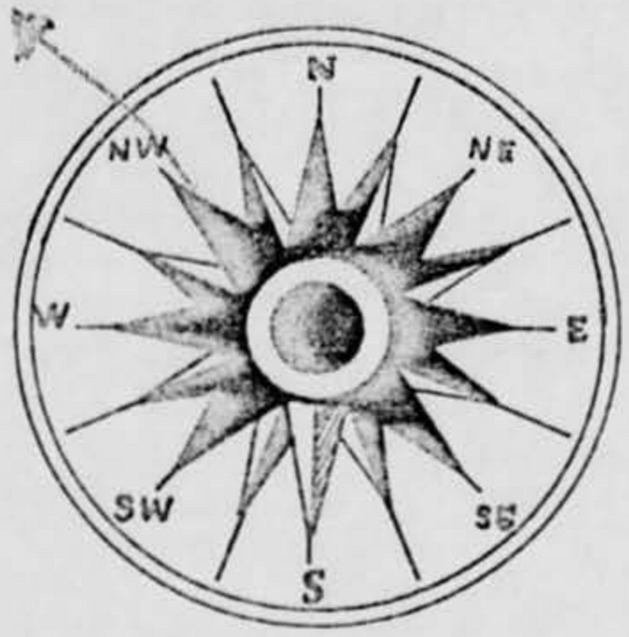
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other	Overlooked the outside	

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Nothing before

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

moved north + returned
green lights went straight up

29. IF there was MORE THAN ONE object, then how many were there? 4 lights
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

1 bright red/green moved in/out + up/down,
2 green lights moved down and appeared out further and went straight up in each
1 bright light moving around.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

Husband
Daughter
Two children.

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) DRIVE (City) XENIA, OHIO (Zone) (State) 45385

TELEPHONE NUMBER [redacted] AGE 32 SEX FEMALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

None.

33. When and to whom did you report that you had seen the object?

12 (Day) Nov (Month) 67 (Year)

Capt Hamilton, 70th Duty officer

34. Date you completed this questionnaire: 18 (Day) May (Month) 67 (Year) 0100 EDST

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

thought object might be seen WPAFB.

4 lights appeared to move.
